EXPORT COSTS

Export tests & paperwork will be done by Springside Farms or McLeod Livestock, all costs associated with exporting will be that of the buyers. Springside Farms or McLeod Livestock will help with the arrangement of transportation but all costs will be that of the buyers.

JUNIOR INCENTIVE

We are offering a 10% rebate on any female in the Genetic Edge Sale that is exhibited at any Provincial or National Charolais Junior Show or as a 4-H project in 2020. All you have to do to qualify for the 10% rebate is send us a photograph of you and your female at the show and we will be happy to send you a cheque for 10% of the purchase price of your heifer.

2020 CCYA JUNIOR SHOW INCENTIVE

If you purchase a female at the Genetic Edge Sale and she is a Division Champion or Reserve Champion at the 2020 CCYA Show in Olds, you can win these additional cash awards

\$1000 - DIVISION CHAMPION

\$500 - RESERVE DIVISION CHAMPION

Welcome...

SPRINGSIDE FARMS

The secret is out, the Charolais breed is on fire! I've been doing this for 35 years and I have never before been so excited to be part of this breed... it is infectious.

Last year's sale was a resounding success and we are thankful to all that helped make that day happen. We couldn't be more excited in our sale lineup this year. Right off the top of the bred heifer pen, the heifer calves, and we've dug deep into some awesome young cows that have donor candidate written all over them. There truly is something for everyone in this year's offering.

We've been running the roads quite intensely the past few years, this year will be no exception. Please stop by the stall at Olds, Lloydminster, Toronto, Edmonton, or Regina. The coffee is always hot and the beer is always cold! We love to talk about cows. As always, it's very inspiring to work with Rod and April McLeod. There have been many great times sitting around the table brainstorming with people who have such a positive outlook on this great breed.

On December 4th, please be our guest for the 2019 Genetic Edge. Feel free to come early, stay late; the hospitality will be top notch. We are looking forward to seeing everyone!

Mike

MCLEOD LIVESTOCK

Well first off we would like to truly thank everyone that helped make last year's 1st Genetic Edge Sale an experience we will never forget!

When we started planning this year's sale, we knew we had to continue to offer the best our programs could produce ... so we have dug deep to showcase our best.

Last year we wanted to show the true value a superior donor cow can have on a program. We wanted to show you the impact that the right cow family can have on a breeding program. We offered a number of daughters of Wilma and Ginny and sprinkled in a couple of Desirae females. This year we are continuing that theme and are highlighting the Desirae and Evetta donor females.

When we were trying to decide how to showcase our breeding program, we felt this year we would offer the top cut of our heifer calf crop and half of our bred heifer pen so that breeders could see the type of production that our extensive embryo transplant program has produced over the last 10 years.

It has once again been refreshing to work with Mike. He is the eternal optimist and brings great enthusiasm to the Charolais breed with his great breeding program.

We welcome you all to Olds, AB on Dec 3rd and 4th or plan to come by the farm if you would like to see the cattle in advance.

FLAT! OUT! GOOD!

We could go on and on talking about these females but “a picture is worth 1000 words.” Chavez has really cemented himself as a breed leader not only in our program but in the entire Canadian Charolais scene! These females are the types that win trucks, there’s no wrong choice here. Be a leader, not a follower and take one of these females home on December 4.

A fancy heifer calf that has loads of potential ahead of her. In her first outing on the show road, 990G was Heifer Calf Champion at the 2019 Olds Fall Classic. 990G has all the volume, substance, broodiness and style to be a big time show contender and future donor female. When you examine her pedigree you find a consistent group of donor females and we are confident she will quickly be a donor herself. Homozygous Polled. 50K tested.

CML EVETTA 903G

CE BW-0.5 WW48 YW91 MILK25 MTL49

POLLED | CML903G | JAN 3 2019 | PEFC767965

This is a female that should not be leaving the farm! CML Evetta 903G is the first daughter of the popular LT Patriot 4004 to sell in Canada. She stems from one of our most potent cow families at McLeod Livestock as you will see from the 5 offspring she has on offer in this sale. In addition, she is also the dam of the \$45,000 CML Rebel 716E that was the high selling bull in our 2018 sale. 903G has been a standout since birth and has developed into one of the most attractive, eye catching heifers calves we have ever raised. For those seeking a moderate framed, easy doing future donor cow, look no further. Homozygous Polled. 50K tested.
