Welcome

From all of us here at Remitall Farms we want to welcome you to our seventh annual Remitall Farms Bull and Select Female Sale at the farm.

We continue to be humbled by the great customer support we receive year after year. Many great customers have stayed with Remitall genetics for many generations. This reminds us that everything we do in our bull program, we do to move you farther ahead. Our goal is to produce cattle that will add real quality and value to your calf crop, consistently year after year.

Selecting your new herd bull is an exciting and important decision that can greatly impact your operation. Whether it's selecting a bull to add more pounds to your calves at weaning or selecting for maternal traits for replacement females, we believe we have the right bull or heifer to meet your needs.

Once again this year, the complete top end of our bull calf crop sell in this sale. No bulls have been previously sold. We have a very uniform set of bulls on offer. They are low birth weight bulls but still have rapid growth and performance. They are sired by some of the breed's most popular sires such as Renown, Cutting Edge, Easy Decision and Seedstock along with proven heifer bulls such as Pedigree and Sensation. Our home bred herdsires such as Rage, Crossfire, Cavalier and Cavalry have proven themselves again with some of the top progeny in the sale. We have a very special sale offering by our young herd sire, Remitall F Decisive 35D. In just his first calf crop he has surpassed all expectations.

Every bull will sell with a complete set of actual carcass and performance records documenting their actual and genetic potential. All bulls will sell with a full semen evaluation and will be fully guaranteed for the customer.

We have an outstanding set of purebred Angus heifers on offer. They are right off the top of our heifer pen, hand selected out of 140 heifers that will be kept as replacements. The heifers all have the phenotype and genetic merit to be top producing females. Whether you are looking for a show heifer, group to build a herd or a special heifer to be a foundation female, we have the right one for you. Prior to the sale all heifers will be palpated and examined by an accredited Veterinarian for any abnormalities.

Remember this is a video sale, but bulls and heifers are easily viewed ahead of sale as they are displayed around the outside of our heated sale facility. All bulls and heifers will be displayed on video screens inside the barn.

Come enjoy the coffee and donuts ahead of the sale. Dinner will be served starting at 11:30.

If you have any questions or would like to view the cattle prior to the sale, you are more than welcome. Just give us a call and we can accommodate you.

If you cannot make it sale day please feel free to call us here at Remitall Farms or any of the sale staff listed. We will assist you in any questions you may have. Internet bidding will also be available sale day through DLMS at www.dlms.ca. All bulls will be available to view on our website at www.remitall.ca or by scanning the QR code provided in the catalog.

We look forward to seeing you!

Gary & Jacci

Richard and Kelly

**Sight Unseen Program - feel free to give Gary or Richard or any of the Sale Staff a call.
100% Satisfaction Guaranteed.**

Decisive 35D pasture photo Summer 2018

Guarantee: Bulls are breeders if they can settle cow by natural service and pass a fertility semen test by a competent veterinarian.

In order to better assist you in an event of any problems occurring with a bull, it should be reported to us as soon as possible and not later than the current year in which the bull was purchased.

Remitall Farms will replace the bulls considered non breeders with a bull of equal value agreed upon by both parties or will refund the purchase price of said bull.

Remitall Farms is not liable for bull lost due to death or injury. Due to the different conditions and management practises under which bulls are run, Remitall cannot guarantee the number of cows a bull will settle. Under no circumstances is Remitall responsible for any further losses the purchaser may claim to have incurred.

Remitall Farms reserves the right to have the purchaser return any bulls considered non breeders to Remitall for examination.

Herd Health: Remitall is a Brucellosis free area. The bulls are vaccinated in June and again in September with Bovishield Gold 5, Ultrabac 7/ Somubac, One Shot. Bulls are treated with Ivomec pour-on late October and again early January.

Bull Management: The Sale Bulls and their dams are managed in large groups throughout the summer with no creep. The bulls are weaned mid September and after 3-5 days in corral are turned back out on an 80 acre pasture with lots of exercise, clean water and free choice hay. Bulls are eventually introduced to a TMR (Total Mixed Ration), consisting of oats/barley silage, chopped hay and a low % grain (oats/barley)ration. Late October bulls are moved into corral pens for better management from cold weather with lots of bedding enabling them to stay clean. Bulls are fed a TMR (Total Mixed Ration) for growth and gainability but keeping in mind longevity and fertility.

Right to Semen: Remitall reserves the right to collect semen on any bull sold through this sale. The semen collection will be at Remitall's expense and the buyer's convenience. Any semen collected will be for Remitall Farms' in herd use only.

Bull Delivery: Free delivery to western provinces. We will assist in arranging delivery and cost share to Ontario, Quebec, Maritimes and US destinations.

Sale bulls will be available to be loaded out sale day. \$100 off per bull picked up within one week of sale.
