BULLS

MARCH 19 . 2019 AT THE RANCH

Your herd bull headquarters

Welcome to our 23rd Annual Bull Sale. 2018 was a trying year across many regions of the prairies, yet we look forward to 2019 with renewed optimism and are thankful for our way of life and the opportunities awaiting us in the cattle industry.

We would like to thank each of our loyal customers, friends, family and neighbors for their unwavering support throughout the year. The amazing commercial cattlemen and women we have developed relationships with over the last 23 years are what keep us going.

We remain focused on our cowherd and the on going commitment to improving the quality of our genetics in order to raise a better more consistent product that will position you in the forefront of the industry.

With almost 180 bulls on offer, we feel we have top end bulls for everyone's program and budget. These bulls are selected from the calves of over 700 mama cows, so rest assured only the genetics that rise to the top are on offer.

The bulls are as consistent as they've ever been, cataloged in large sire groups for your evaluation, so selecting a uniform group of half brothers will be easy.

We will let the bulls speak for themselves and we encourage everyone to come out to the ranch ahead of time and tour the bulls and their mothers. Udders, feet and capacity have always been high priorities for selection within our cowherd and we are convinced the cows behind these bulls will be a positive influence on the industry. Please feel free to give us a call or stop by, we would love to show you the bulls and our cowherd.

See you sale day!

Darren, Joanne, Cole & Jordy

U2 RANCH

Your herd bull headquarters

TUESDAY . MARCH 19 . 2019

AT THE RANCH IN COALDALE . AB . SALE TIME 1:00PM

179 BULLS ON OFFER

RED ANGUS LOTS 1-117 . BLACK ANGUS LOTS 118-179

WHY BUY A U2 BULL?

1. QUALITY – top end bulls in volume. We take extreme pride in the fact that our sales offering is strong from one end to the other on an annual basis. These bulls are chosen from 650 registered cows so bulls that we would not use ourselves do not make the cut. We are as proud of the first bull through the ring as the last.

2. UNIFORMITY – Large sire groups of 1/2 and 3/4 brothers by breed leading sires.

3. CALVING EASE – Over the years customer feedback has taught us the most sought after bulls combine calving ease with top end performance. This has become our specialty as over 1/2 of our offering is comprised of these elite curve bending calving ease genetics.

4. AFFORDABILTY – Our focus remains on serving the commercial cowman by providing high quality bulls in volume at affordable prices. Whatever your budget is, with this many bulls to select from, you can expect to find a good selection in everyone's price range.

5. SERVICE - We specifically keep good quality bulls on hand so in the event that a bull goes down during breeding season, we will have a replacement bull of similar quality available to you on short notice.

6. THE BEST GUARANTEE IN THE BUSINESS – We are customer driven and rely hugely on repeat business. We stand behind our product. If something goes wrong, we will look after you – guaranteed!

7. SIGHT UNSEEN PURCHASE PLAN – Although we prefer that you attend the sale, many producers cannot. For this reason we have many customers take advantage of this program. Call Darren or Cole with your bull needs and we will be happy to help you with your selections and represent you in confidence Sale Day. We stand behind what we recommend. If you are not satisfied when your bulls are delivered, you don't own them.

8. FREE DELIVERY TO CENTRAL POINTS.

A huge Thank You to our dedicated crew. Caleb, Sonny, Cor and Peter. We appreciate your dedication and the countless hours you spend to make this all happen.

BOHRSON MARKETING SERVICES

U2 Ranch is a powerhouse program in the Canadian cattle industry that has produced many of the influential sires that have been promoted throughout the world. They have proven to work under all conditions worldwide and that is due to the impressive cowherd that is mated to one of the deepest herd bull line-ups in the industry. Progressive purebred breeders and commercial cattleman from throughout Canadian provinces and international annually attend this sale to source the very best genetics in the industry.

There is calving ease, high performance and an impressive amount of bulls that combine both that will be on offer in this deep set.

If you want to add natural muscle, the ability to convert, internal dimension, structural soundness, foot strength and overall production value to your program, a U2 bull will be your answer. The power in quality through numbers is to be commended as there are numerous options of strong bulls to source from the start to the back of this catalogue.

We have had the opportunity to see the strength of this program on numerous occasions throughout the years during our tours. No matter the time of the year, this U2 cowherd always impresses as they are good uddered, sound footed and highly productive with longevity and profitability in mind. You can take our word that the bulls you invest in at U2 are backed by some of the most elite cow families in the industry.

The Unger's are without a doubt, one of the hardest working families in the industry and are passionate about agriculture. They fully back their program and stand behind it 100% and will go the extra mile to make sure you are a happy customer. We encourage you to attend the sale and be in attendance to view this impressive set that they have put on offer. If you can't make it, feel free to contact any of the Unger's or the sales staff on hand and we will handle your needs in a professional and confidential manner. We look forward to visiting with you in Coaldale on Tuesday, March 19.

A big thanks to everyone who endured the mud bath last year... and YES we did re build our road!

Bolt EPD's are posted for our Red Angus Bulls. This makes our Red Angus Bulls comparable to all other RED ANGUS cattle in North America. Angus One EPD's are used for Black Angus Bulls, which makes them comparable to all Black Angus cattle in North America. Red Angus EPD's are not to be compared to Black Angus EPD's.

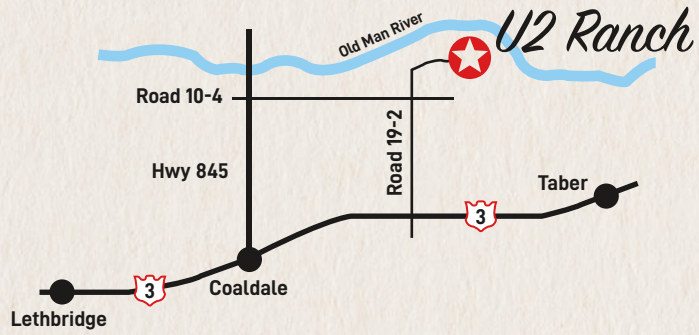

SALE SCHEDULE

Monday, March 18th

View the bulls all day, followed by a meal & sale social

Tuesday, March 19th

10:30 a.m. Brunch • 1:00 p.m. Sale Time
Steak dinner immediately following sale!

From Coaldale go approximately five miles east on Hwy 3 and turn north on road 19-2. Go approximately eight miles to ranch sign and wagon at the entrance. Follow the road to the right, down into the ranch and sale facility.

To sum up the U2 program, 3 words come to mind- Family, dedication and commitment. U2 definitely is a family operation with every member 100% involved hands on. They live and breathe Angus.

Dedication to the Angus industry and the livestock industry in general is second nature at U2. Striving to produce the best bulls they can with you, the customer in mind always. Easy doing, thick topped bulls with lots of butt end in them, easy moving and to top this, they have style and eye appeal. U2 genetics have been very influential in the Angus industry, both Red and Black.

Commitment to the cattle industry is key to everyone at U2 and this sale; #23, is proof of that. I believe this could be the best set of bulls they have ever offered. That is a tall order considering the past sales and the tremendous producing herd sires sold previous that are helping out in so many herds in North America. There is a tremendous top end that runs deep with large groups of half-brothers to choose from to give you consistency in your programs.

Don't miss this opportunity, come early and evaluate the 2019 offering. Take a good look at their mothers to see the femininity, structure, great udders and capacity these females carry.

If Mark, Shane, Devin or myself can be of assistance to help you evaluate your needs, please feel free to give anyone of us a call. See you sale day.

Heston is a herd bull Rob selected for us at Howe's sale in 2017. When Rob called it was very obvious how "taken" he was with this bull and his dam. We used him successfully on both heifers and cows. He has done a marvelous job siring his type and stamping his progeny with his impressive muscle shape, depth and character! His female calves look just as strong and he definitely adds performance as you will see in this strong sire group.

- 429F is a calving ease bull that brings a lot to the table genetically and by visual appraisal.
- He combines the maternal strength of both the Anexa and Mabel cow families while maintaining a smooth long make up built for trouble free calving. Add in his above average performance and he becomes a very complete package.
- His dam has earned a WI of 111 and 429F has an impressive 113 YI.
- Recommended for heifers and cows.

After three years of record setting sons, Reckoning hasn't slowed down in popularity as he is still one of the hottest bulls in the breed! His progeny and semen are exclusive and sought after in both North and South America. Our confidence level in Reckoning and his dam Anexa 271Y is so high that we have the influence of six of his sons working in our herd and each have a sire group in this sale. His females are equally as impressive turning into beautifully uddered young cows. Recently for the second time a U2 Reckoning X U2 Moonbeam 194W female was named Reserve Champion Female at the Denver Stock Show in 2019. Reckoning has so much to offer the industry passing on his awesome big foot, dark red hair coat and consistent muscle shape. Visitors have commented this may be the best set of sons yet, we'll let you decide! Owned with Six Mile Ranch.

Since Renown sold in our 2016 sale to Ter-Ron Farms and Canadian Sires for $75,000, Renown has become a big time herd sire both in Canada and South America. His sons and daughters have topped sales across the land, including a $25,000 high selling bred heifer at MRL last fall. As you will see here, his sons are full of muscle and performance with foot and leg structure that is second to none. Renown adds one more stunning maternal cow to Reckoning's pedigree! Envious 147X is a ranch and visitor favorite, that is in our donor program. His first daughters are now milking and they are big bodied, moderate females with the impeccable udders we expected. Use these sons with confidence for maternal advancement and performance.

- We've chosen 76F to lead off the Renowns for his perfect soundness and balance in a super stout, soft made package! He's the kind we are trying to raise!
- His dam 89Y is everyone's favorite model angus cow! Her moderate frame and obvious depth and thickness are potently transmitted into her progeny. She never has tiny calves at birth, but they're always born easy!
- Her dam Moonbeam 194W needs no intro as her daughters have been lighting up the US show world including two reserve champion females in Denver stock show. Dyna 89Y has raised us 2 replacements and a top Magnum son for Jerry Bagozzi!
- He is a bull to build a herd with!
- Selling 2/3 interest full possession

- Easily one of our favourites in the 2019 sale, we are going to use this bull in our A.I. Program this year. He is perfect footed, medium framed, dark red bull with great hair and has a commanding presence about him. The stride he takes and his skeletal design is admirable. Couple all of this with him being wide pinned, deep in his hind quarter, big bodied and you have the makings of a great herd sire.
- On the cow side we have a beautiful ¾ sibling bred heifer, 2 retained daughters out of his dam and his maternal grandam and great grandams are top donors. We know the maternal strength in this pedigree will create value in the daughters and sons of this bull.
- We feel Milwaukee is the bull the red angus industry needs.
- WI 102 YI 106

- Is a deep soft made performance minded HERD BULL! Debatably the most complete Renown son alive. He is exceptional in his balance and eye appeal.
- Renown is a Reckoning son that has earned respect for his dark foot with lots of heel and the added bone, power and shape he adds to his sons.
- 18F mashed the scales down at weaning when he weighed in at 1030 lbs, and ranks top 1% in milk and total maternal! This is the kind of performance, balance, power and design that can propel even the most progressive program forward. WI 108. 287Z has sons working for Cow Camp Ranch and Rancho El Ocote in Mexico. She has proven herself once again with this stud, don't miss out on this proven genetic line.
- WI 112 Recommended for cows.

Our pick from our good friends at Y-Coulee's 2016 bull sale where he was the high seller. After touring the cow herd and seeing his strong productive dam, Cole decided that 653C was the dark red Authentic son that we needed to own. Since then, we have been impressed with his breeding ability and blown away with the consistent bone, hip shape, big foot and Angus character he passes onto his progeny. Some of our stoutest bulls are in this sire group! His heifer calves appear to be cowy young females that will turn into easy-doing, broody maternal young cows. 653C is the herd bull we are going to continue the Copenhagen legacy with for years to come.

RED FLYING K MS DIVIDE 58H

- Another absolute tank of a herd bull with explosive growth and performance. His fan club is growing daily as he just keeps improving. He proudly displays his sires bone, hair and capacity with a gentle character.
- Ms Divide 28Z is a super sound structured, dark red, big volume Magnum daughter that is in the top 1% for both milk and total maternal, and top 4% for YW.
- Recommended for heifers and cows.
- WI 113.
- A herd sire that raises the bar in all categories that we will definitely be using.
- Selling ½ interest, full possession.

High selling bull at the 2017 RSL bull sale where we selected Ice Man for his Outcross pedigree, sound shapely structure and calving ease potential. His first set of sons prove that Ice Man has done what we have expected and more... his calving ease seems to be bulletproof when used on heifers. His progeny inherit his smooth front end, small calving ease head, and dark red hair coat. Check out these sons for consistency, shape and Outcross pedigree.

Rendition was a feature Reckoning son that sold ½ int. to Bayou Creek, TX in our 2017 sale. His full brother Restore 294C sold to Westphal Red Angus, MT in 2016. Rendition is a herd bull that exemplifies the depth and quality of mating Reckoning to a top Copenhagen 3Y female. His progeny carry on the tradition of soundness, shape and balance with a little extra length of frame. Look to Rendition sons for both calving ease and performance in a very maternal, well balanced package.

Riff was our high seller in 2016 to Y-Coulee for $102,500. Since then semen has been sold everywhere from Montana to Texas in the US and everyone we've talked to "love their Riff calves". Y-Coulee's high seller last year was a Riff son. Riff is as unique a herd sire as you'll find with so much character and natural thickness all wrapped up in a super appealing dark cherry red hair coat. He surprisingly has amazing CE potential. His dam is a front pasture favourite that contributes her donor quality and balance to give the female progeny that cut above! This year's set of Riff sons has one problem, quantity – there's not enough of them! Quality wise, I doubt we've had a sire group this good from end to end.

- Sired by the massive, $102,500 Riff, this son has Riff's extra dimension, quality and power. If you like bulls that are soft made, super big bodied, big ended, wide topped, super proud and easy fleshing, this one is your kind!
- He has a herd bull presence and a look that commands your attention. Study the slopes and angles to his structure and you see that he is very sound.
- His Copenhagen sired dam is typical to the Copenhagens we like so much. She ranks top 2% total maternal, 5% in WW, and 8% YW. She is deep bodied, easy fleshing, and did a great job with her first bull calf.
- The Riff progeny in the U.S and Canada have been consistent top sellers and command attention for their power, mass, muscle and performance.
- WI 106.
- Recommended for cows.

Entourage 282B is Reckonings younger full brother. He was our second high seller in 2015 to Weber Red Angus in South Dakota for $58,000 ½ int. His calves have been awesome here and at Webers. Both Tim and Jason have stated the positive impact Entourage has made on their bull sale and their cow herd! Entourage will add bone, length of body, muscle and will improve feet. Like his nephew Riff, Entourage enforces surprising calving ease for a bull with so much performance. His daughters are some of our top young producers laying down flawless udders and raising herd bulls of their own! Entourage ranks in the top 1% of the breed in WW , YW and TM!

- One of my favorite Bono sons period! He is well balanced and combines superior calving ease with muscle shape, eye appeal and hair quality.
- His dam has always kept birth weights moderate with above average ratios. She has a son working at Triple Gate Ranching.
- Recommended for heifers and cows.

Magnum adds length of body, great hair, longevity and maternal excellence while keeping birthweights in check. A high seller purchased from Howe's that has been worth every penny. With over 75 daughters and granddaughters in production and over 150 bulls out working in purebred and commercial operations you could say we believe in this incredible line. While going through the catalog you'll notice most bull's pedigrees have Magnum in them. A top notch breeder and traveler Magnum still carries an excellent foot at 10 years of age. This year we got in a bind and he had to go to work after breeding on another summer group of cows! Once again this year we have a few sons we will incorporate into our AI program.

- 547F will be a standout in the pens on sale day! A bull that always makes us look twice, this extra fancy, dark red bull is very good footed, has tons of shape, travels fluently and will work well in all herds.
- His grandam was in production at U2 Ranch for over 16 years! Longevity like this keeps ranchers in business.
- Recommended for heifers or cows.

- 104F is a premier calving ease herd sire prospect that we are very high on! He is wide topped with astounding depth and balance.
- We had strongly considered keeping him entirely for ourselves but decided to compromise and offer a half interest.
- His cow family strength is second to none and he is maternally backed by 2 generations of awesome cows! Lass 465A is a ranch favorite and almost identical to her "elite" dam Lass 111Y, a broody deep bodied production machine with super foot and udder quality. Together they have raised nothing but herd bulls for Justin Morin, North Fark Farms, Daryl Soice and Doug Griedanus.
- True calving ease with cow family maternal power!
- Recommended for heifers and cows.
- WI 104 YI 106. Selling ½ interest possession negotiable.

- Malbec has been established as a lead calving ease sire in the Genex line up. This son is a replica of Malbec and things get better when you learn his dam is a big producer. She weans lots of pounds every year.
- Like Malbec, this bull is extremely complete and it's hard to find a hole in him, he's deep, wide, good made and easy fleshing. 195D would be an excellent choice to build a herd around. Backed by Malbec, Copenhagen, Mission Statement and some of the best cow families at U2, this guy has it all. To add further confidence, his maternal grandam is also a top end cow with an excellent production record. She has raised herd bulls for Manville Colony and Pittman Bros. Proven calving ease genetics backed by generations of superior cows! Recommended for heifers and cows.

- WI 114
- Recommended for heifers and cows.

It's all about the Cows!

Our cowherd has been our livelihood and focus for over 27 years. We are never satisfied and are continually striving for improvement. We are very proud of the quality, functionality and maternal strength within our cowherd.

Our cows are not only required to look good, but are demanded to go out and work in tough environmental conditions and bring in a top calf every year! We have high expectations for the cattle in our program and even higher expectations for our genetics when they are contributing to your program!

We invite you to come for a visit and view the cowherd anytime. We would be proud to show you our life's work. It's important to see the genetics and quality behind the bulls in this catalog.

Come out and see the U2 Difference for yourself!

Coalition was our black high seller for $32,000 to Spickler Ranch South in North Dakota. He is also a full brother to last years high seller Temptation 180E to Freyburn Angus for $47,500. Their dam, Erelite 109Z is our top donor here and #1 black cow in all categories. She is admired by all visitors and now after calving the first set of Coalition daughters we can say she is the most influential cow to walk our pastures. Fancy fronted with depth of body, length, big hipped, and perfect teat size and positioning these daughters have people talking. The sons are simply the best group to date. Front to back their consistentency and quality is overwhelming. Deep ribbed and flanked, wide pinned with huge stifle and lower quarter, massive topped, proud, sound and full of hair. Coalition is now the Lead Black Angus Bull for 360 Beef in the US. Only sons to sell in Canada.

- Really cool, moderate framed calving ease bull with cow maker capacity!
- The consistent quality in these Coalition sons is evident in this well balanced shapely prospect that is poised to build females.
- His dam is a broody, beautiful, medium framed cow that has raised herd bulls to Airport Angus and Kientz Farms.
- Recommended for heifers and cows.

Prime Cut was the high selling bull at Hinman's 2015 sale for $70,000 USD. We looked long and hard for over three years before finding this obvious herd bull candidate that stood out from the crowd. After viewing his moderate, deep bodied, beautifully uddered dam, we knew the search was over! Prime Cut was used heavily and successfully on a wide range of heifers and cows. He has provided us with reliable calving ease plus predictable performance and passes on his muscle shape, depth and perfect head carriage. We couldn't be happier with his progeny, both male and female. Visitors again this summer were fascinated by both the broody, stout and fancy fronted heifer calves and the cocky, wide topped, thick butted bull calves. We are confident that these fresh pedigreed new generation genetics are a huge part of an optimistic future of our program. We now have our second group of daughters milking and they are all what we expected and more. Sound, beautifully uddered deep bodied females that will stand the test of time.

- A heavy muscled, stout made Prime Cut son out of a top producing Legacy daughter, Erroline 0227.
- Heavy muscled, big boned and full of mass, Premuim Cut was an obvious stand out from a few weeks old to sale day in 2017.
- His sons have followed in his footsteps, we only wish we had more!
- We are very excited about the daughters future here being backed by Prime Cut and yet another top cow, 0227, stacking their pedigree.
- Owned with Six Mile Ranch.

Signature was our pick of the JL bulls in 2015. We liked a lot of things about the bull and loved the elite dam and what an influence she has had on their program. His calves are born easy averaging 78 lbs, and then they take right off! These sons have tremendous muscle and body shape and are very easy to pick out. The daughters are built similar with a lot of middle and great udder structure.

WESTERN VELT 4N

- Sired by our calving ease specialist, 197C, this bull is a CHUNK. He's wide based from all angles and we appreciate his fleshing ability.
- These moderate sized 197C sons are the kind that hold up season after season.
- Kima 189D hit it out of the park on her first calf, which is what we have come to expect from Kima 440W and Velt 4N daughters.
- For cattle producers looking to reduce mature frame size and add body capacity and softness, these Symmetry sons are for you!
- Recommended for heifers and cows.

- Symmetry 262F is a deep , thick bull all on a moderate frame.
- His dam Erica 242D gave her all on her first attempt! 262F weaned off at 947 lbs. in September! The Erica cow family are solid producers and its evident.
- We purchased a group of these cows from Eastern Canada and have been very pleased with how they adapted and settled right in with our herd.
- Recommended for well developed heifers and cows.
