LAZY S RANCH

Welcome...

On behalf of everyone at Lazy S Ranch we would like to invite you to join us Saturday January 28/2017 for our 48th Annual Bull Sale. We are a located west of Edmonton in the Mayerthorpe area. We feed our own bulls as well as background and finish our steers and bottom end heifers. We are a family operation that makes 100% of our living from our cowherd.

2016 was interesting and challenging year for us and for many other producers, the year started dry and then the rain started end of May and kept up most of the summer and fall, haying and silaging between rains. Fields in fall where to wet to travel, but we finished up silaging Nov 28. We ended up with good feed supply and cows still out grazing early Dec.

48 years of perseverance has led to an outstanding hard working cow herd. We do not sell our top end replacement off each year, we put them back into our herd, this allow us to cull harder on the cowherd and only retain the very best mother cows, that have a good disposition, deep bodied, strong topped with good udders and feet that bring in a good quality each fall. We also annually ship our open cows, we don't rebreed them for a later calving season. Lazy S has a closed cowherd, we do not bring outside females or feeder cattle, only a few new sires from reputable herds.

We continue to invest in the best herdbull's the industry has to offer, we retain semen on our top home raised sires as well as purchased new outcross genetics to complement our cowherd, many of these sires are exclusive to Lazy S and are not available elsewhere, check out our herdsires ….pictures/video – on our website www.lazysranch.ca

We are pleased to offer this elite group of bulls to you. Quality from top to bottom runs deep. Due to demand we increased our numbers. This years offering is the most uniformed set of bulls to date. We do not sell any bulls prior to the sale. At Lazy S our bulls sell to the Commercial Cowmen, with a large selection of look-a-like brothers to pick from.

LAZY S RANCH

Bull Development

To valued customers and potential buyers:

The proper care, feeding and management of a young sire ensures that you will be satisfied with the return on investment of purchasing a Lazy S bull. These animals have been on a solid nutrition program provided by Hi-Pro Feeds. These yearling bulls will advance the results in your herd including increased weaning weights, carcass quality, and high quality replacement females. By managing yearling bulls properly your investment will return dividends for many years.

The nutrition program at Lazy S includes the following:

- At weaning time, the bulls are started on custom bull-growing ration that has been designed for the development of their frames and muscles without fattening them.
- There is no advantage for targeting high rates of gain in growing bulls by feeding large amounts of grain, therefore barley is not fed.
- Fertility of the herd bull is more important than its growth performance. In addition to protein and energy, rations contain an adequate trace mineral package that includes chelated zinc, copper, manganese and organic selenium to enhance reproductive performance.
- The cow herd also receives this mineral in the breeding season to enhance their reproduction.

Together with many other factors, the nutrition program is a key factor that influences the 'proper condition and weight' of the bulls, and thus their fertility. Hi-Pro Feeds is proud to partner with Lazy S to provide high quality, consistent feed and expertise to the animals in this sale.

He is thick made with excellent performance. He was a top performer for weaning at TNT, 871 weaning, 4.00lbs per day. His dam is a easy keeping, perfect uddered productive cow. Her dam is a daugther of the maternal great Mr Beef. Ranks top of breed for marbling. 706 Griz is in the top 1% for Birth weight, Calving ease and Maternal calving ease. His calves are low birth weight with tremendous growth. We used him exclusively on our heifers.

Introducing....

The Lazy S Red Simmental Bulls in this offering are multi-generational red and polled... solid colored or blaze face, sired by breed leaders that rank at the top of the breed for calving ease, birth weight, performance, maternal calving ease, marbling, REA and yield grade.

At Lazy S the majority of the herdsire bloodlines are exclusive to Lazy S Ranch and cannot be found elsewhere.

Lazy S Red Simmental bulls are fast becoming very popular among commercial cattlemen seeking an alternative to other breeds of cattle to strengthen performance, marbling, REA, yield grade and maternal power. Lazy S-sired red Simmental genetics will give you hat extra punch and increase your gains on grass and in the feedlot.

BULL HEALTH...

At birth calves are weighted and tagged and given Once PMH nasal vaccine (preventative for bacterial pneumonia), selenium, Tortrazil (preventative for cocci). Spring & Fall – calves have been vacinated with Pyramid FP5 – (BRSV, IBR, BVD 2 types, PI 3) Vision 8 somnus/spur, Presponse HM, treated with Cylence po, and give Safe guard.In January bulls are boostered again with Pyramid FP 5.

Introducing....

At Lazy S, our Black Simmentals are multi-generational black and polled... solid with a select few blaze face. Birth weights are moderate, calves are born easy and are vigorous at birth. Herdsires are selected for superior performance and maternal traits, fleshing ability, soundness of feet and legs with solid carcass performance. Buyers looking for good black-hided calves that excel on grass and in the feedlot, that marble and yield... Black Simmentals are proven to do just that. They also work extremely well in a crossbreeding program with British-based cows, such as Angus or Hereford – daughters will have retained heterosis and added productivity.

The Lazy S Black Simmental Bulls in this offering are a tremendous set of bulls, they have great hair coats, they are strong topped with lots of rib and hip, and offer outcross genetics only found at Lazy S. There are a few two- and three-star heifer bulls, you will love the way they calve.

Introducing....

Lazy S SimAngus Beefmakers.. CROSSBEEDING MADE SIMPLE! Now more than ever, cattlemen should consider the strengths of utilizing a SimAngus bull(s) in your breeding program. Our SimAngus have demonstrated time after time their ability to add growth, extra muscle and exceptional performance, while maintaining the moderate size, maternal strength, calving ease, and superior marbling and yield grades. Crossing the best of our Red and Black Simmental with Red and Black Angus enhances maternal performance and carcass traits. Notibly the largest benefit will be the superb set of look-a-like females you will be creating using this blend of genetics that offer improved reproductive efficiency obtained through heterosis (hybrid vigor) with breed complementarity.

We have created groups of bred alike half and three-quarter brothers in varying percentages, allowing our customers an excellent selection to best fit their management and marketing needs. From straight F1's to high-percentage Angus, or high percentage Simmental-influenced bulls, we have a nice selection for you to choose from... all packaged in a look-alike polled breed group.

RED BEEFMAKER

Introducing....

At Lazy S, our Angus genetics are selected for calving ease, performance, maternal traits and soundness of feet and legs, with an abundance of muscle, hip and top along with exceptional carcass merit that marble and yield well. If you're needing heifer bulls, many of the sale bulls have generations of built-in calving ease top and bottom, and rank in the top 10% of the breed for BWT and CE.
We have successfully calved the sires and maternal sires in our own heifer pen, so rest assured they will calve for you. Check out our new sire's - Revolver, Angus Valley, Final Answer and Limitless.
