## BULL & FEMALE SALE

AT THE RANCH | THURSDAY DECEMBER 18 | 2PM CST

Well, another year has come and gone and it's getting time for a bull sale. We are happy with this group of bulls and it has been fun watching them change and grow. These guys have been on free choice hay and grass pellets and we are happy with their consistent growth and expect they should make great breeders for any situation.

As far as things around here, it was a strange year. It didn't want to rain at all until the end of June, and then for the next six weeks it never seemed to stop raining. Then when it did stop, stop it did and we haven't had moisture of significance since early August. But as the dust settles on another year, we managed to grow enough feed and the cows look really good and the grass is OK, couple that with the best calf prices any of us have ever seen and Matt and I aren't going to complain.

Now we are just about to settle into winter chores and chasing our kids around the hockey rinks of southern Saskatchewan, and we would like to invite you to our bull sale on December 18th. The coffee will be on and the food will be warm.

See you there,

The Jahnkes  
PO Box 90 | Morse, SK | S0H 3C0

## DIRECTIONS

### FROM MOOSE JAW:

Turn north on Calderbank Road (west of Uren) for 29 km, turn west for 6.5 km. Cross SK-644 and continue west to the sale barn.

### FROM MORSE:

Drive north on SK-644 for 21 km to the T-intersection. Turn east and follow SK-644 (there will be 3 speed curves) for 21 km.

### FROM RIVERHURST:

Drive west on SK-42, turn south onto SK-644 for 20 km.

The sale barn is 3/4 of a mile directly west of 3 windmills.

Heifer bull. Another 215C son, they all kind of look the same which is a really nice quality to have when calving heifers.

We bought this calf as a pair from Andy of Lilybrook Herefords. He should work on heifers as well. He is short marked and very quiet.

This young bull out of old 188C is one of my sleeper picks, he is moderate in frame but he's going to be a good bull. I think he is very quiet and easy to work with. 188C was my favorite cow until she cast herself last winter. I miss seeing her around.

Smoky is a 12-year-old grey gelding that measures 15.2 hands. He's been our go-to ranch horse all year. We've used him during calving, sorting pairs, brandings, putting out and pulling bulls, doctoring, round up, weaning, ranch rodeos, and halter breaking colts in the round pen. Smoky is the one we ride when we backpack our one-year-old daughter or pony our son, and he's part of my wife's remuda. Smoky rides very quiet and he's very friendly. He handles our little kids leading him, brushing him, and running around with no problems. He's good to catch, saddle, bridle, trim, and haul. We're going to miss having Smoky around, he's become a very valued part of our herd. Give us a call for more information on this great ranch gelding.
