▪ *Bull Sale* ▪

FEBRUARY 13, 2021 AT 2PM

OPEN HOUSE: FEBRUARY 6TH - 7TH

OFFERING QUALITY ANGUS, HEREFORD & SIMMENTAL BULLS

WELCOME FROM THE

TREFIAK FAMILY

Our family extends a warm welcome to friends, neighbours and fellow cattlemen to our 27th Annual Bull Sale on the farm. Once again, we are selling the bulls by video with - auctioneering and DLMS broadcasting online.

We always look forward to talking about cattle and the business of producing beef as efficiently and profitably as possible. There are many varied methods and philosophies as to how to best achieve this. The one consistent thing we have found is that the heart of every operation is a love of cows and family.

We are always thankful to our customers for giving our program a chance to work for them and for coming back year after year with solid support. 90% of our buyers are repeat customers and we truly believe this to be one of the biggest successes. We strive to be #1 on service and if there is anything that we can do to improve your experience as a customer, please don't hesitate to let us know.

Whether you are a buyer, a bidder or just come for a visit, you are important to us and we look forward to seeing you February 13th!

SIMMENTAL

BULLS

MJT OPEN HOUSE | FEBRUARY 6TH - 7TH

We will be hosting an open house the weekend prior to the sale for our customers convenience. Mick, Kurt, and Matthew will all be available on site to answer any questions, and we will have social distancing measures in place. We hope that this will assist us in reducing the size of the in person attendance on sale day for accommodating any health and safety concerns.

If you are unable to make it, or have health concerns that put you at a higher risk in a public setting, the sale cattle are available for viewing at any time for your convenience. We will ensure someone is available to take you through the cattle.

SIGHT UNSEEN PURCHASES

If you are unable to attend the sale and wish representation, please call Mick or any of the above sales staff and we will gladly assist you. For the sight unseen purchases we guarantee satisfaction upon delivery.

DELIVERY

MJT Cattle will rebate \$150/lot if taken home within 7 days of the sale. We will deliver the bulls to central points in Western Canada in March. Transport of bulls not taken on scheduled delivery runs will be the buyers responsibility. For bulls headed to the Eastern provinces the transport cost will be the responsibility of the buyer.

USA DELIVERY

MJT will assist in arrangements for the cattle to be shipped to wherever you are in the US, at the buyers cost. All bulls sold to the USA will be charged an additional \$250/bull to cover testing and border crossing costs. Payment for export cattle must be 50% prior to testing, and the balance will be due prior to shipping.

PAYMENT OPTIONS

MJT's payment plan is 1/2 down on sale day and a post dated cheque for July 1, 2021. Please call Mick or Kurt prior to the sale if you would like to make alternate payment arrangements. The right of property shall not pass until settlement is made in full.

VIDEO AUCTION

View the catalog and videos of ALL animals online at: www.mjt.ca • www.dlms.ca • cattlevideos.ca. This will be a video sale with no animals entering the ring. All of the sale cattle will be available for viewing prior to the sale, at the sale location. Real Time Bidding will be available via the internet for our sale. Live audio and video allow you to bid on the animals as if you were present at the sale.

RIGHT TO SEMEN

MJT reserves the right to collect semen at MJT's expense and the buyers convenience. Any semen collected will be for MJT Cattle Company's in herd use only, unless specified in the terms of sale of a lot.

HOOF TRIMMING

No feet have been trimmed on any sale bulls.

BULL WARRANTY

All bulls are guaranteed breeders. All bulls are semen tested and vet inspected, and under a full herd health program. The Standard Canadian Hereford and Canadian Angus Association guarantee applies, as well as our 100% Customer Satisfaction Guarantee. We do not warranty against injury or illness after the sale, and encourage the use of insurance for that purpose. MJT will have replacement bulls on hand to cover your breeding season should you have any issue with your bull. Under no circumstances shall MJT be responsible for more than the purchase price of the said animal.

PURCHASER'S RISK

Each animal becomes the risk of the purchaser as soon as sold. In an effort to protect the buyers interests, we strongly recommend insuring the bulls. There are many insurance options available, including a 6 month plan to get them through their first breeding season.

ANNOUNCEMENTS

From the auction block take precedence over what is printed in the catalog.

LIABILITY

The owners, their employees, sales staff, and representatives accept no responsibility for accidents or illnesses that may occur. Persons who attend do so at their own risk.

DIRECTIONS TO THE RANCH

Travel 14 miles East of Wainwright to Secondary Highway 894
Go North for 11 and 1/2 miles

From Vermilion go South on Highway 41 to Secondary Highway 614
Turn East and go approximately 13 miles to Secondary Highway 894
Go North for 2 and 3/4 miles

From Kitscoty go South on Secondary Road 897
Cross Battle River and turn West on the first road after the river onto Township Road 454
Travel approximately 6 miles West and turn North on Secondary Highway 894
Go 7 and 1/2 miles North

From Marsden, Saskatchewan go West on Highway 14
Turn North on Secondary Highway 894
Go 11 and 1/2 miles North

CALVING EASE

We have spent a lot of years selecting for calving ease, and selecting for genetics that allow for calving ease without sacrificing performance. Many customers use our bulls on their first calvers. When we started the 'Back to the Basics' Bull Sale we made a system to help you when choosing your next heifer bull. When we grade the bulls, we are fairly conservative. Some of our customers with larger framed cattle successfully 'level up' as they get to know our program. Mick has always said, he won't sell a bull he wouldn't calve out himself. The system is based on the following...

BW in pounds

Consistency of sire's BW

Consistency of dam's BW

Consistency of calving ease of both sire & dam

★ Recommended for cows only

★★ Recommended for cows or larger framed heifers

★★★ Recommended for heifers

Always keep in mind 50% of your calf's BW relates back to his dam.

We are doing our best to consider the health and safety of all of our valued customers and their families. We appreciate that farming is an essential service and our customers have cattle that need to be bred. The one thing that we are certain of, there will be a Bull Sale, and we will do our best to accommodate our customers to ensure they have a seamless purchasing experience.

It is important to note, because the sale is not until February, it is impossible to predict what the state of the pandemic response will be in Alberta at that time, including the types of restrictions that may be in place. We will be following the evolution of the guidelines carefully. If the capacity guidelines are increased, we will announce changes to our protocol on www.MJT.ca as well as on our Facebook page.

**“IT IS MJT’S PRIORITY TO
SERVICE OUR CUSTOMERS
WHILE KEEPING THEM SAFE
AND PROTECTING PUBLIC
HEALTH”**

The “Back to the Basics Bull Sale” is classified as an Agriculture Commerce Service.

MJT will ask that our customers in attendance follow all standard public health guidance, including physical distancing, masking and enhanced sanitation.

We will have cattle available for appraisal from now until sale day to assist in reducing sale day traffic. We will be having an outdoor Open House February 6th - 7th. Mick, Kurt, and Matthew will all be on hand to answer any questions and take you through the cattle.

Online bidding will be available at DLMS.ca – it is required to register for a user account to purchase online.

We do offer a sight unseen guarantee, and can arrange someone onsite to look after your bidding.

MJT will have a number of Sale Day Phones available, and we will be happy to arrange for you to be on the phone during the lots you are interested in.

Currently, No Food or Liquor Service is permitted on site. If the regulations are lifted in regards to food service, MJT looks forward to providing the hospitality that our customers have enjoyed throughout the years.

If you have a working relationship with one of our Sales representatives, we encourage you to utilize their services.

Please limit to one representative from each farm where possible.

Please do not attend the sale if you feel unwell.

ABOUT OUR PROGRAM

There are many times in the cattle industry where feed reserves are marginal. More than ever we recognize the importance of knowing there is a positive return for every dollar spent. At MJT we make every effort to ensure that there is value in your bull buying dollar, be it through our bull development program which ensures the most longevity possible, or our consistent emphasis on sensible birth weights to ensure live calves, minimal labour and high breed back percentages.

Our cattle are raised with the basics in mind with a primary focus on the needs of the commercial cattleman. Basics are what have made the Hereford and Angus breeds attractive for generations. We feel our commitment to this should help you, the rancher, produce predictable and profitable cattle using MJT genetics. We feel that having kept the basics of the cattle business at the forefront of our program is what has built both our herd and reputation. We won't compromise our principals to chase trends or for short term gain in our own pockets. We believe the most economically important traits for the cow/calf producer are still all about the fundamentals...fertility, longevity, structure and soundness, and fleshing ability.

MJT isn't in this for the short haul. We have been in the "Bull Business" for four generations and this is our 27th sale at home. The philosophy has evolved over the years and we feel that the cattle are continuing to improve and are now more consistent than ever. We believe good cattle can sell themselves and we try to offer a good selection of bulls that are affordable to the needs and budget of every rancher. We run the

cow herd and the bulls like a commercial outfit, testing the do-ability, winter hardiness, fertility, udder quality and longevity under real world conditions. We know our cows can wean a respectable calf crop under almost any conditions. We strive for low input management, and our cow herd has proven it can graze nearly year round. In 2018, the mature Spring calving cow herd was fed mechanically for only 10 days. It has been our goal for a few years to only feed for a short period at calving and this year we were able to achieve something we only thought to be impossible 10 years ago.

MJT bulls are developed gently with their futures in mind. We expect that the bull you buy looks better on sale day than in the photo in the catalog and that he will look better the day we deliver him than the day you bought him. We just see this as normal development and will not overfeed to get them fat for the sale. We want you to be able to see what each animal has to offer under his hide, so you can pick the best fit for your cow herd. Gradual development in large pastures and big pen sizes ensures mobility, athleticism, and skeletal strength. All bulls are coming Two Year Olds; bulls that can cover more ground, breed more cows and maintain their stature better than a yearling bull.

We consciously make low use of AI breeding. Selecting a new herd bull is an intense process. We make many miles and believe that the homework on the dam, the related offspring and the actual bull himself are critical. The investment in genetics with this method is a few orders

"WE DON'T RAISE SHOW CATTLE, WE SHOW CATTLE WE RAISE."

of magnitude greater than AI'ing. As we investigate and analyze each new breeding piece that we add we also find ourselves more and more looking back at our own yearling pen and cowherd to move our program forward. For 27 years we have selected for consistent birthweights, and focused on soundness and foot structure. We truly believe the females are the pillars of a herd, and our main focus is always building better females. Moving our main group to late spring calving has pushed us even further in our focus on udder quality.

So why not just AI? When we buy a live bull and walk him with our cows we get to see all the other traits that don't show up on a photo or a stat sheet. This allows us to be the first to know if any problems arise and allows us to cull accordingly. We hear much concern with foot and leg structure in today's cattle. As far as we can tell, the surest way to verify long term structure and breeding soundness is to walk our dams and sires and be very critical of anything that might develop. As a result, 0% of MJT sale bulls have had their feet trimmed. On sale day the pens will be nicely bedded but we always leave some open ground so that you can assess our emphasis on foot quality for yourself.

We don't raise show cattle, we show cattle we raise. We have often debated about the merits of showing cattle. We worry that there are times in the industry where it becomes tempting to compromise on the fundamentals in favor of competition. However, there are also many benefits it affords. First and foremost, it helps develop our kids.

The learning and opportunities that our industry provides agricultural youth in the show environment is second to none. The relationships that the kids make will last far longer than any ribbons they win. We have discovered that the enthusiasm of the younger generations can take you further than you ever thought possible. Secondly, for our own development. When we get to the shows, it's a community unlike any other...graced with so many competitive yet thoughtful, caring, strong, fun and hardworking people. The exchange of ideas about what works and what doesn't can't help but make everyone involved a better stockman. Thirdly, it allows us a great opportunity to assess multiple genetics in an efficient manner. Kurt and Mick spend a lot of time through the barns looking for both positive and negative patterns in progeny, to assist us with our own genetic selection. Last, but not least, the cattle we show are cattle from our program and getting them in show condition allows us to demonstrate the results our customers can expect from our genetics when fed on a higher plane of nutrition. It re-enforces our confidence that our genetics have enough muscle, depth of body and quality to remain relevant in today's cattle industry.

We hear from many customers, that show cattle don't work for them. We have made a commitment to showcase the genetics we raise for our commercial buyers, and will not compromise on our fundamentals. MJT cattle are sold with 100% guarantee and we strive to be #1 on service. We know sometimes things go wrong with bulls and if you have trouble we want to be the first to know.

BULLS ARE FED WITH THEIR FUTURES IN MIND!

THEY ARE ON PASTURE FOR SUMMER AND FALL GRAZING. IN WINTER BULLS ARE FED HAYLAGE, A LIGHT WHOLE OAT RATION AND CORN SILAGE. WE DON'T USE PROCESSED GRAIN AND PROTEIN SUPPLEMENTS FOR SALE ANIMALS. ALL BULLS MUST PASS A BREEDING AND SOUNDNESS EVALUATION.

MJT MISS 7M MERLIN 225P

Rocky has had so much success in the show ring, himself being ultimately crowned World Champion Hereford Bull in 2019. He has shown us he is even better in the real world siring both heifers and bulls that are consistently good as any bull we have ever used. Daughters are coming into production and from the looks of what we can see right now his ability to sire great ones is about to be as legendary as himself. A bull so well rounded you can sleep easy calving them as they come right in that 85-90 pound range, marked right, cherry red and get growing right away.

Lincoln offspring are well marked, fully pigmented and have beautiful hair coats. His sons are heavy muscled and the daughters are feminine, fancy and perfect uddered. They have the capacity and rib that make them super mama cows! His progeny have done very well in the show ring and in the pasture for us. Lincoln is no stranger to the show ring himself. He was the Farmfair International Grand Champion Hereford bull in both 2013 and 2014. Mick judged him at Farmfair in 2013 and purchased him out of the

stall from Flewellings right after. His daughters have done well for us in both in the pasture as well as the showing. MJT 495Y Cindy 105C was Champion Horned Hereford Female at Lloydminster Stockade Roundup in 2016 as a bred heifer, and again in 2017 with her calf at side. She was also Champion Senior Female at Canadian Western Agribition.

DAM: **HAROLDSON'S AD JESSICA 48Y 15C** HAROLDSONS WLC RHINO ET 48Y
 HAROLDSON'S WS JESSICA 4T 60X

This bull is one that's hard to miss. He made a lot of friends during summer herd tours and it isn't hard to see why. Out of a full sister to one of Haroldson's Herefords donor cows and a donor cow herself, he comes by his tremendous power, style and soundness honestly. He's a bull that has immense width over his top and throughout his hind third, not to mention it's all red muscle. He's bound to make rips of calves regardless of purpose or gender. Maternal, power, and sound, check him for yourself.

We purchased Tabasco from Anna Marie Perrot at Alameda as a lot 1 in their inaugural bull sale. He was a top end bull with as much performance and growth as we had seen all Spring. He is well bred and his sons should also leave a little more size and room for some growth. We should have a couple daughters in production by sale time.

A true beef bull that is as easy keeping as they come. Anyone who has seen him remembers him as being one of the roundest and big barreled bulls they have ever seen. He is a pet thanks to his breeder Calla at Blairswest and his offspring have shown us no indication of any attitude which was our only concern given some others' experience with his sire. His dam, Erica 74A is probably the most recognizable Angus cow in Canada, and perhaps also the most desirable. She is truly a great one and we look forward to calving out our first daughters.

 MJT DARK DUCHES 207B

When you see this brute, you will take a second look. A bull with the style, muscle pattern, hair, disposition and mama to make a herd sire. He's moderate with an extra bit of punch.

 ERIXON LADY 106D

SELLING 50% INTEREST. This beast is the first calf out of just a 1300 lb female who blew past all expectations when he weighed in at 1020 lbs at weaning time. His dam has a picture perfect udder and is moving to the donor pen soon, not to mention his sire is one of the hottest in the breed right now. He was selected as this year's Reserve Champion Bull at Lloyd Stockade and we couldn't agree or thank judge Tyson Hertz more for his comments on Odyssey. "He's an extremely powerful, soft-made, and sound bull, who's attractive on the move. This bull is the real deal!"

DAM OF 813G
