It's About Making A Living - It's About The Lifestyle

We've all heard it. Farming and Ranching isn't just about making a living – It's about the lifestyle. Here's a thought. It's a hell of a lot more fun having a lifestyle when it's easier to make a living.

I could write the typical opening letter welcoming you to our sale to see a great pen of bulls with muscle, good hair, fleshing ability, fertility, feet, etc. but we strive to not be typical. What I can tell you is from experience we can help your lifestyle. For 44 years I've been at this and the cows have had to do their own thing more than we would sometimes like. Our cows have gotten us through a couple droughts, through a national cattle crisis, flooding, and even paid for my first divorce – but I don't want this to sound like a country song! My truck didn't break down and my dog never got hit by the train.

Our cows and this industry have allowed us to raise our family in a great environment. Now days everyone likes to tell their stories on social media. I can't believe all the folks out there that still dread calving season. That's the starting point of the lifestyle. Life happens, but here's the deal. Our cows work for us. We've had family health issues, we have kids in sports and various cattle activities. There's more time that we've been away from home at critical times than we would like but our cows pull up the slack. That is a fact that I am extremely proud of and no EPD's or numbers can promote that other than if you begin tracing back through our pedigrees and see generation after generation of home raised cattle that have proven to breed, calve and raise a robust calf that is profitable.

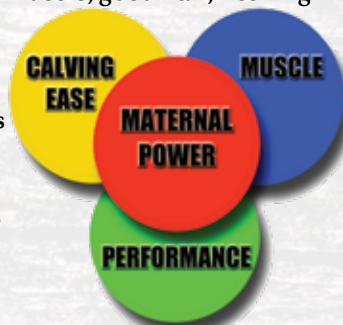

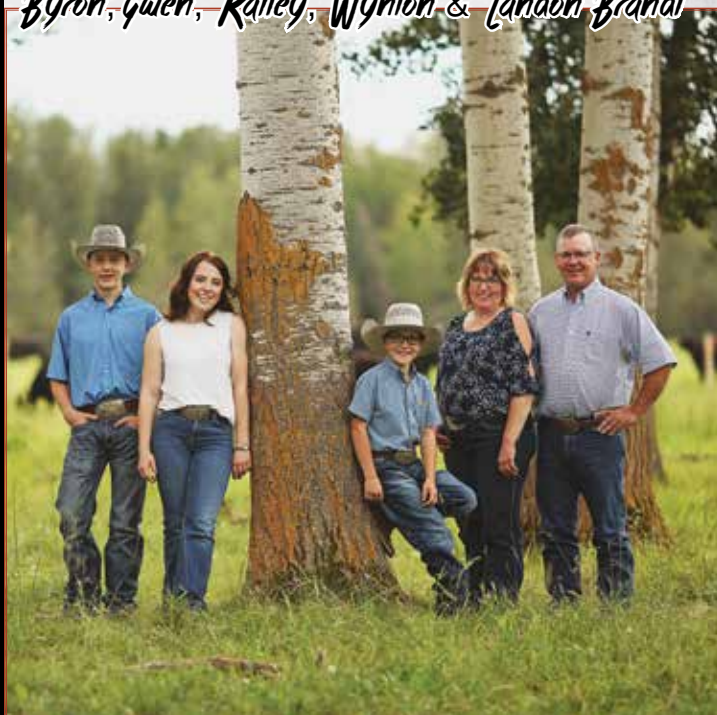

Our job is to raise genetics to make your life easier and more profitable. Through calving ease, calf vigour, fertility, maternal instincts, performance, quality, as well as disposition. We care about you and your lifestyle.

Please join our family March 14th when we will present our crop of bulls including yearling Black and Red Angus, one two year old Red Angus and our first home raised Black Simmental bulls. We are really excited about the depth of quality in this offering.

Following the sale will be our annual steak dinner and entertainment. The evenings festivities will be a little grander this year as we will be hosting a fundraising event for the Barrhead Cancer Clinic. The entertainment will be provided by none other than the 2019 ACMA nominated male singer and entertainer of the year Trevor Panczak. There will be a chance to win a heifer, \$500, or even an autographed guitar as well as numerous silent auction items.

We look forward to being your hosts March 14th!

Sight Unseen Purchase Plan

We would like you to attend our sale, but if you cannot, Byron or any of our sales staff can personally handle your purchase. Call them with your specifications and discuss the offering, preferably a week before the sale. Byron or any of the sales staff will gladly assist you with your sale selections and represent you on sale day. We guarantee full satisfaction upon delivery or you don't own them.

NEW BULL DELIVERY OPTIONS – WE ARE SHORT OF FEED!!

Note: Possession and risk begins at the fall of the hammer

Option 1 – Immediate Pick Up

Pick up your bull within 3 days of the sale and receive a \$150 per bull rebate.

Option 2 – Extended Pick Up

Pick up your bull by April 15 and receive a \$100 per bull rebate.

Option 3 – Delivery or Pick Up

Brandl Cattle Co. will delivery your bull free of charge at our earliest convenience following the sale or you may pick him up after April 15. Bulls delivered further than 500 km will be at cost. A fee of \$3 per day may apply to animals staying past April 15.

All bulls staying at Brandl Cattle Co. are the risk of the purchaser and MUST be insured.

BCC Freeze Brand Number

All BCC bulls carry the 5 point star brand on the left shoulder, the BCC Brand of Quality. An individual freeze brand with their own number on their hip means no more reading tattoos when the bulls loose their ear tags!

Yearling Bull Herd Health Protocol

All bulls have been vaccinated for Blackleg, Tetanus, IBR, PI3, BVD and other associated viruses/diseases as per the following schedule:

- *Birth:* Vitamins ADE, Selenium, Toltrazoral, Enforce and Once PMH nasal vaccine

- *March/April:* Vision 8 Sumnus, Bovishield Gold One Shot, Injectable Ivomec

- *September:*

Vision 8 Somnus, Bovishield Gold One Shot, Selenium, ADE, Ivomec Pour-on

- *February:* Ivomec Pour-On

Semen Testing

All of the bulls selling will have satisfactorily passed a semen test by Barr North Veterinary Services.

Using Yearling Bulls

We firmly believe in the use of yearling bulls and feel that it is one of the best years of their lives. It is a time when they are easy to manage and introduce to the herd and their only concern is breeding cows. When yearling bulls are managed appropriately they will perform better over time than bulls purchased as two- year-olds. Here are some guidelines for care of your yearling bulls:

- Upon arrival at your ranch, keep yearling bulls separate from older bulls and feed them a maintenance ration of 5 - 8 lbs of grain or pellets and free choice of hay. Then reduce the amount of grain so they are on straight hay or grass two weeks prior to turn out.
- Where possible try to limit the bulls to 45 - 60 days of pasture service the first year. At this time remove them and put them in a separate pasture with plenty of grass or good quality hay.
- A winter feeding ration of 3 - 5 lbs of grain or pellets plus free choice hay will put the bulls in condition and allow them to grow and develop. You will also benefit by one and probably two or more years of use out of a well-managed and healthy bull purchased as a yearling.

Canadian Angus **ELITE** Cows WHAT MAKES AN ELITE FEMALE?

Minimum of five calves, four of which must be registered, to determine her regularity of calving and ability to consistently produce calves with a superior weaning weight year after year, display early puberty, breeding and early calving, followed by regularity of calving and high performance offspring. The Canadian Angus Elite Cow Report identifies superior cows in the Canadian Angus herdbook.

These are LOCAL facts! Not research by a US University!

Note that on October 10th at NCL two long time Brandl Cattle Co. bull customers sold steer calves for over \$1600
760 lbs x \$2.1250 = \$1615 and 797 lbs x \$2.0975 = \$1672

Now you know why we say
"Putting More Dollar\$ In Your Back Pocket"

Performance – You get paid by the pound – for 44 years our policy is that you are buying genetics to improve your herd. A herd bull should offer more than what you would expect from your steer calves. For a bull to be in our sale he must have a 205 day weight above 600 pounds and a 365 day weight above 1000 pounds.

About Sadlier Cattle Co.

You will notice in the footnotes of several of the Black Angus bulls that it mentions dams or sisters that sold to Sadlier Cattle Co. Last fall due to our feed shortage we put 30 of our top cows in a group and offered the choice of 10 on a buyer picks one, we pick one basis. Todd and Edith Sadlier from Hines Creek, AB took that deal and put together a very nice group of females. Thank you very much Todd and Edith!

See you soon!

The family at Brandl Cattle Co has assembled a fantastic set of sale bulls. New this year, a select group of Simmental bulls on offer. Bullseye feeds is excited to be working with their operation.

The bulls feeding program is built to maximize forage utilization and gut health. The bulls are developed on grass with their moms and then

moved onto a balanced diet that promotes lean muscle growth.

Organic minerals are used to ensure proper immune function and over all health of bulls. The overall nutritional health and development of the bulls and the entire cow herd is of utmost importance and is constantly being tweaked to meet environmental and seasonal conditions.
