Embryos Sell

Sale opens Dec 2nd at 7pm | Closes Dec 3rd at 7pm

WELCOME

It is with great pride and passion that we welcome you to the inaugural Proven Roots Embryo Sale. This sale is more than just an offering—it is a celebration of our deep commitment to the Angus breed and the cow families that have stood the test of time.

The Angus breed has long been admired for its maternal strength, fertility, efficiency, and the ability to produce cattle that excel in both the pasture and on the plate. At Wauter Valley Ranch, we have built our program on these enduring qualities, carefully selecting and multiplying genetics that we believe represent the very best of what Angus cattle have to offer.

The name Proven Roots reflects both the foundation of our herd and the legacy of Angus cattle themselves: generations of proven performance, consistency, and Maternal strength. With every mating in this sale, we are offering more than embryos—we are offering a chance to invest in genetics that will shape herds and strengthen the Angus breed for years to come.

We thank you for joining us in this first chapter of Proven Roots. With passion for the Angus breed and confidence in the power of great cow families, we are proud to share these genetics with you.

— Wauter Valley Ranch

TERMS AND CONDITIONS

HOW TO ACQUIRE YOUR EMBRYO PURCHASES:

-After you, the buyer have completed payment, the embryos will be able to be released to the buyers name by Wauter Valley Ranch at the storage or embryo facility that the purchased lot is located.

-It is complete responsibility of the BUYER to call the SELLER and request shipping, or call the storage facility and extend storage under your own name.

-It is complete responsibility of SELLER to release embryos to the buyers name once full payment has been confirmed, and to arrange this understanding with the storage facility.

-The BUYER is responsible for all shipping costs and/or Insurance- on embryos and semen

GUARANTEE OF EMBRYO PURCHASES:

Wauter Valley Ranch Guarantees that each embryo package consists of quality grade one embryos either IVF or conventional. Each embryo has been produced at a reputable facility, and we are confident in the quality of product we are offering.

SPECIAL GUARANTEE:

Wauter Valley Ranch will guarantee the establishment of at least one 60 day pregnancy per 3 Embryos Transferred if the following conditions are met. This guarantee does not change for the additional 2 embryos offered in the 3 or 5 selection option.

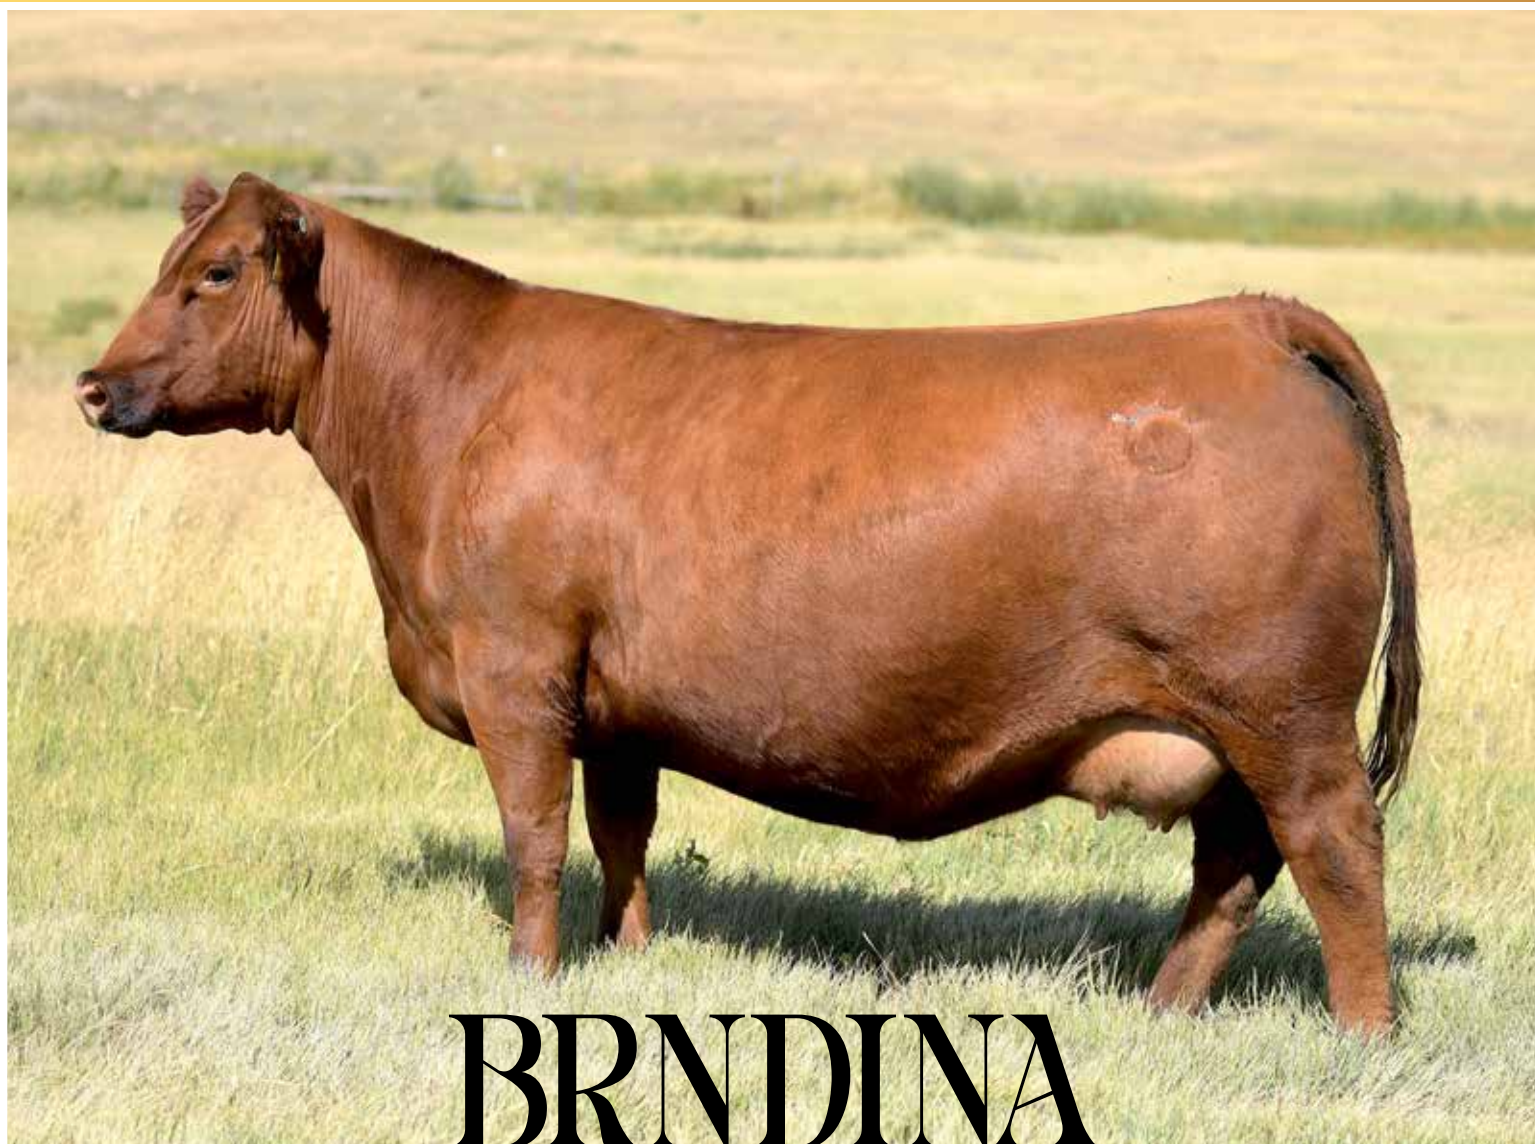

A: Transfers must take place within a year of the date of the sale.

B: Transfers are performed by a licensed embryologist

C: Transfers must be practiced on recipients of 3 years of age and over to request return on failure of embryo pregnancies.

D: Buyers of the embryo packages that fail to establish at least one pregnancy will be given a credit for future sales, or additional embryos from the same mating from the seller or a different embryo or mating if agreed upon by the buyer and seller.

RED BWA BRNDINA 15X
 RED BWA BRNDINA 1T

Purchased for half interest at \$50,000 in partnership with W Sunrise Angus, Brndina 26E has quickly risen to the top as royalty among Red Angus females. Her influence is already proven, with her son Red W Sunrise Charlie 409L selling for \$80,000 to Shaggy Meadows of South Dakota in 2024. Dark red in color, she combines flawless feet and legs, an ideal udder, and unmatched angular appeal with the fertility and productivity required of a true donor. Brndina 26E balances power, femininity, and function in a way few cows can—and is destined to rewrite the achievements of females within the Red Angus breed. We went the distance to bring some of the most elite and untouchable sires within the breed to create embryos that will leave a lasting impact on whomever chooses to invest in this elite genetic offering by Moose Creek Brndina 26E.

BAR-H CROSSFIRE 63A
BAR-H TIBBIE 31C
BAR-H HOPE 1A

Bar H Tibbie 129F is a truly irreplaceable female to our own program as well as the breed. We believe that Tibbie will not only drastically influence our Red Angus program but will also be the future foundation for our Black Angus herd. Her sire Bar H Mindbender 141D has 331 total registered progeny with 170 of those registrations being Females; a true testament to what this sire has achieved. We believe 129F is amongst the elites of those 170 females registered regardless of if you analyze her in person or on paper. 129F is Double Bred HF Tibbie 93U; a foundational female and premier dam for the Hogberg family of Langenburg Saskatchewan. Tibbie 93U is not only the dam of Bar H Mindbender 141D but also the direct dam of Bar H Crossfire 63A who has influenced and propelled the Six Mile Ranch Black Angus program into what it is today. 129F possesses power in the blood and is abundant in phenotypical quality. She maintains the ideal Angus characteristics we all search for while taking body mass, length of spine and foot quality to the next level. The daughters she has left us in one year of progeny are second to none and her U2 Coalition son we will market this fall of 2025 will be one that angus enthusiasts won't forget about anytime soon! These matings are Astute, predictable and will impact any purchasers program.

RED MEM HOLLY 36J
 RED HOLLY 3059

At 16 years of age, Holly 29Y continues to exemplify longevity, structure, and maternal quality. This dark red matron stands on an elite set of feet and displays the angular, open skeletal design that defines ideal Angus character. With 26 registered progeny to her name, her influence runs deep. Her daughters are rising quickly within the WVR program—already ruling the roost among the young females and poised to take their mother's place in the donor pen before long. A foundation female whose legacy is only gaining momentum. We went the distance in carefully lining up matings that complement the proven strengths of 29Y, pairing her with sires that match her balance, fertility, and maternal excellence. The resulting embryos promise to carry forward her stamp of quality, and we look forward with confidence to the future success that will emerge from these thoughtfully designed combinations.

We purchased Blairs Madame Pride 737G from the Opportunity Knocks 3.0 Sale at Blairs.Ag in 2022 — and couldn't be happier. Backed by the powerhouse SAV Madame Pride 0151X, dam of SAV Renovation 6822, 737G carries undeniable maternal strength. She impresses with her length of spine, tidy Angus head, and exceptional, vascular udder — combining capacity with ideal structure, suspension, and teat placement. For Red Angus breeders seeking outcross genetics, this is a female built to make an impact. Her sire, Ringstead Kargo 215U, is a proven breed leader for producing marketable, influential progeny. A full sister sold in Blair.Ag's 2023 sale for \$20,000 to Duff Cattle Co. Power Plus.
