Welcome to the 12th Annual Bull & Female Sale

Welcome to the 2022 edition of the Lazy E Bar Bull sale. With the dry conditions throughout most of western Canada in 2021 I'm fairly certain a lot of people would like to forget last summer. But being optimistic farmers, It's a new year and we will keep on doing what we do and look to the summer of '22 with renewed optimism.

We feel this is the best set of bulls we have raised to date and are eagerly awaiting your input, because it is ultimately our goal to raise cattle that are liked and accepted by our customers. The 3 Sons of TC Stockman 365 have been developing very nicely through the winter. The Old Post and Wiwa Creek Stockman 43'93 sons continue to attract attention as well.

We have decided to continue with the timed online format this year to help to the ease stress of sale day of the bulls and help fit it into peoples schedules with calving and the daily grind, If you have any questions about the format give us a call and we will make sure to help you out with your needs. If you would like the full tour through the bulls and cow herd, stop in and have a look at any time as we are almost always around.

Answers to Common Lazy E Bar FAQ's

- The cattle are run on a Veterinarian advised health program managed by Dr Murray Jacobsen, Ponoka Vet Clinic. Vaccine and vaccine protocols are continuously updated to be at the top of the industry. The bulls will all be vet checked and have passed a semen test prior to the sale.
- All of our cows and calves are used to being hauled, and travel 100-125 miles each way for summer pasture.
- When being fed, the cattle receive a mix of silage, grain and a nutritional supplement. This is done under the watchful eye of a nutritionist ensuring strong development and growth while maintaining the longevity of the feet and legs. None of the bulls in the sale have been hoof trimmed.
- We work with our cattle on regular basis and cull for both performance and temperament. This helps us to ensure that the bulls brought to our sale every year will be solid long term investments for your herd.
- Our herd is "what we farm" All of the acres of land we own are used for pasture or silage. Grain for feed is acquired from local farmers in our community.
- We breed our Heifers to start calving mid march and cows to calve late March - May, allowing them to calve in the field and pasture in a ranch-style environment with as little intervention as possible. Our goal is to keep strengthening the tradition of great maternal qualities that Black Angus cattle are known for, by culling out the weaknesses and rewarding the cows that bring home great calves year after year.

Lazy E Bar Ranching Mission Statement:
To improve the dressing percentage & lean meat yield of the Angus breed while retaining the great maternal attributes that the breed is famous for!

Lazy E Bar Ranching
12th Annual Online Bull & Female Sale

Sale Opens - Feb 17, 2022

Calving Ease Score

★★★ Recommended for use on heifers.
★★ Recommended for use on large-framed heifers.
★ Recommeded for use on cows

Pick Up / Delivery options:

Option # 1: Pick up your bull within 7 days of sale and we will take $100 off/bull bought.

Option # 2: We will deliver the bulls to you within 2 weeks of the sale free of charge up to 400 Kms. Beyond 400 Kms the cost will be cost shared.

Option # 3: **Spring Develpment Program** -
At Buyer's Option and Risk, we will care for your new bull until May 1st at a cost of $350.00, payable with your sale invoice. Bulls staying at the Ranch after May 1st will be charged an additional $3/day at time of pick up. All Bulls staying on Spring Development program will be required to be picked up at the ranch. All Bull's remaining at the Ranch must be insured and are the risk of the new purchaser.

US Purchases / Deliveries:

Lazy E Bar will deliver any US purchased bulls to Coutts, AB after health tests have been completed. All cost associated with the health test, brokerage & import paperwork will be the responsibility of the new owner. Please call us and we can help you with the process and answer any questions.

How to Participate in the DLMS Farm Gate Timed Auction with Extended Bidding:

1. Visit www.dlms.ca , scroll down sale list to find the sale you are interested in bidding on. Click on the sale listing and you will be taken to the FarmGate Timed Auction Sale page.

2. After you are at the FarmGate Timed auction site - farmgatetimedauctions.ca, click the LOGIN/REGISTRATION button.

First time FarmgGate users:

- First time users will select the REGISTER button from this page. Fill out the registration form to signup for a free user account and it allows you to select a username and password for use on all Farm Gate Timed auctions. (please note due to some of the text notification features the FarmGate Time Auction Site requires a new account separate account from your DLMS Live sale site)
- After you create your FarmGate account you will receive a txt message with a pin code to verify your account.
- On your first log in to FarmGate Timed auctions we recommend you go to your profile and confirm your notifications are set to YES. This allows the site to send you text and/or email notifications when you are out bid and if there is activity on your favorite lots.

Returning FarmgGate users:

- If you have used Farm Gate Timed auctions in the past simply enter your user name and password to continue. After you have logged in you are able to browse the timed auctions on DLMS FarmGate Timed Auctions.

3. How to Bid

Now that you are logged in and your account phone number / email is verified you are able to bid on an upcoming sale. Simply find the lot you are interested in bidding on. After you have found the lot there are 2 options for bidding on the lot.

- Place Next Bid – to place the next bid on the item, you see the amount in the first box, you simply click the "Place Bid" button and after you review the bid and agree to the terms and conditions your bid will be placed.
- Max Bid Amount – to place a max bid you put your max bid in the second box listed as "Max Bid" on the item, and then click the "Place Bid" button and after you review the bid and agree to the terms and conditions your bid will be placed as the next bid. With the Max Bid placed the computer will then keep you as the high bidder to the max amount you have placed. This can be a great feature if you are not able to give 100% attention to the sale close out and protect your interest so you do not miss out on any lots you want to purchase. The Max Bid amount is completely confidential from the seller during the sale process.

Example of How the Max Bid Works - If the lot has a $2000 bid on it and you place a proxy bid of $3500 into the system, the computer will bid $2100 for you but if some one else bids $2200, the computer will again bid for you, this time at $2300. The system will look after your interest to a maximum of $3500. If another bidder is on at $3600, your proxy will no longer be effective and you will no longer have the winning bid on this lot without once again logging in and bidding again or moving your attention to a second lot of interest. Please note that in some cases a lot value can change very quickly if 2 max bids are placed on the same lot competing against each other.

4. Watch List Feature

If you have items in multiple auctions or only a few from the same auction that you want to watch with out having to scroll through the entire list you can add the lots to your watchlist. On each lot you will see the "eye" button beside the bid button, by clicking this "watchlist" Icon that item is added to your personal watchlist for easy viewing of just your favorite lots in this sale or on the entire site.

5. Sale Ending / Closeout

Most FarmGate Timed Auction sales close racehorse style with extended bidding.

What is Racehorse Style Close?

Racehorse style sale close is when the entire sale stays open in extended bidding. This type of sale allows you as the bidder to change to a different lot within the same sale if the bidding has gone in to extended bidding.

How will Extended Bidding works?

When we get to the close out end time the clock for close extends with any bid placed with less than 5 min on the clock. This type of extended bidding turns the end time to more of a soft time. Extended bidding allows bidders to compete in lots like a real auction and give all bidders the same time to make a decision.

Always follow the clock to see how much time remains in the sale you are interested in.

6. Bidding Close & Follow-up

After the clock has gone to "ENDED" and no bidding has occurred for 5 min the computer will declare the sale finished. Following the close typically within 24 hours of the sale close the sale consignor will contact all winning bidders to arrange payment, transfer of pedigrees and delivery/Pick up of your lot. Or as the winning bidding you can contact the sale consignor / sale manager to confirm payment instructions.

Please make sure that your account info is up-to-date and correct if you are the winning bidder of a lot as this is how the billing is sent to Sale manager and/or Sale consignor.

For more info and assistance with bidding contact; DLMS FarmGate Timed Auctions ~ Mark Shologan Ph: 780-699-5082

Terms & Conditions

TERMS - The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. Lazy E Bar reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should the purchaser fail to settle for his purchase, Lazy E Bar reserves full power to resell the animal to the best advantage, either publicly or privately, without further notice. Any loss arising from such resale, together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

BID - Every animal consigned to the sale must be sold by auction. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold.

ANNOUNCEMENTS from the auction block will take precedence over printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - The proper Registration of Recordation paper, as the case may be, will be duly transferred and furnished to the buyer for each animal after settlement has been made.

GUARANTEE - All animals will carry standard breeding guarantee as specified by the applicable Canadian breed Association. At no time shall the seller's liability exceed the purchased price of the animal.

EXCEPTION TO GUARANTEE - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void. In the cases of bulls, they are guaranteed to breed naturally according to applicable Canadian breed Association guarantee, but no guarantee is given that semen from any bull will freeze.

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Lazy E Bar assumes no responsibility for the health status of any animal in the sale.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither Lazy E Bar, auctioneer, or sale staff assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and the terms and conditions of this sale do not cover obligations of the two parties connected thereto.

A quick Note about Nutrition at Lazy E Bar Ranching

It takes a combination of strong genetics and an optimal nutrition program to develop a solid herd sire that will perform throughout the years. Although feed cannot solve all the problems of the world, a balance between natural proteins and carbohydrates is important for maximum lean protein accretion (muscle development) which aids in expression of the animal's genetic potential. To further optimize vigor and immunity of the animal trace minerals must be balanced as they effect absorption and cellular function. Macro minerals such as calcium, phosphorus, and magnesium must also be adjusted for interactions with other minerals such as potassium, and balanced in ratios for bone and muscle development

A smooth transition from one operation to another as your new sire begins to work is important for his longevity as he performs in your herd in future years. Thus, proper nutrition for the bulls when they get home is critical. We recommend that bulls are put on to a similar ration as the lactating cows they will be breeding for at least 40 days prior to turn out. We recognize that this is not always possible as bulls may be breeding for early January or even on grass. Therefore, Lazy E Bar bulls will be on a high forage diet to match with breeding conditions as much as possible allowing for a smooth transition.

At Lazy E Bar, all bulls have been developed on balanced high forage rations from calves on the dam through to the two-year olds you see today. Well-developed muscle under a layer of conditioning is required to sustain the bull through this breeding season and many more to come. A bull is an investment; we feel he has to last you for many years. As such we want satisfied customers to recognize the time and development that goes into making a good bull, and come back for many more over the years to come. It is the careful monitoring of the bull's development in cooperation with the nutritionist that makes a bull last.

Cole Schwengler
Nutritionist

RAVEN FEEDERS

A Note about Birthweights!

Angus bulls have long been known for their paramount calving ease. If you are breeding heifers, Angus is the go-to breed of choice. But what about the so-called "big" birth weight Angus bulls – where do they fit in? The vast majority of mature cows calve unassisted – it is pretty rare for a mature cow to need assistance, except for abnormal deliveries (backwards, breech, twins, and ECT.). Data reported to the AAA shows that 99% of Angus cows, second calf or beyond, calves unassisted and only 1% need some type of assistance (abnormal deliveries excluded from this data).

Back to the question at hand: where does the "big" birth weight Angus bulls fit in? Example If you have a bull with a Birth EPD of +5, he would be 3.2 pound heavier than the average (breed average BW EPD 1.8) (5 – 1.8 = 3.2 pounds difference.). However, his superior growth EPDS mean he will wean bigger calves and put way more money in your pocket than the average Angus bull! The moral of the story: If you are breeding mature cows to an Angus bull, don't make the birth weight be your focus.
