1:00 PM
McLeod Livestock & Kay R Charolais Bulls Sale

On behalf of McLeod Livestock and Kay-R Charolais, we would like to welcome you to our 6th Annual Bull Sale.

As I sat in at various calf sales this past fall, it was very obvious that when it comes to selling you calves that POUNDS PAY and there is a definite CHAROLAIS ADVANTAGE in the sales ring! The combination of heavy weaning weights combined with the premiums paid for Char-cross calves saw many producers maximize the returns they received for their 2018 calf crop.

This sale offering is filled with breed leading genetics focused on PERFORMANCE! In addition, we pay special attention to calving ease, disposition and maternal cow power. Our cowherds have been carefully selected, bred, culled and refined to provide the bulls that we have in this sale.

Please accept our personal invitation to the sale and be sure to come early and be our guests for lunch and refreshments. Even if your bull pen is full and you don't need one this year, take the day off and come for some coffee and baileys and some Charolais hospitality.

Hope to see you on sale day!

Rod, April, Colby & Megan McLeod
Kasey, Arlana, Kord & Peri Phillips

REF SIRE CML Gusto 662D

Two years ago, CML Gusto 662D was the high selling bull in our bull sale selling for $40,000 to White Lake Colony. We have been a believer in Gusto from day one and used him heavily in our breeding program. Gusto's first calf crop is the highlight sire group in this years sale with 10 sons on offer. The Gusto sons have tremendous performance, tons of hair and they were born easy with a short gestation.

Here is an opportunity to purchase a herd sire with a little more age that can cover a large group of females this breeding season. This September born bull is out of the two time Agribition Champion and 2015 Agribition Supreme Champion Female, Desirae 012. His sire is CML Exacta 514C, our high selling bull from our 2016 sale. Based on his current rate of gain we expect him to be over 1900 lbs at 17 months of age. He has great feet, lots of testicle size and nice tight sheath.

Broker is as complete a bull as you will find available this spring. He has an exceptional set of feet, he is tight sheathed, and his profile will catch your attention immediately. A lot of successful breeders will always tell you that your herd will resemble the mother of your herdbull so if you believe in this theory you won't find a better cow than Desirae to be the mother of your next herd bull. In addition, his full sister was the high selling heifer calf in Canada this past fall when she sold in the Genetic Edge sale to Canadian Donors. Broker is a bull we will be using in our program this spring.

A definite sale feature! We purchased the Canadian semen rights to RBM Fargo Y111, the 4th ranked performance sire in all of the USA. We had a slight delay in getting the semen to Canada but when it arrived we still did a flush to get a couple of calves even though we knew they would be the youngest in the sale. Absolute is a true herd bull. His dam has produced numerous purebred herd sires including Encore, Diablo, Copyright, Heisman, Exacta and Touchdown. His weaning weight WPDA is an impressive 4.11 lbs/day.

Commissioner is one of the most unique and intriguing sires we have ever owned. In his first calf crop Commissioner has exceeded our expectations. We feel he is a true curve bender. He provides super low birth weights and big time growth. His calves are all stamped with the same look and continue to get better and better as time goes on. We feel his outcross pedigree combined with consistency in every calf will make him a breed leading sire for years to come.

← LOT 31

Chain Reaction is perhaps as exciting of a herdsire prospect as we have raised in a long time. His mother is a full sister to Velocity and she has been a favourite to many that have seen her. She has a flawless udder, is huge middled, and is as sound as you can make one. Chain Reaction is the result of an outcross sire and a proven dam. He has a below average birth weight and an above average weaning weight; a combination that is hard to find. 309F has a big foot under him, loads of hair, is smooth polled, and is as smooth-made as you can find. Chain Reaction has all the makings of a dominant sire.

910F has a pedigree built for success. His dam KAYR 910W has become one of the most dominant females at KAYR. She has produced some of the top end females for our herd and is also the mother to KAYR Mainstreet 910A who sold to Effertz Key Ranch in North Dakota and KAYR Providence 910C who is walking at Nelson-Hirsche purebreds. We feel that the consistent calving ease in the Commissioner bull, along with huge growth make him a rare find. Proctor has herd bull in every corner of his makeup. Power, length, soundness and a great look.

← LOT 33

Rico is the result of mating our newest herd sire Commissioner, to a time tested and proven pedigree with the classics. KAYR 26Y is our biggest, soggiest and stoutest female we have. She has consistently raised some of our highest weaning calves year after year. Rico is the total package. He's stout, sound, long bodied, and packs a heavy haircoat. He will undoubtably leave a huge impact as a herdsire. Rico will sire free moving soggy made bulls, and the daughters will be heavy milking, highly productive cows.

4F is the type of bull we like to produce for our commercial customers. He's smooth made, has moderate birth weight, and provides a lot of performance. The Gridmaker cows have been the back bone of our cow herd many years because they consistently produce sons like General 4F.

KAYR *General* 528F

KAYR General 528F is definitely going to be a performance sire. If pay weight is what your after then this is the bull for you. He is soggy made, massive in his rib shape and deep quartered. His dam is big bodied brood cow that consistently produces heavy weaning calves.
