- 33 Red Angus Yearling Bulls

OBI WELCOME 2019

I WOULD LIKE TO WELCOME YOU TO THE
2ND ANNUAL ALLANDALE ANGUS & GOLDEN SUNSET BULL SALE

Wayne Stetson from Allandale Angus has offered 13 2-Year Olds and 23 Black Angus yearlings bulls and this year they are a very uniform set of bulls. Main walking bulls U2 Bullion 9C and U2 Prime Cut 162D have the majority of the progeny while using a strong A.I. program from breed leading bulls across the land. The 5 SAV International 2020 sons will be a sale feature this year. The bulls are very athletic, good haired and structurally correct and made for longevity.

Golden Sunset Ranch, Kyle, Sarah, Isabella and Grady Martin have 33 Red Angus yearling bulls. Featuring sons by Red NCJ Lazy MC Venom 34Z who was the sire we decided to use to flush some of our donor cows at the farm and the results are here for your appraisal. Walking herdsires have continued to be the main focus at Golden Sunset; a very strong herdbull battery along with a very powerful cowherd. These Red bulls are very athletic, good footed, well muscled bulls that will have some marketing ability down the line. Also, a huge congratulations to Kyle and Sarah for the arrival of Grady this past November.

Wayne Stetson is hosting this event at his farm near Vermilion, AB, in his heated sale facility and it is a video sale. Videos can be seen at www.cattlevids.ca. Wayne's bulls will be available for viewing anytime before the sale. Kyle's bulls can be viewed at his place and will make the trip to Wayne's place 2 days before the sale. The bulls will be displayed outside the sale facility for your viewing and current weight and scrotal measurements will also be available the day before the sale.

If you need any assistance, please feel to contact myself, any of the sales staff, Wayne or Kyle directly and they can go through the catalog and the bulls with and give you some direction for your needs.

Mark Holowaychuk, OBI

View Catalog Online at www.cattlemanagement.ca

View Videos at www.cattlevids.ca ■ Online bidding at www.dlms.ca

TERMS & CONDITIONS:

- This is a Video Sale in a heated sale barn, go to www.dlms.ca for online bidding and www.cattlevids.ca for the bull videos.
- Bulls will be displayed at Wayne Stetson's Farm (1.5 Miles West of Vermilion on the Old Hwy 16 from the town of Vermilion) 2 days Prior to the sale day. Golden Sunset Bulls can be viewed at their farm prior to the sale at Vermilion, AB. (East on Hwy 16, turn North on Hwy 893 and go to TWP 524 turn West and go 3.5 miles)
- The Terms of the sale are cash or cheque payable par at the sale location.
- All Bulls will sell under the CAA standard Terms & Conditions.
- All Announcements from the auction block will take precedence over the printed material in the catalog.
- **Trucking:** If you decide to Take your bull home sale day, you will receive a \$100 Discount on your purchase. After the sale is over, you can start loading your purchases with the help from the consignors.
- **Insurance:** If the bulls are left at the respective farms, they would recommend the bulls being insured. An insurance agent will be available sale day.
- **Delivery:** Allandale Angus & Golden Sunset Ranch will deliver your bulls free of charge within 500 kms to the new owners starting April 15, 2019.
- Sale Day Weights & Scrotal Measurements will be available sale day.
- All persons who attend this sale do so at their own risk and the owners, sale management and sales staff assume no liability, legal or otherwise, for property loss or any accidents that may occur.

ALLANDALE ANGUS

ALLANDALE ANGUS

WAYNE STETSON

VERMILION, AB (780) 853-7523

Welcome To Our Second Annual Allandale & Golden Sunset Bull Sale!

Allandale Angus is once again very excited to be hosting this event with our partners, Golden Sunset Ranch. Kyle and Sarah and family have been great advocates of the Angus breed and appreciate their willingness to make this event possible.

This year's sale offering consists of 13 Two Year olds that are in very good condition and are all very athletic bulls and ready to service a lot of cows for you. Our yearling offering is also in very good working condition; made right to last long for their new owners with good hair and muscle. These bulls all have great attributes about them and I welcome your appraisal this year. I do use an extensive A.I. program to stay ahead of the game and also have used 2 herdbulls from U2 Ranch that have done us a great job. The cow herd built has been gone thru very hard and I only keep the ones that work for me.

Please do come by and see the offering, they are close to the house and then we can go check some of the cows that brought you these bulls, they will impress. Coffee is always on and welcome a visit from you this year.

Look forward to seeing you sale day

Wayne Stetson

This is a new sire group for us, Prime Cut 162D was a high selling bull at the 2016 U2 Ranch Bull Sale and once I saw him, I knew he had to come back to Vermilion. He sires a very consistent set of progeny with great length, bone, muscle and will add pounds to your calf crop. Moderate BW with explosive growth. 6 Sons Sell.

We do use top end A.I. bulls in our program and International was chosen for his power in his progeny that we saw at many farms. He topped the 2012 SAV Sale at \$400,000 and his mother is one the top females in the SAV program. Last fall we sold some International Bred Heifers and they were very sought after. 5 Bulls on Offer.

U-2 Prime Cut 162D sure does stamp his calves, 5F has muscle, good feet and very athletic bull tracing back to our very good Annie 12S cow. Maternal brothers to Mitchell Toner, Patty Piduchney, Midway Industries, Florian Doucet, Westman Farms and a top end bull last year (Allandale International 21E) to Gordon Harasiuk & Norma Courts. Great productivity in this lineage here.

WAYNE, KYLE & BROGAN

Please note that the EPDs listed in this sale catalogue are the product of the new Canadian AngusONE Genetic Evaluation. These EPDs are calculated by Angus Genetics Inc in partnership with the American Angus Association. Therefore, EPDs for Canadian Red Angus, Canadian Black Angus, and American Black Angus animals are directly comparable to each other. This is a completely new base for Canadian Red Angus however, therefore, please be advised that the EPDs are not comparable to last year's EPDs for Red Angus. These EPDs are on a completely different scale, so please familiarize your selves with the new Breed Average and with the new threshold number for traits of importance to you. The new AngusONE breed averages are shown below to help you adjust to the new base. Percentile rank graphs for each animal are easy to use and available at www.cdnangus.ca. The right EPD for you will depend on your cow herd, your management, and your breeding goals. For more information on using EPDs please contact your Association, the Canadian Angus Association, at 1-888-571-3580, and for more information about the genetics offered in this catalogue and what might best suit your breeding needs please contact the seller.

GOLDEN SUNSET RANCH

KYLE, SARAH, ISABELLE & GRADY MARTIN

Welcome Everyone To The Second Annual Allandale & Golden Sunset Bull Sale!

Welcome everyone to the 2nd Annual Allandale Angus & Golden Sunset Ranch Bull Sale. We would like to say thank you to Wayne for allowing us again to work with him and hosting the sale at his place.

We also extend a thank you to our past and future customers and friends for taking time and showing support in our program. We encourage everyone to stop by the farm to view the bulls and give us the opportunity to discuss your herd needs. If you can't come and view the bulls, call at anytime and we would be happy to talk. We know everyone is busy this time of year. We are very confident in our bulls on offer and believe we have bulls that will suit the specific needs of anyone looking for a new sire. Whether it be a calving ease bull, power cow bull or somewhere in between.

We are very excited about our bulls on offer this year. These bulls will go out and work. They are out in the field, walking lots for feed and water. They are not in the corrals just getting fat, they are out putting on condition and muscle. We fed the cows a little more last winter because of the cold and it affected a few of the birthweights. They are a little higher on a few bulls than normal but all these bulls are under 7% weight of their dam. We believe that number is a key aspect in the commercial industry for profitability. The WW and YW have also increased which should also increase profitability. We believe the maternal part of these bulls might be their best aspects. Our cows calve on a 42 day breeding. We push our cows on fertility, udder and feet quality and are culled very hard in our program. We have been using embryo's lots lately to improve our genetics even more. Our goals are always to try to enhance our genetics.

If there are any bulls that you are interested in and can't attend the sale, please let us or any of the sale staff know and we will be happy to assist you. We look forward to seeing you on March 14. Come early to view the bulls, have a home cooked meal and some hospitality.

Kyle, Sarah, Isabelle & Grady Martin

These flush mate brothers are out of our new purchased herdsire, Red NCJ Lazy MC Venom; he is a bull that calves very easy and has some growth and performance. He has great structure, solid big foot and moves very freely. We crossed him with Red Crowfoot Avril, a cow with extreme low BW EPDS. She is a tank of a cow with a perfect udder. These bulls are those sleep easy at night kind; calving ease bulls, dark cherry red, clean fronted bulls. Buy any one of these to use on your heifers with confidence. Bulls have DNA pulled and sent away and will be registered by sale day once results are received.

76F always comes up in conversation when touring the pens with customers. He finds you easily with his depth of rib, good feet, straight topped, good haired, big butted and overall presence in the pen. One a lot of purebred folks should be looking at over the next month to enhance their herd. He does carry a -0.1 BW EPD and we have confidence to use him on heifers.
