*Annual Bull Sale*

SIMMENTAL - ANGUS - SIMANGUS BULLS

MARCH  
24 - 2019

Riskan Hope Farm • Craik • Saskatchewan

## welcome from Riskan Hope Farm

Welcome! Well, we are starting a new adventure at the farm and we are excited to invite y'all to the farm on March 24 for pizza lunch and a video sale. The bulls will be penned for you to walk through before the sale. We stand behind our bulls and we are confident that each one will make an impact in your herd.

The bulls are developed on super oats and a grass hay ration designed for growth and longevity. Activated carbon is mixed in the grain to promote hoof health, gut health and red meat production. We maintain a full herd health program and all bulls are up-to-date with their shots.

We would like to take the opportunity to thank our past buyers and repeat buyers. You all help make our program what it is, by requesting sires that work in your herd.

If you have any questions about our feeding or breeding program, don't hesitate to contact us. If you happen to be driving by before sale day, feel free to stop in.

## welcome from Halls Cattle Co

Welcome to our 1st annual Bull Sale with Riskan Hope, looking forward to working with the Luther's. We are really excited about the bulls we have to offer. We have available some different Angus and Simmental sires that will help diversify your operation.

We are very positive about the beef industry and look forward to working with you with your bull purchase.

If you are unable to attend our sale in person, please give us a call. The sale will also be available on DLMS.

Please feel free to contact us any time if you have any questions or would like to drop by and view the bulls prior to sale day.

This bull's mother has been a producer for us from day one. Mothering our lead off bull that sold to Virginia Ranch in 2015 and a daughter to Labatte Simmentals in 2016, she hasn't let us down since she started producing. Not only has she raised some good calves, her udder is picture perfect. The lucky buyer that gets RHS 16F will get a bull with lots of muscle, hair and style... the total package. **Hetero Black.**

When Riskan Hope Farm came to us about flushing LFE RS Amber 55C we knew what we wanted to use on her, none other than Profit himself. We have many Profit calves and they are always at the top of the pen and this calf is no different. With Profit semen off him trading for \$1,000 per straw this is the perfect opportunity to add some Profit to your herd.

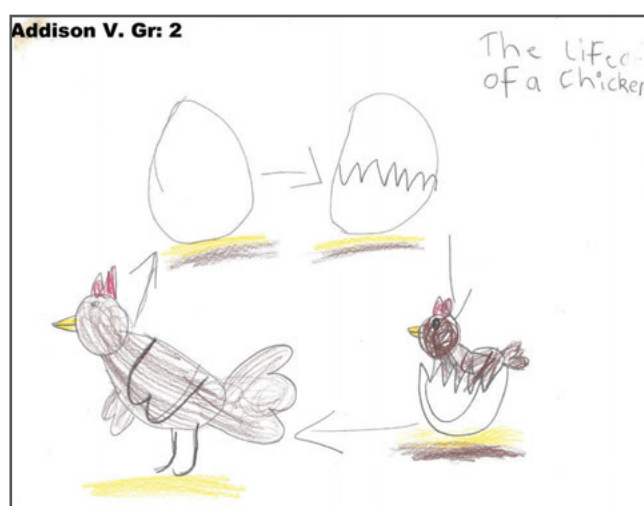

Kids from Craik School  
visit Riskan Hope

Riskan Hope Farm hosts Craik School students from Kindergarten to Grade 5 to celebrate #CndAgDay. Before the students came out to tour the farm, they drew photos of what Agriculture means to them. We had 35 awesome photos to look through and these four were our top picks.

**From the K-1-2 classroom:** Nash Watkins took first place with his depiction of cows in a pen with bales and a water trough by the barn... and of course the main goal of this event at the bottom... the road leading to Sale Day!

**Honourable mention** goes to Addison Vibert for depicting the life-cycle of a chicken.

**From the 3-4-5 classroom:** Morgan Stephens took first place with her Ag Tree and the many branches of Agriculture we have here in Canada. Her branches are labelled with livestock, farming, meat, ranching, barns and fields.

**Honourable mention** goes to Sophie Kearns for her awesome free-hand drawing of a John Deere combine at work in the field... hope that's just chaff going out the back (for all the non-green supporters, like Rocco ;-).

When we flushed 212's mother we decided to breed her back to Justified because of a bull calf we lost at a young age. We would have to say it worked just as well again. This calf is one of our younger bulls, but always seems to catch your eye and he just keeps getting better every day as he comes into himself. 212 will also be a maternal brother to the 54F bull.

Here is a bull to get excited about being out of Motive and our original Rosebud cow. Rosebud 12T has been huge for us, her calves go on to do great things. We walked a full brother to this bull that produced calves just like Motive himself. 210 is also a full sib to the mother of 54F so you know they can produce. To say this has great potential would not be an understatement, the proof is in the pudding and this bull has full sibs that have done great things.

Hall's Coolest of Cats lives up to his name because man is he cool. 328F has been a standout since he was a small calf, always possessing tons of power in every aspect and the way he puts the style into it is what makes him one Cool Cat. 328F also has had a very successful show year being named Champion Jr Bull calf in both Canadian Western Agribition and Lloydminster Stockade Round up. The future is bright for this calf and we can't wait to see how he matures.
