elcome to the 53rd Annual Canadian Red Roundup Sale. In 1973, the founders of the Canadian Red Angus Promotion Society had the vision to promote the Red Angus cattle by hosting their first sale. We thank them for their forward thinking and dedication to this breed. Since that time decades of proven Red Angus genetics have been marketed through this prestigious sale. 53 years later, the CRAPS board is going strong promoting Red Angus cattle across Canada. Many families through the generations have sold, bought, and attended this outstanding top-notch event. Red Angus breeders bring only their very best cattle for the large crowds at Red Roundup to view their breeding programs. The Red Roundup sale cattle have worked extremely well in the industry, and many lifetime friendships have been made.

The board of directors have worked hard to put on the CRAPS EVENT with the RED ROUNDUP SALE. This year along with the Red Roundup Sale is a Bull Show, Junior Events and our Annual Fundraising event.

Special thanks to the Anchor 1 Angus of Mayerthorpe for supplying the Donation Heifer in 2025. Your support to the Red Angus is much appreciated.

Last year, was the 1st year of the Regional Red Angus Heifer program for Junior members across Canada to create enthusiasm in our breed. As the numbers of Red Angus cattle being exhibited at the Junior Shows and major fall shows had increased this shows the enthusiasm in Red Angus cattle.

A Promotional video and Pull Up Banners were created this year on the Red Angus cattle, which were extremely well accepted and a great tool.

In 2024 the Red Angus breed excelled with the Supreme Champion Bull at Agribition and Farm Fair, and record prices for Red Angus Bulls in the Spring. It is an exciting time to be in the Beef industry with record prices. The Red Angus Females and Bulls are assets to many breeding programs both purebred and commercial.

Special thanks to the board of directors of CRAPS who have volunteered their time and team effort for the betterment of this Society. Thanks to Jodi Robertson Wildman for all her dedicated effort as administrator over the past 2 years. Thanks to OBI and our dedicated Sale crew for conducting a professional Auction sale day. We are always looking for new members to our Red Angus family, so please take time and go to www.redangus.ca to become a member. The opportunities are endless with Red Angus cattle. We invite you to come out to Olds, Alberta and experience Red Roundup 2025!!

DONATION HEIFER DUTCH AUCTION PROCEDURE

The final bid in each round will denote the amount of that bidder's donation. Example:

Round 1: Final Bid is \$300 to Matt Campbell. Matt's donation is \$300 Round 2: Final bid is \$250 to Tom Clancy. Tom's Donation is \$250 Round 3: The female is re-auctioned until no further bids are received at the low of \$10

Each \$10 purchased (donated) represents one chance in the final draw, e.g. Matt Campbell has 30 chances, Tom Clancy has 25 chances and so on down the scale to the final \$10 donation worth one chance each. One ticket for every \$10, bearing the contributor's name will be put into the draw barrel. At the end of the sale, one ticket will be drawn with that person winning the heifer.

Red Round Up for us will always be known as the sale where endless friends and memories are made. Anchor 1 Angus is honoured and beyond excited to provide this year's donation heifer. Red Anchor 1 Freyja 7N is from one of our favorite cow families. Her young dam is red hot right now, raising a sale bull for our program, and 2 Red Round Up guests, in just 3 attempts. She is currently carrying a mating to Red Wilbar Hennessy 3K, the pinnacle of a special semen package that we acquired at this very sale, just last year.

Like all of our fellow breeders our main focus is to keep improving our beloved and always thriving Red Angus breed. On behalf of Anchor 1 Angus we would like to thank all of the past and current consignors for your friendship and for the outstanding females that you continue to offer at this prestigious sale each and every year. We would also like to give a big round of applause to the sales management team, the board of directors and CRAPS, you all do an amazing job of promoting these outstanding, breed leading females, and the Red Angus breed as a whole.

I honestly don't know where to begin writing a footnote on a bull like Kujo. Have we lost our mind offering this powerful herdsire at such a young age? Maybe.... We have used Kujo heavily since he was a yearling that this is the only way that we would be willing to part with him. He has done everything that we had expected from him and much more. Kujo is a powerful and well-balanced herdsire with an impeccable foot and sound structure. His early success in the show ring as a calf has carried through to the breeding pasture, consistently siring stout, eye catching progeny with depth, shape, and presence. As a bull calf Kujo had a very impressive fall, as this is where we had first taken note of him. He was Champion Senior bull calf at Stockade, Farmfair, and Agribition. He was champion King of the Ring champion and Reserve Champion Red Angus Bull at stockade and was crowned Reserve Champion Red Angus Show Bull of the Year. We have had 73 progeny born at our place in the last two years from Kujo and have averaged 86lbs for birth weight. From an early age you can pick out the Kujo calves for their depth of body, muscle mass, bone structure, stout made, and passing on his dark square foot to his progeny. I feel that Kujo is going to sire the type of cattle that are going to make a lasting impact on the breed for many years to come and can excel a program to a new level with the progeny that he is leaving behind. As Ty had written in his sale footnotes as a yearling bull "We feel Kujo is so unique and special because not often do you see a bull with this kind of power that is so soft made, free moving, and extremely athletic." We feel this still rings true to describe Kujo to this day and have seen it firsthand each year as he walks the pastures covering large groups of cows. Co-Owned with Goad Family Angus & Redrich Farms.

Selling 100% interest and possession. No semen has ever been sold on Kujo. Goad and Redrich are retaining in-herd semen only to use going forward in their own herds.

RED CC EXPANSION 5E RED TOWAW INDEED 104H RED TOWAW MOLLY 67C

Dam **RED CC EXPANSION 5E RED TOWAW LAKIMA 26G RED TOWAW LAKIMA 136C**

CONSIGNED BY TOWAW CATTLE CO.

Lakima 407E is a female that is as proven and predictable a female that we have ever offered for sale! She is a direct daughter of Indeed and her dam was one of the top 5 cows to ever walk the pastures at Towaw. Her full sister, Red Towaw Lakima 76M, is a donor cow for Wild Cat Creek in Kansas, and produced until she was 19 years of age. 407E's daughter, Red Towaw Lakima 4116, is a donor cow as well, and is a structurally sound and great uddered front pasture cow. She in turn has raised a son that is working at Smoky River Red Angus and her 2025 daughter is in our show string. Another daughter Red Towaw Lakima 408J has a son working in the Heart of the Valley herd and has a very exciting Baldridge Badger son in this year's bull pen. 407E was flushed last September and produced 16 #1 embryos and bred back on her first cycle. She was flushed again this September and will be flushed once more in early November. Sells open and ready to flush.

CONSIGNED BY ALLISON FARMS LTD.

The most exclusive opportunity that we have ever offered. Red Allison Spring Rose 57M is a female that does all the hard things right! A full sister to the \$43,000 elite herdsire that went to Yeguada El Tres, Manuel Herrera, San Miguel de Allende, Mexico. Spring Rose features easy fleshing, extra rib, and length of body. A complete package for a future donor cow! The paternal brothers of Spring Rose 57M include Red Allison Abyss 58L walking the pastures at Cockburn's, the \$115,000 herdsire Red Allison Paradigm 74L at Southview Ranch, and Red Allison Mob Ties 77L at O'Hare Ranching. Her Grand-dam is the dam of Paradigm! A loaded package with a track record for success. Spring Rose is a female we strive to produce. A powerful female with feminine traits, incredibly sound moving, and history to prove production. This will be the last Red Allison Elysium daughter to sell from Allison Farms. Parent Verified.

CONSIGNED BY PIRO RED ANGUS

Aradath is a powerful, big topped and stoutbuilt female with Performance in mind. If you're looking for big time performing calves, she's the kind to get it done. Her dam 8144F is a big-barreled beast of a cow that produces top end calves year after year. We can't say enough good things about Allison Design bull! He has left us with an incredible stand out group of easy fleshing replacement heifers with tremendous foot quality! With the udder quality and structure of his dam we are sure excited to see his first females milk this spring. Bred to the PIRO Momentum 310L another son off our 922G cow that produced our high selling bull this year that went to Reverce GC Angus.

SERVICE EXPOSED MARCH 28 TO MAY 16 TO RED PIRO MOMENTUM 310L DUE EARLY JAN.

CONSIGNED BY WHEELER'S STOCK FARM

Red Wheel Pride 2M is a brood cow superstar in the making. She possesses the depth and rib shape we have come to expect from our Good Time Charlie daughters. Her dam, Pride 20J was a feature lot in the 2023 Red Roundup selling to Combest Red Angus. We are fortunate that Lynn has left this female with us to manage for him. We absolutely love our Stark daughters and Pride 20J is a great example why. She has a great udder, is sensibly sized, easy fleshing, fertile and raise great calves. The service sire Red Allison Prestige 114M was the high seller in the 2025 Allison Farms bull sale at \$97,500 to ourselves and Canadian Sires. He is a dark red, good footed, calving ease sire that doesn't sacrifice performance. Consigned with Combest Red Angus.

SERVICE EXPOSED FROM APRIL 20 TO JUNE 30 TO RED ALLISON PRESTIGE 114M.

CONSIGNED BY WHEELER'S STOCK FARM

Red Wheel Annie Oakley 54M is from a royal flush of outstanding genetics. She is a full sister to our resident herd sire Red Bar MM Convoy 127K, and several stellar cows in our herd and at Bar MM. One sister, Red Wheel Annie Oakley 22K, was the high selling female in our 2023 female sale to MCF Cattle Co and went on to be named Reserve Champion Two-Year Old Female at the 2024 Agribition. Annie Oakley 54M is destined to follow in their footsteps. Annie Oakley 8B has been one of the most dominant donor females in North America, and is the signature female of our donor arsenal. Her accolades have become too long to mention them all, but take advantage of this opportunity to own a direct daughter while you can. The mating to Red Allison Prestige 114M will add another layer of sound made, good footed, dark red genetics that will be extremely marketable.

CONSIGNED BY **SCOTT STOCK FARM LTD**.

Red SSF Scotts Ms Atlas 3M is a beautifully attractive made female. Femininity, combined with superior foot and udder structure. Sired by Red WFL Merlin 018A. Merlin calves are born light but exhibit excellent performance with impressive depth of body and overall thickness. He has been our go-to calving ease sire for several years. Our Merlin sired calves have been very popular and have sold extremely well in our bull sale, including our featured son in our 2024 bull sale commanding \$31,000 to U2 Quality Seedstock. Our Merlin daughters are now in production displaying beautiful udders with lots of femininity and eye appeal. 3M's dam, 306E is an 8-year old never miss cow, selling her bull calves in the front end of our bull sale every single time. Lots of performance & longevity in this bloodline. Possibly the most exciting part of this feature lot, is her service to Red Wilbar Beretta 859M. He was the record setting highest selling Red Angus bull in Canada for \$225.000. Semen has traded in excess of \$1000/unit.

CONSIGNED BY **SCOTT STOCK FARM LTD**.

Red SSF Scotts Ms Atlas 15M is an absolute powerhouse female ready to raise herd bulls or pasture leading females! 15M is a high performing heifer who is super long and big bodied, combined with a beautiful dark cherry red hair coat! We really like the maternal look of this female. Sired by Red Lwnbrg Slowburn 102H, an outstanding herd bull in terms of phenotype and performance. Slowburn has excellent foot and leg structure and his calves display lots of length of body, natural muscle shape and presence. Slowburn genetics have captured the attention of many astute Red Angus breeders across the country. SSF 15M carries on Slowburn's huge barrel and outstanding feet quality. Slowburn daughters are becoming cornerstones of our herd and 15M will be no exception. Preg checked safe to her Al date to Red BB Propulsion 9096. Propulsion is one of the top proven performance Al sires in the breed today known for his excellent combination of growth and muscle shape. This mating should produce big time performance with style and length of body to burn!!

abla lack consigned by **towaw cattle co**.

Leah 403M is a deep bodied, good hearted, very correct female that should make a great brood cow. While our herd is steeped in a tradition of using a lot of our own genetics, this female traces directly to a purchased flush, two exclusive semen packages, and bred to a bull that was an exclusive semen purchase as well. While touring the Miller Wilson Angus herd we found an Indeed daughter that really caught our attention due to her power coupled with great feet and udder structure. When we found out she was a Leah cow tracing back to the dominant cow family from Glesbar we negotiated a flush on her. Granite was a logical choice to flush her to and we got a great group of calves, including the \$12,500 heifer calf in the 2023 RRUP. PIE Captain semen was purchased from our friends in Minnesota, Jacobsen's Red Angus, and he did a great job of siring low birth, good growth and very eye appealing cattle. She is bred early to the Red CER Moon Pie bull that Triple L procured this spring. This might be as an exciting genetic package that you will find all fall and seeing her in person in Olds in December will back it up! Entered in Farmfair.

What better to offer in the 53rd Red Roundup than a daughter of a past roundup purchase! We purchased Red Shilo Gracious 24G in 2019 and she's been nothing short of impressive. She is easy keeping and trouble free with an awesome disposition. The Red Wilbar Crackerjack 73F daughters are a group of females we are excited to watch develop as each and every one of them carry tremendous fleshing ability and powerful foot quality. Crackerjack is backed by generations of fertility and longevity. BCC Gracious 407 is bred to the smooth yet powerful and now deceased BCC Hardrock 463 which is bound to lead to a potent purple mating. Any chance you get to combine a powerful and elegant red female with a Black Angus breed legend like Coleman Rock 7200 it's something to get excited about!

Outstanding generational genes from some of our industry's top bulls, Ambush 151T, Approval 4L along with her outcross Sire Chancellor 2107K. We love these kind of females, flawless travelling on a great foot with thick muscling, wide pins and deep barrel to pass on that powerful frame confirmation to their calves. They are the bull producers of our business and Duchess 13M has that greatness & style for a front pasture cow. She has longevity & fertility built in, her dam 460Y is calving again this spring, passing on the always exceptional udder/teat combination we have come to expect in her offspring, Pride & demeanor of these Duchess females will give you beauty calves on the map! She is U/S Vet confirmed bred for mid Feb. on Sept. 9th. We pay the DNA.

Foundational genetics abound in this well built, physically robust top of our bred heifer pen gal. Over the years, we have rarely sold female stock, choosing to continuously improve our bull offering based on female retention like this. Her long bodied, big-barreled frame on stout structure, with generations of proven udder & teat excellence from the maternal quality of the legendary Anexa line, make this sweet heifer a perfect introduction for any herd. This cow family have been premium bull making machines for us through the years & now this immense hipped daughter of the wicked good outcross Presidents son Chancellor 2107K, gets you a foot in the door for low maintenance, constitutional herd building females that will produce you the Wow factor thru the years, she is U/S Vet confirmed bred mid to late Feb. on Sept. 9th. We pay the DNA.

CONSIGNED BY **REDRICH FARMS**

A dark cherry red, smooth made, balanced, very eye appealing beauty that is laying down a tremendous udder. The Clooney females have been outstanding for us and the 88X cow was impressive in phenotype and production so you can be confident that this young matron will be valued in your herd. She has preg checked safe for a very exciting mid January calving to Red Allison Prestige 114M, a bull we were very taken by this spring with his phenotype, calving ease and performance.

If you are looking to acquire a structurally correct, Red Angus bred heifer this fall, be sure to explore Minola 60M. Extremely attractive in her design, 60M's gorgeous cherry red hair coat will grab your attention. She stands on a solid black foot and is displaying proper udder and teat placement. We are proud of the prefix in front of this heifer as we are certain that she is destined to do great things for her new owners moving forward. This is truly a powerful female, from proven genetics, that is built to produce marketable offspring that will stand the test of time. Anchor 1 Angus will pay for the DNA test on the calf in 2026.

CONSIGNED BY B ELLE RED ANGUS

There have been few opportunities out there to purchase a direct Slowburn 102H daughter and this one has all the looks of a beautiful cow in the making. 450M is soft made, and easy fleshing, that dark red hair coat and ideal head shape make her easy to appreciate. She's standing on typical Slowburn feet and legs, ideal in structure, and angles you need to get your eyes on this bred heifer to appreciate her properly. She's laying down the start of a square, envious udder. Her mother is one of the bestlooking cows on the farm, ultra feminine, ideal to us in mature size and has the added rib and hip to raise a herd bull too. 450M is poised to be that next front pasture cow in any herd.

Judge daughters, they've been popular here with everyone who sees them. We have offered quite a few of them now, and there's quite a few in our herd beginning to hit their prime years and without a doubt I can tell you they are all maternally excellent, low input, high value building females. They walk around on solid feet, and the udders are always top notch, neat, and tidy. The Lassies around here are our work horse cows. They consistently raise calves in the top end of the yearling pens and today they likely make up close to a third of our herd. Note that this M heifer, has a Z mother, and an S grandmother. Meaning these three cows nearly made it all the way through the letter system. Longevity is proven in this heifers line you can expect 457M to produce for you for a long time. She's got a bit more size and frame which she gets from 210Z and if she got her other attributes as well then, she is guaranteed to make a positive impact wherever she goes.

CONSIGNED BY EXCEL RANCHES

Syringa 419M is an absolute powerhouse with a stacked pedigree, one to take a look at. A huge chest floor, massive top, and built right from the ground up. Her foot and heel structure are impeccable, she's balanced, feminine, carries natural muscle deep into her quarter, and her growth curve is explosive. She rose to the top early, posting a 128 yearling ratio and 71 lb birth weight, our definition of a true curvebender. Her pedigree is equally exciting! Sired by a homeraised Musgrave Stunner son who commanded attention at our bull sale, her sire Kraken is out of a herd-favourite dam who was an Allison Red Angus embryo we purchased, from the influential GBCC 42W cow we regretted not owning after the Glesbar Dispersal. Syringa 419M's dam is a SAV One Nation daughter with a flawless udder and foot, one we're proud to build around. Bred to Cockburn Continental a bull who helped our herd grow in a great way. An exceptional spread, a great disposition, and the kind of foot structure we demand. His calves are super consistent, with small birth weights and lots of growth. As an added bonus they are hairy and quiet as can be. A red heifer backed by elite black genetics - phenotype, pedigree, and real-world numbers. A hard one to let go but seemed right for our first trip to RRUP.

CONSIGNED BY KOPPER LC RED ANGUS

We are proud to present Red Kopper LC Lika 60M as our first consignment to RRUP. While this marks our debut at the sale, it comes after nearly 25 years of focused selection on red genetics. Lika 60M is a standout example of our breeding philosophy; moderate in frame, easy fleshing, and wide topped, with excellent structure and a classic pattern. She also carries a strong dark red hair coat, true to our program's identity. Her dam, Lika 60G, was selected as a calf from Lauron Red Angus through the Chinook Sale. She quickly became a cornerstone female in our herd, known for her docility, structural integrity, and her ability to raise consistent, marketable calves. She also brings a solid +28 Milk EPD, ensuring maternal strength as well as built in Calving Ease. There's no guesswork in 60M's pedigree. Her lineage is rich in proven, foundational genetics, from great programs. Her sire Derby was known for adding length, pounds, and longevity to his progeny, traits that carry forward in 60M. This heifer sells parent verified.

Lexie selected Red Airam Diamond Mist 32L. Pictured here is 32L and her bull calf this summer of 2025. Great to see the Red Roundup investments at work for our Junior members.

CONSIGNED BY GOAD FAMILY ANGUS

372M a deep, easy-fleshing Kujo daughter showing the kind of power, rib shape, and wedgebuilt design that makes efficient, productive cows. The best part about her might be the udder and teat placement that she is laying down as she gets into production. The Reba cow family is one that has been very productive for not only us but making a statement in other purebred herds. We have gone back to the tank and are implanting embryos of the very original Reba cow that started this strong cow family for us. 372M is a heifer that is designed for fertility, longevity, and function. Favorable to the Al mating of the elite sire Red SSS High Mark 272D who we used selectively on powerful heifers backed by strong cow families. This combination of 372M and the old school 272D is one that has us excited to see the ROI for the new owner.

Ms Envious 19U this heifer's great grandmother was purchased in the 80s as a sucked down two-year heifer in Moose Creeks production sale where they had purchased her from East Fork ranch. When she came to Moose Jaw she did the nothing but propel our program forward. She was flushed numerous times where we sold several embryos, and she also started to build a sound uddered strong footed cow family. This heifer's grandmother was a beautiful cow as well she was shown numerous times as a two-year-old and three old with calf at foot. 282Y was flushed 5 times after calving averaging 20 embryos and always bred back on first service never ever left open until she was 12 when she got to crippled up to raise natural calf. We are using a maternal bother to this heifer in our program where he has weaned his second set of calves. The sire is the \$160,000 Red Cockburn Premium bull that has turned heads since he was born. This female is no accident she is bred to work. Maternal Sister sold at the Masterpiece Sale to Triple L Livestock for \$23,000 in October. 33N will be entered in Agribition.

CONSIGNED BY PIRO RED ANGUS

Meltes' are the foundation cows here at PIRO going back 30 years when we acquired our very first one from Hazel Bluff. All these females are made the same, big bone, massive ribbed, and very docile in nature. The type that raises the right kind to put your investment back in your pocket. Melte's dam 876F has raised a herd bull that has been breeding a group of heifers for the second year now, a bull we are extremely exited about with calving ease, growth and an incredible foot structure. The sire Design, the bull we bought from Allisons has been a forward moving breeding piece. A bull that has passed on his incredible foot structure, muscling and going by his dam's udder quality, we are excited to see our Design Breds calve this winter.

CONSIGNED BY RIVERSIDE ANGUS

Ultra feminine with a really flashy look. This heifer has been Roseanna's favorite all year long, there was a few long discussions on whether or not we'd be selling this female. 509N's granddam is in Six Mile's donor program. This heifer has a stacked pedigree with bulls like Reckoning 149A and Typhoon 604H. We are really excited to see what this female will get out and do, whether it's in the show ring or out in the pasture as a brood cow. Her sire, Rumble 74J, needs no introduction and we are very fortunate to have had him walking in our pastures for the last two years. We feel his daughters will leave a lasting impression on the industry.

CONSIGNED BY MAR MAC FARMS

If you want them dark cherry red, long bodied, functional with exciting genetics here she is. Mar Mac Farms has been breeding Red Angus cattle for 42 years. The herd is built around top cow families. Here is a female out of one of the first cow families, Ruby. Ruby sons and females were very sought after across Canada. Red Mar Mac Lincoln 106H is one of the breed's exciting sires and out of the productive Siera Cow family. Lincoln females are very sought after for their fertility and beautiful udders. In the 50th Red Roundup, we sold Red Mar Mac Ms Young 1K, a Lincoln daughter to Wilbar Cattle Co. Her first calf produced Red Wilbar Stranglehold 814M, who had a very successful show career as a calf, one of the high sellers and recently was Reserve Champion Bull at Olds Fall Fair. Ruby 74N is a female that has two of our best cow families all wrapped up in her pedigree. Genetics you can trust. Check her out!! Intermediate Heifer Calf Champion at Canadian Angus Gold show, Brandon

Dam **RED SSS GRANITE 74H RED TOWAW MONIQUE 401K RED TOWAW MONIQUE 407C**

Monique 402N is a very deep bodied, structurally correct female that is very feminine and eye appealing. She is very quiet and was easy to halter break. Her sire was our pick of the Highlight 624H sons in the 2024 Wilbar Bull Sale. He was actually a 3/4 brother to the Red Wilbar Beretta 859M bull that Scott Stock Farm purchased for \$225,000 this spring and a paternal brother to Hennesey. We unfortunately lost Foresight to injury this winter, so this will most likely be the only daughter to sell. The dam of this show heifer is a direct Red Triple S Granite daughter that is correct and good uddered. We purchased an exclusive semen package on Granite in the spring of 2021 and he did a great job at Towaw, siring an excellent group of females and the \$27,000 Red Towaw Blindside bull at Six Mile. 402N's granddam, Monique 407C, was a tank of a cow, extremely easy fleshing and deep bodied with excellent feet and udder structure. The Moniques have cut a wide swath at Red Roundup over the past number of years, maybe it is time to add this one to your herd. She is entered in Farmfair and would make an excellent junior prospect.

CONSIGNED BY **REDRICH FARMS**

Here is an absolute sweetheart that is soft made, deep ribbed, long spined and extremely attractive. The Firefly cow family has been consistent, very productive and is a definite cornerstone in our herd. The first set of Anthem calves are long bodied, stout, high performing and very impressive. We are truly excited to get some of his daughters in production. We are over the moon happy with a maternal sister to 160N and expect that she will do great things for you. Sire Verified.

CONSIGNED BY RAFTER SJ RANCH

RED RAFTER SJ SUPERIOR 4N is dark cherry red powerhouse of a heifer. She has everything right and is definitely a foundation brood cow female! SUPER's dam was a Red Round-Up girl herself in 2018. She is a big footed, big cow who consistently raises super correct calves. One was chosen in 2022 for this sale, and she now lives in Mexico... lucky girl! Her dam came with the nickname Darlin, and she sure is as well as being a front pasture cow and CAA "Premier" dam. Her maternal grand dam was designated CAA "Premier" in 2018. Her sire is the amazing RED SIX MILE MOSSY OAK 175H!! It took us awhile to get some in our tank, and we absolutely love every one of his daughters and sons we have gotten. SUPER's actual WW on September 11th was 840lbs.

CONSIGNED BY B ELLE RED ANGUS

Bayberry is a sweetheart right from her beautiful skull all the way back to her rear leg and foot. She represents the type that Revelation 215K progeny are stamped with. We couldn't be happier with his calves and others who used him would say the same. Stack that into a pedigree with the excellent Bayberry family from Wilbar. We purchased 144D through their 2017 sale and she has produced extremely well as she nears 10 now. Still looks great, excellent udder and foot. Check out Wilbar's pair they're showing from this cow family. Revelation progeny are the real deal. Give this heifer a long hard look when she gets to Olds. Time well spent.

length of spine, volume and excellent structure she excels with a lengthy pedigree of proven and productive matrons originally stemming from the noted Blackbird cow family. They display picture perfect udders and perform well regardless of matings. Dam is a Trooper daughter which is yet another favorable asset to the resume. Debbie 14N is an own daughter of Red Cockburn Elevate 65K who has produced outstanding progeny and is impressive with all the desirable traits we strive for. We are looking forward to his first daughters coming online. A pasture standout with visitors on summer tours, she holds a lot of promise and potential for discerning breeders.

CONSIGNED BY LAURON RED ANGUS

Another standout representative of the Missy cow family at Lauron. Missy 30N is a moderate build, wedge shaped and loaded with hair. Some notable herdbulls on the topside of this pedigree including Slowburn 102H and Coming In Hot 24E. A daughter of our walking herdbull Elevate who has excelled in every departmentcalving ease, growth, foot quality and maternal traits. Elevate has seen heavy use at our place and works on just about everything. 30N's dam is an up and coming, highly productive Mack 4F daughter and goes back to a long line of CAA Elite cows such as Missy 68R. We think this heifer has very high potential and would be a good addition to any breeding program.

CONSIGNED BY MCGOWAN FARMS

Mrs Young is a standout heifer sired by a newer powerhouse sire, Berwald Confident that is known for his excellent confirmation and strong genetic background. Mrs Young combines her sire's exceptional muscle structure and calving ease with highly productive maternal lineage. Her pedigree offers the perfect balance of modern genetics and proven performance. A promising addition to any herd.

PLC 135N comes out of a female we purchased from Ariam Farms. We have appreciated this calf since she hit the ground and we were not surprised when she was selected for the sale. We appreciate her for her style and presence, she is definitely one to stop and take a look at. The sire we purchased from the good folks at Excel Ranches. He is a Red RReds Copper son that is dark cherry red out of one of their best cow families, the Leah's from Glesbar. Maternal strength here at its best.

CONSIGNED BY EXCEL RANCHES

Lakima 526N is the natural calf of our first homeraised donor cow XLR 705E. 526N would be much harder to part with if we didn't have two full ET sisters kept back here on the ranch. When Mark toured the herd, this was the one he picked and it's hard to say no when Mark circles one. She is the kind of balanced breeding piece we work to make more of - plenty of capacity, a clean and tidy front end, and loads of natural muscle. Her structure is excellent, a great foot, correct build, and an easy, effortless movement, all backed by a great temperament. Her dam 705E, is a real matriarch here and has been our top female for the last eight years, posting a 105 weaning index and 108 yearling index across all her progeny. 705E consistently adds strong real-world growth and is one we're very proud of. We are fired up about this Fortress mating, a cross built to lock in foot quality, extra shape and style. This one has the look.

CONSIGNED BY WRIGHT LIVESTOCK

Red Wrights Queen City 506N is a standout female that combines style, length, and depth with the structural integrity to back it up. Sired by the influential Red Eye Hill Slowburn 57K, a bull quickly making his mark on the Red Angus breed, Queen City carries the genetics and presence to turn heads. Her dam, a calm and productive three-year-old, was a highlight purchase from the CD Land & Cattle Dispersal Sale last fall, and 506N has more than lived up to expectations. This heifer is beautifully designed on the move, with an excellent foot, ideal rear leg structure, and a kind, easy-tohandle temperament. Queen City 506N is the kind that could shine in the show ring and then go on to become a cornerstone female in any breeding program.

Lexi 4N combines power, length of spine and femininity all in an eye-catching package with a definite breeding look about her. Lexi is the first daughter to sell out of Shocker 266K, our herd sire purchased from Eric & Louise Falk in 2024 and the first daughter to sell from our foundation HOTV Lexi cow family. AND our first ever consignment the Red Round-Up! Junior and 4H members take a serious look at the attractive profile of this top breeding piece today, combining bred in genetic productivity power for tomorrow.

CONSIGNED BY IRON SIGHT RANCHING LTD.

This heifer calf won us over the second she hit the ground. ISR 136N is extremely feminine with a clean front end and lots of eye appeal. Her dam ISR 108K is a strong, deep female with a good udder - her great grandsire being the famous RED MANN RED BOX 55C. Paired with BAJC 14L (who goes back to SAV RESOURCE 1441), this cross did not disappoint. Along with her good looks this calf is as quiet natured as they come. Take her home, show her and add her to your herd!

CONSIGNED BY KC CATTLE & CONSULTING LTD.

Robyn 25N is the latest and greatest addition to our Robyn cow family, embodying all of our breeding goals at KC Cattle Co.: Calving ease, growth, and longevity. The Robyn family has been gaining traction in our herd in recent years, due to RED PALMER ROBYN 73F bringing exceptional calving ease into the line, while maintaining a 106 weaning weight ratio average on her calves, and her daughter RED PALMER ROBYN 4H, producing some of our best heifers each year. 25N's improved growth, straight topline, depth and dark red coat are thanks to her Sire, RED B-ELLE LAREDO 333L, who has produced an incredible first calf crop of large, early maturing calves. RED PALMER ROBYN 25N is a fantastic, stress-free-calving heifer who is sure to produce high-quality calves for years to come.

Our "Shiloh" was born and raised as part of an Olds College Red Angus student led club. This heifer represents the hands-on education and attention to detail that define the program. A structurally correct heifer, with strong feet and legs, backed by EPDs that support longevity and a functional udder. Sired by RED SHILOH JAMMER 12J of the well-known Kassie cow family, noted for the excellent combination of depth and spring of rib. She was born and raised at Olds College, where she developed her docile nature, making her an excellent addition to any herd.

CONSIGNED BY SCOTT STOCK FARM LTD./WILBAR CATTLE CO.

Beretta is the \$225,000 Canadian record setting Red Angus bull that has caught the attention of the world. He has been noted by many in the cattle industry as the highest quality Red Angus bull available on the market today. Beretta literally covers all the bases: from his exceptional foot quality to top performance and elite maternal backing. Both his sire and dam sport as high a quality foot as you could design with ample heel and ideal toe shape. With so much thickness down his top and a massive hip & hind quarter, it's impressive to watch him move out with such ease and fluidity. His impressive 113 weaning index makes Beretta the bull that can take you to the next level of performance. Beretta really does have it all: premium cow family, huge body & rib shape, phenomenal haircoat, and travels like a cat. Make Beretta your go-to for embryo transfers or for breeding the very top cow in your herd. Be early in to use this sire that is sure to be the talk of the industry once again when his calves start hitting the ground!

CONSIGNED BY WILBAR CATTLE CO./GURNEY LAND & LIVESTOCK/MOVIN' ON FARMS

Stranglehold captured the attention of the Red Angus world last fall after going undefeated in his age division at all the major shows. When the dust settled, he captured Reserve Show Bull of the Year, second only to his World Champion sire Hennessy. Stranglehold sold this past spring for a commanding \$75,000 as the featured lot 1 in the Wilbar bull sale to the progressive breeders at Gurney Land and Livestock and Movin on Farms. He is incredibly big hipped and blends it together with base width, top and a big soft middle. He stands of a perfect dark foot and gets around with ease. For as much shape and muscle Stranglehold has, he does so with a very modest birth weight of 76 lbs. His dam is a gorgeous uddered, dark cherry red first calf heifer. Here's your chance to incorporate a next generation type sire that offers a balanced approach to performance and calving ease. Come see him at Farmfair & Agribition.

Here is an opportunity on a highly sought after bull this spring, Red Piro Damascus 471M. We were fortunate to obtain him for \$40,000 from Piro Red Angus at their first Annual Bull Sale. Damascus combines the perfect balance of performance and calving ease all while backed by an exceptional cow with maternal qualities that every breeder strives for. His sire, Red Allison Elysium 80J has sired multiple high selling sons and left behind a tremendous set of females. You'll be hard pressed to find a darker hided Red Angus bull with the kind of capacity and foot structure as Damascus. Big, soft made, tons of rib shape, and a puppy dog dispositionbuy with confidence as this sire will truly be a compliment to your herd!

We were very happy to bring Annie Oakley home from Missouri this past year to live out her final days. That allowed us to finally mate her to Good Time Charlie which we think will be a home run. Good Time Charlie adds extra shape and attractiveness to his progeny. Annie Oakley stamps her progeny with added muscle shape, fleshing ability, and exceptional dark red hair coat. We feel the resulting progeny, male or female, could instantly move any program to the forefront of the industry.

CANADIAN RED ANGUS PROMOTION SOCIETY FUNDRAISING AUCTION

OPENS 9:00AM FRIDAY. DECEMBER 5

FINISH 9:00PM SATURDAY.DECEMBER 6 CANADIAN RED ANGUS PROMOTION

The beef cattle industry remains strong, with Red Angus cattle excelling in both show and sale rings, gaining attention in purebred and commercial markets. The Canadian Red Angus Promotion Society was founded in 1972, four years after the Red Angus hide was officially added to the Herdbook and has been promoting the breed across Canada ever since. We are seeing a growing interest in the breed. Our goal is to promote the breed and its qualities to both breeders and potential new customers, whether they are involved in purebred or commercial markets across Canada. Our organization advocates for the Red Angus breed in matters with the Canadian Angus Association. CRAPS continues to engage with returning members and actively works to attract new members to the organization. Our efforts are supported by our members and fundraising initiatives.

HIGHLIGHTS OF OUR PROMOTIONS:

- Updated website at redangus.ca
- Donation Heifer fundraiser
- Red Round-Up annual sale event
- Junior Red Angus Fall Classic show
- Annual Junior bursaries two at \$1000 each
- Sponsorship of various regional events
- Production of Red Angus promotion video Facebook follow Canadian Red Angus Promotion Society
- Canadian Red Angus Junior Regional Show Female of the Year
- Promotion ad provided to members for use in their bull sale marketing
- Redesigned logo

ITEMS UP FOR AUCTION INCLUDE

- Agricultural equipment and supplies
- Red Angus genetics and breeding services
- Gift certificates and experiences
- Unique and handcrafted items
- Donation items will be accepted up until auction starts

Your support will make a significant difference in our efforts to promote the Red Angus breed. We appreciate your support as we do our best to enhance our programs to promote this outstanding breed of cattle.

DRI JUNIOR RED ANGUS DECEMBER CLASSIC 2025

RULES AND REGULATIONS

- Junior exhibitors should be able to show a well-trained animal on their own with no assistance.
- The DRI Red Angus December Classic 2025 will include two divisions:

HERD BUILDER

- Exhibitors must be between the ages of 9 and 21 as of show day, December 6, 2025.
- Consignors will nominate, at no cost, their sale lots to be shown in the Herd Builder division.
 - Junior exhibitors will pay a \$50 entry fee and a random draw will take place to determine which Junior exhibits which lot.
 - Cash Prize Money will be split 50/50 between the Junior exhibiting the female and the consignor of the female.
 - Exhibitor opportunities will be on a first come basis. You will be officially signed up once your \$50 entry fee has been received by CRAPS. Please e-transfer fees to canadianredanguspromosociety@gmail.com.
 - Since these are sale cattle, we are open to help from other juniors should the female be too much to handle for the junior that is randomly drawn for it.
- Qualifying females and any progeny must be registered with the Canadian Angus Association.
- Only red females will be eligible for the show.
- The classes will be judged by a panel of Red Angus enthusiasts.

CLASSES

Herd Builder - heifer calf Herd Builder - yearling heifer

PRIZE OFFERING

There will be three \$1,000 Red Round-Up Sale credits drawn from the juniors participating in the DRI Red Angus December Classic 2025 show. Credits are to be used in the 2025 Red Round-Up sale or, if not successful, in the 2026 sale.

LEGACY CLASS- NEW IN 2024

This class the animal had to be owned by the Junior member and generational animals should carry the Junior's tattoo letters. The original female needed to be purchased in the Red Roundup sale or be a resulting progeny or grand progeny of a Roundup purchase. It was exciting for the first year to see 10 entries in this division. It was judged by a five-person team from across Canada.

Grand Champion - Red Redline Rosalie 71J with calf at side Red Pas Rosalie 71M Heidi Pas

Reserve Champion - Red Airam Diamond Mist 23J with calf at side Red Airam Eminence 37M Maria Taschuk

Winner of a \$1000 sale credit drawn from Legacy class show entries: Tate Pool. Tate's win went towards purchasing Lot 22 in the Sale.

The Canadian Red Angus Promotion Society Annual Student Award was two \$ 1000. Awards presented to Red Angus Juniors furthering their careers.

2024 Winners Maria Taschuk, Two Hills Alberta and Shelby Scott, Crossfield Alberta.

CANADIAN JUNIOR RED ANGUSFirst Annual Regional Show Female of the Year

New in 2024, The Canadian Red Angus Promotional Society invited Junior Red Angus members from across Canada that are showing Canadian Registered Red Angus Females to apply for the program. CRAPS set up 3 Regions within Canada and awarded Jackets to the winner in each region. In order to qualify Juniors could accumulate points at 4-H shows at any level, jackpot shows, Regional Junior and Angus shows. Points were awarded for participation and Champions.

In addition, the 32 participants were entered in a draw for a \$ 1500. Sale credit at Red Roundup October 12, 2024. The winner was Lexie Dietrich of the \$ 1500. And she purchased a female at the 2024 Red Roundup with the help of these funds.

REGION 1 British Columbia and Manitoba - Heart of the Valley Angus, BC donated the Jacket to WINNER Swayzie Bootsman, Rapid City Manitoba with her heifer Red JJL Mati 9L. Swayzie is a young Red Angus producer just getting started in the business.

REGION 2 Alberta and Saskatchewan - Towaw Cattle Co., AB donated the Jacket to

WINNER Heidi Pas, Mayerthorpe, Alberta on Red Redline Rosalie 71J and calf at side. Heidi had purchased her female out of Red Roundup Sale and along with winning Show Female of the Year she also won Grand Champion Owned and the Legacy Class at Red Roundup. It is great to see the Roundup cattle out working in the industry.

REGION 3 Ontario east to Maritimes - Mar Mac Farms, MB donated the Jacket to WINNER Corbin Reid, Moorefield, Ontario on Red Covey Hill Lauryn 5L. Corbin is expanding his Red Angus herd.

REGION 2 WINNER HEIDI PAS

REGION 3 WINNER CORBIN REID

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

BIDS

Each animal will be sold to the highest bidder. In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK

Each animal becomes the risk of the purchaser as soon as sold. Insurance is available sale day.

ANNOUNCEMENTS

Announcements from the auction block will take precedence over printed matter in the catalogue.

CERTIFICATE OF REGISTRY

Each animal will carry papers issued by the Canadian Angus Association unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

SHIPPING

Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold. We as a group will work together to make sure your new purchase gets to your destination.

GUARANTEE

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

ACCIDENTS

Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sale Management, auctioneer, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.
