Our Family would like to extend, a big welcome to our new and independent "Bulls from the Heart" 2019 Sale. Our appreciation & thanks to you and your family's interest and trust in our program through previous sales over the years, has given us the confidence and resolve to make this happen. We are also excited to have in our sale, a truly strong Black bull offering from a cow herd that we have, on shares, with our good friends at U2 Ranch.

As always, our focus remains our commercial cow/calf producer, and their ability to annually improve their bottom line. Part of how we develop and breed out our program is from customer feedback, with the greatest concern towards understanding their markets and how our

is from customer feedback, with the greatest concern towards understanding their markets and how our customers are using our bulls for the most benefit. As many of our home ranch visitors can attest, we have a very robust, balanced, & progressive cow herd where feet & udders are paramount. This allows us to produce consistent strong sire groups from across our herd each year. They specifically push efficiency on grass and feed conversion; lowering the producers cost/lb of gain. If you are in the market for one or many bulls, we can accommodate your needs.

Our drive remains the perennial quest to produce easy fleshing, muscular cattle, all with easy calving high maternal traits on a great foot, lending to strong offspring performance & profitability. We invest heavily in walking Sires ourselves and we rarely use any AI unless on previously proven bulls, so this ensures we are A: offering bulls that are dependable with real world functionality, and B: we can stand behind both the fertility and genetic traits.

These bulls have been fed responsibly with their future longevity foremost in mind through muscle, shape, and the intention to have the necessary condition to go to work in your herd this year. We feel this is our most consistent and strongest group of bulls we have brought to town yet. They are ranch ready!

Our family would like to make one final big far western Thank You to all Angus & other breed producers who came to the Comox Valley for the Canadian Angus Associations National Convention, in June last year. It was a Hoedown for the history books!

We have some excellent help for the sale this year from all the staff at BC Livestock, to our listed consultants, they are all here to assist you both on the ground, on the phone, or on-line in any way you need. Please feel free to contact any of us regarding the offering at any time, we'd be happy to have a visit.

Hope to see you on sale day, and please join us for a BBQ & social after the final hammer drops!

Brad, Aleta, Hayes & Cowan

BULLS FROM

It is with great pleasure that I welcome you to the Annual 'Bulls from the Heart' Sale.

Brad, Aleta & family run a top notch program on the Island at Heart of the Valley Farms and were

the host of the very successful Canadian Angus National Convention "Hoedown on the Pacific" this past spring. Sure, was a great time!

This year, changes have happened for the Bull Sale and a new venture was created, but what hasn't changed is the quality of the bulls on offer, from Heart of the Valley. The Chappell's stand behind their product and are always willing to work with new owners on their purchases. Do visit with him and be prepared for a good Heart to Heart! The Red Angus bulls have some serious herdsire candidates being out of some breed leading Sires such as Bono and Copenhagen. These Red Angus bulls have good hair coats, disposition, and great feet and are very marketable bloodlines.

New to this year's event is a group of Black Angus bulls that Heart of the Valley has a shared interest in, and this will enhance the sale with their customers looking for some thick, heavy muscled Black Angus bulls, with another set of breed leader sires, Syndicate, Coalition & more. All the bulls can be seen at U2 Ranch at Coaldale, Ab. For viewing up to March 24th, before they make their way to Williams Lake, B.C.

We at OBI have seen the product first hand and will be in Williams Lake, one day prior to the sale and are ready to discuss potential herdbulls or commercial bulls with you. We know the Chappell's program very well and they run an outstanding cow herd. So please do give us a call, any one of the sales staff, or Brad himself to discuss this outstanding set of bulls.

Mark Holowaychuk OBI Livestock Ltd. (403)896-4990 Roger Peters (403)828-9815

CALVING EASE GUIDE

Calving Ease is often related to the birth weight of a bull, and while this is partly true, there are other factors that influence CE. The dam and her management are at least 50% to 60% of the CE. The consistency & consideration of the following will also influence birth weight.

- * BW's of the sire and dam
- * BW epd
- * CE & Maternal CE epd
- * Sires calving inclinations
- * Sires physical confirmation
- * Nutrition, gestation, environment & latitude
- * Breed composition
- * Hybrid vigour

We rate each bull in the sale based on our recorded information & personal knowledge of our herd . Each year, one of the more frequent questions is which of bulls will work best on their heifers? Of course, only that person inherently knows their own heifers enough to make that call. We try our best to evaluate each bull in our sale to assist you in your choices, using our guidelines of:

- * Cow Bull, recommended for Cows only, not recommended for Heifers
- ** For use on Cows & larger framed Heifers
- *** Recommended for Heifers

EPD's and Performance Numbers

In light of the reconfiguration of the EPD's of only Red Angus at the CAA over the last year, and the fact that the transition is far from complete, we are sharing the most accurate information we can. In our never ending quest to provide the most complete and representative selection data on our Red Bulls, we are publishing both Individual Performance & Top Percentiles against the Canadian Red Herd. As there are, at this time, numerous comparable systems using different "base" mathematical models to achieve varying sets of EPD numbers, we felt it was in our customers interests to simply present the raw percentile ranking in comparison to the national herd. Our Black Angus Bull offering will include the historical, broadly known, Angus One EPD's from the CAA.

Eventually after pouring thru pens and pens of bulls, you will once in a blue moon come across a specimen that absolutely pulls you towards him. We weren't even planning to buy a bull that day, but as my wife reminds me "you couldn't keep your fist down". The old adage of 'buy Bulls when they are available, not when you need them" could never have been more true but because we herd build through 'walking Bulls', it is imperative for us to keep that in mind. Bono was definitely our next piece of the puzzle. We think his offspring will "up the bar" for our Red Breed too.

Prime Cut was the high selling bull at Hinman's 2015 sale for \$70,000 USD. We looked long and hard for over three years before finding this obvious herd bull candidate that stood out from the crowd. After viewing his moderate, deep bodied, beautifully uddered dam, we knew the search was over! Prime Cut was used heavily and successfully on a wide range of heifers and cows. He has provided us with reliable calving ease plus predictable performance and passes on his muscle shape, depth and perfect head carriage. We couldn't be happier with his progeny, both male and female. Visitors again this summer were fascinated by both the broody, stout and fancy fronted heifer calves and the cocky, wide topped, thick butted bull calves. We are confident that these fresh pedigreed new generation genetics are a huge part of an optimistic future of our program. We now have our second group of daughters milking and they are all what we expected and more. Sound, beautifully uddered deep bodied females that will stand the test of time.

This guy stamps his sons with tremendous hair, big tops, and a smooth design. Their super soggy and thick made in a moderate sized package. A never miss calving ease bull sold to Blairs. Ag out of a top producing Pride daughter. The replacements are super broody and built the same way and have passed it on to their progeny!

One of two Syndicate sons selling. He has been our go to Calving Ease bull for the past five years with zero assisted births. If you do not have one take advantage here! 616F is a younger son that checks all the boxes. Smooth made, stylish, with ample width and depth in a moderate package. With three generations of cows producing strong low birthweight calves here this guy will get the job done! All three cows have the udder and foot structure we require with great production records. Xclusive 25X is a bull we still use heavy for his great hair, foot structure, shape, growth and phenomenal correct females. Visitors always seem to pick out a lot of 25X daughters when touring. 340F is made right to travel and breed. Longevity is in this bulls DNA with his 15 year old dam still working. Sally 6P has given us many working daughters as well as bulls for Glen WIdeman, Dunn Ranching, Martin Puch and Allisons! YI 101 CE***

SALE TERMS

Bidding: Each bull will be sold to the highest bidder. Bidding disputes: The Auctioneer will settle any disputes as to bids, and his decision on those matters will be final.

Terms: The terms of the sale are cash or cheque and the right of property shall not pass until after settlement is made. All settlements will be made with the clerks of the sale at BC Livestock Co-op immediately following the conclusion of the sale and before any cattle will be released from the sale facility. Each bull becomes the risk of the purchaser as soon as the gavel drops.

Guarantee: We guarantee to sell you a bull that is structurally sound for breeding, and has passed a semen test done by a licensed veterinarian...for further details see our Breeders Guarantee

Insurance: Will be available on sale day

Liability: All person attending the sale, do so at their own risk. Neither the owners, clerks, or anyone connected with the sale assumes any responsibility, legal or otherwise for damage, injury or loss of any kind.

Announcements: Changes of information that are contained in this catalogue will be corrected by announcements from the block at sale time, & shall take precedence over any printed matter.

Semen: Heart of the Valley Farms reserves the right to collect semen on any bull sold through this sale for in herd use only, unless otherwise stated. This semen will be collected at the seller's expense and at the buyer's convenience.

Certificate of Registry: A Registration Certificate and transfer for each registered bull will be sent to the buyer after full payment has been settled.

Buyer Registration: Buyers please register for a buyer number with the clerks at BC Livestock, prior to bidding and purchasing a bull. Online buyers will need to register with DLMS

Cattle Inspection: All bulls carry permanent ID tags that correspond to sale Lot numbers. All will be available for Inspection prior to the sale.

CONDITIONS

Breeders Guarantee

As always, Heart of the Valley guarantees to sell you a bull that is structurally sound, and has passed a semen test done by a licensed veterinarian.

Should any Heart of the Valley bull fail to be a satisfactory breeder and unable to physically service a female, he will be replaced with a bull of equal or greater value. If this is not possible, an adjustment will be made to reflect the value of the bull in question – or a credit will be given towards the purchase of another bull from Heart of the Valley. Things do go wrong sometimes and we will be there to back up our sale guaranteed. So you can be rest assured that we will provide you with a sound breeding bull, and we will be there to assist you should a problem arise.

We will however not provide replacement, adjustment or credit for any physical injury, sickness, mismanagement, damaged testicles or deterioration of semen quality after a successful test.

WE HIGHLY STRESS THE IMPORTANCE OF 3RD PARTY INSURANCE (CFI Insurance Group – Jill Wildman)

If you should have any problems with a bull you must IMMEDIATELY contact Heart of the Valley directly at rdangus@telus.net or 250-897-0619. We will require that your veterinarian complete a report and have that report scanned and emailed to us at Heart of the Valley. If the bull dies, a post mortem report will be required, with photo and tattoo identification of the bull. Heart of the Valley retains the right to request another veterinarian complete a 2nd report at their discretion and cost.
