TO LEAD THE INDUSTRY WITH RED ANGUS GENETICS.

TWO PEOPLE AND A LIFELONG PARTNERSHIP

GLENN AND DONNA - WHERE GRIT MET GRACE AND A LEGACY TOOK SHAPE.

THREE GENERATIONS

PRACTICAL ALIGNMENT, RIGOROUS CULLING, AND RELENTLESS IMPROVEMENT.

FOUR GUIDING VALUES

INTEGRITY. COMMITMENT. DISCIPLINE. DEDICATION.

FIVE DECADES OF

PARTNERSHIPS, FRIENDSHIPS, AND CUSTOMERS WHO SHAPED OUR PROGRAM.

Moose Creek

— R E D A N G U S —

Welcome to the Moose Creek Red Angus Ltd. Complete and total dispersal sale. That line is the hardest and most emotional sentence I've ever had to write.

First things first; we'd like to clear the air about our future. As entertaining as the rumour mill has been, this is indeed a complete dispersal with all saleable animals selling and absolutely no cattle or embryos retained. We will not be bidding on or buying any of the cattle in the sale for ourselves either.

Many people have stated that they tune into our annual bull sale to hear the opening speech or to laugh and shake their heads at the "colourful" commentary. I'm sad to say that this opening will be my only speech. The thought of selling what was once a dream of a hard working cowman, has me swallowing hard most days. The immense pride Raymond would have felt seeing his vision fall under the gavel gives me comfort for the huge task that it was to assemble this offering and prepare for this sale.

With aging parents, a young family and a non-farming sibling, the decision to disperse was inevitable. My Grandfather never got to enjoy his final sale, I wanted my parents to experience theirs. We never set out to sell in December of 2025, it just happened to align with many of the factors we said would initiate our decision. On October 4th, my parents, Glenn and Donna happily celebrated their 50th Wedding Anniversary. That is a significant milestone for plenty of reasons: obviously, 50 years of marriage is an amazing feat. You must stay healthy, be committed and devoted to your partner and supportive through good times and bad. That mirrors their commitment to their Red Angus herd. Raymond may have had the vision to start the herd, but the engine that kept it running for over 50 years was Glenn and Donna. Just the fact that they survived droughts, floods, fire, hail, 22% interest, grasshoppers, BSE, teenage children and cancer, there was no doubt that they deserved a couple days to celebrate a lifelong accomplishment.

The moment that it all sunk in, when it got real, was during an interview this summer. The question was simple, "What has the Red Angus cow given you?" I couldn't believe that that short, straight forward question could conjure up so many emotions. It took me more than a moment to compose myself. "What has she given to us, I thought"; almost instantly my mind raced through millions of snapshots in time. People we have met, places we've gone, opportunities granted because some cow was the catalyst to those. Shelter and clothes, a sense of accomplishment and pride, defeat and heartbreak, joy and sorrow, wealth, hard work, duty, love, family, education, growth and a multitude of other emotions. From extremely humble beginnings to what is present here today and the opportunities granted to myself, my children and future generations – *that Red Cow has given us everything.*

Our customers are the heart and conscience of our operation. Many spanning multiple decades and generations, they have supported us throughout. We've been blessed to call them friends and mentors, celebrated with them, mourned alongside them and sought their wisdom. It's the relationships that we'll miss the most. They've trusted us with providing genetics and service that they can trust, succeed and profit with. It's the greatest complement our family has ever received. Even though many have endorsed the Dispersal, we can't help but feel we are abandoning them. That will be the hardest emotion to shake.

It is well documented where our herd started from and what the inventory consists of. However, many are truly in awe as they tour it to realize its identity. It's not a single cow or a prominent cow family; it's a system of discipline and structure. The herd has a type – a design that makes the cows function as a complete unit. The body type, udder quality, foot structure, hair, ease of fleshing and efficiency makes it perform. Collectively, they must generate cash flow and build wealth. Those are numbers that cannot be measured with genomics. We consistently retained cows into their teens as the value of their genetics and proof of their offspring badly outweighed the hope and unknown of a 1st calf heifer. We scoured the continent to find herds and bull batteries that would complement our identity. As stated prior, when the cowherd puts groceries on the table, you can't make a mistake.

As I try to summarize a lifetime of work, I reflect on my own journey. The industry recognizes me as the face of Moose Creek, but my family have given me the chance to be that. It was always my childhood dream to be a Purebred Breeder. When Raymond became ill in the mid 90's, I got to take the cattle on the road to the shows and sales. With that responsibility also came freedoms to grow and make mistakes. For many of my mentors, I grew up in front of you. It was an amazing period of my life and one I hope that my children can experience too. If any of the kids decide they want to be registered breeders, I'd be a hypocrite to not support them 100%. I was fortunate to have my dream of becoming a prominent breeder come true. My other dream was being a father. That's what I hope I can be even more successful at now.

Thank you for your interest, your kind words and we hope that your travel plans include a tour of the herd, sale days or any time prior. We'd love to host you and show you some hospitality.

- Darren Ippolito

REFLECTING ON FIFTY YEARS OF RED ANGUS

By Tara Mulhern Davidson

For the past fifty years, Glenn and Donna Ippolito have shared a life rooted in family, hard work, community, and producing Red Angus cattle on their farm near Kisbey, Saskatchewan.

While Glenn and Donna raised a family, which today includes three generations of Ippolitos working together on their farm, they also built a large elite Red Angus herd. This all came, however, from humble beginnings.

Starting out as a young married couple in their community, Glenn recalls that nobody had much, but at least you could rely on each other. "We were all in the same boat, just trying to get ahead," says Donna. "We were all growing, all had young families," says Glenn. "Big issues, little issues, you needed a support group," says Donna, of their friends and neighbours. They valued a strong connection to their land and community. Since 1972, the Red Angus breed has played a pivotal role in their lives.

RED ANGUS EVOLUTION

For fifty-three years, the Ippolito family and Moose Creek Red Angus have been a mainstay of the Red Angus breed. Early on, Glenn and Donna, and Glenn's parents Raymond and Betsy, were part of a movement that saw the Red Angus breed shift from being a novelty in the early 1970's to a prolific breed within the Canadian cattle industry.

In the early days, fellow Red Angus breeders shared ideas and mentored one another. "We had some good people at the beginning who gave us a hand up, like Joe Willmott, and we all learned from one another," says Donna.

Word of mouth was an important marketing strategy when they first established. Moose Creek started hosting an open house in part to create awareness and share benefits of Red Angus cattle. "For a whole week, people came and went," recalls Glenn. "My mother made donuts for a week," he chuckles.

Over time, the Ippolito family built their customer base, and cattle producers came to realize that Red Angus was a versatile breed that easily complemented commercial herds as well as other breeds entering the Canadian marketplace from Europe. "With red-hided cattle, there's almost nothing you can't breed with them," says Donna, who adds that their calving ease increased the breed's appeal.

They also held commercial female sales in the fall. "In twelve years, we sold well over 1000 head of bred heifers, all bred Red Angus," says Glenn. They brought the bulls to town to display alongside the heifers so customers could see what they were bred to.

From the early open house concept, they moved toward public auction, first co-hosting bull sales with other breeders. Eventually, they decided to host an on-farm bull sale.

"We started out in the beginning happy to market ten bulls a year, and we've been marketing 150 a year now," says Glenn.

Moose Creek Red Angus was at the forefront of many inaugural Red Angus events, showing at the first National Red Angus Show at the Lloydminster Stockade Round-up, helping establish the Red Angus show at Agribition, and founding the Red Power Bull Test in Manitoba.

For decades, they successfully exhibited their cattle at the Manitoba Ag-Ex, Farmfair International and Canadian Western Agribition, the 2009 World Angus Forum at Spruce Meadows, and beyond.

A FAMILY APPROACH

Anyone who works with family will agree that it comes with benefits and challenges, but Glenn and Donna are quick to credit all of the generations that have played a role.

"My parents were my partners," says Glenn.

"Glenn's father started this, and it's been our life's work," says Donna. "Glenn and his father were very determined about what it was they wanted to produce for a cow herd," she says.

Darren and his family continued the tradition to progress their genetics. "Father's do not give up easy," acknowledges Glenn, adding that Darren has taken the herd to the next level.

Glenn and Donna are deeply proud of their children, Candace and Darren, who grew up to be involved in many ways on their busy farm. They were active in 4H, showed in many junior

livestock shows, and supported the Saskatchewan Junior Angus Association, including Candace's role as the first secretary of the initial Saskatchewan Junior Angus Association.

Candace earned her degree in Agriculture at the University of Saskatchewan, and, among many ventures, has proven herself to be a successful, strategic entrepreneur.

Following Olds College, Darren came back to the ranch full-time. Today, Darren and his partner Kylie are raising Kord, Henrietta, and Ray-Lynn, who represent the fifth generation of their family to farm, and the fourth generation of Red Angus breeders.

TOUGH TIMES BUILD RESILIENCE

Just like their customers, Glenn and Donna have had to persevere through many challenges. Over the decades, Glenn and Donna experienced floods, droughts, high interest rates, health concerns, and the loss of Glenn's parents. They also spent years finding the good staff that they are fortunate to have on their farm today.

Shortly after Darren returned to the farm, BSE hit, prompting the family to have some hard conversations and make tough decisions to stay relevant in the beef business. "I guess he's as stubborn as we are," says Donna, because the family doubled down with ambitious strategies.

"We didn't back off a great amount during BSE, because that's when we started custom backgrounding," explains Glenn, adding that they actually expanded their cow herd during that time. "We had lots of feed, and we always had lots of pasture, but it just meant that during haying time, you'd get up in the morning and you'd feed your pens of cattle, you'd unhook your feeding machinery, you went and you hayed all day, you would come home at night, unhook the haying machinery, and you'd feed your cow herd," says Glenn.

"The cows came first, and they did. They paid for everything," he says. "We always kind of joked about the cows, you help us, we'll help you," adds Donna.

They have watched many fellow breeders and cattlemen exit the industry, but have also seen a progressive shift in the mindset of their current customers. Glenn says he used to drive into yards where they had an 80-head or 100-head cow herd. "Now we're driving into 2,200 or 2,400 head cow herds. It impresses me that those people have survived," he says.

"We've found satisfaction from our customers knowing that our genetics helped them grow and keep growing, and that we were a piece of that," says Donna.

*"Red Angus cows gave us our life.
They've given us everything."*

CREATING A LEGACY

From the beginning, the Ippolito family's commitment to customer service has been at the forefront of their breeding program. They take their customers seriously.

"The cattle industry was tough, it was hard to make a dollar at it, and customers are willing to give you their profit, so you want to give them something back," says Glenn.

"We would learn what it is buyers liked and didn't like, what they wanted, what they didn't want," says Donna. "It was powerful stuff to take back and then say, okay, we need to do this better. It takes years to build their trust," she adds.

Glenn emphasizes that the importance of raising purebred cattle starts with a commercial man's mentality. "I was never born a purebred breeder; we ourselves started as commercial breeders, and our customers relate to that."

"You stand behind your product, whether it's commercial or purebred, and you stand behind your customer; you help him," says Glenn. "If he doesn't succeed, you don't succeed." When you're in business for the long haul, a multi-generational customer base evolves.

"We are so proud we have generations of customers and families, we feel we've done something right," reflects Donna. "Those customers are genuinely happy for a long, long time."

"Donna and I got the job of delivering some of the bulls this past year, and she and I were back going up the same roads," explains Glenn. "The one place we pulled into, it ended up being 34 years since I've been there."

THE NEXT CHAPTER

Glenn and Donna have seen their farm grow from a herd of just 30 cows in the early 1970s to over 800 females at their recent peak.

Glenn and Donna say they're proud of the program that Darren, Kylie, and they have built, and the herd is in a good place. The decision to disperse the Moose Creek Red Angus herd was not easy, but it was mindful.

After fifty years of marriage, they are both grateful for a life focused on raising a family and good quality cattle and also recognize the sacrifices that came with it. Now, they look forward to a future with a little less stress and more time with their family.

"What do I want people to think of when they think of Moose Creek Red Angus?" asks Glenn. "Honesty. Integrity. That we stand behind our product," he says. "Ask the hard questions, we will answer them," adds Donna.

"Red Angus cows gave us our life. They've given us everything."

It all started with a simple phone call in the fall of 2006. I had talked to Darren about the possibility of acquiring some land in Saskatchewan to accommodate some of our breeding females. He notified me that there was an excellent opportunity just east of Kisbey and if we purchased it he would be willing to manage our girls. It continued with a flight to Agribition..... a truck ride to the Ippolito yard south of Kisbey.....a handshake..... and 60 bred cows in the Ippolito yard by Christmas!

It was the beginning of an amazing business venture and personal relationship that is now in its 19th year. I can't imagine a better family to work with on a share basis than the entire Ippolito family. I have gained a great appreciation for the different skill set every family member brings to the table.

They have shared their expertise, their perseverance and their genetics resulting in the amazing stock that walk the Moose Creek pastures today. Their adherence to a strict breeding program has resulted in sound dependable females and bulls that go work and get the job done. Cattle buyers at this historic dispersal sale can buy with confidence backed by 50 years of no- nonsense breeding decisions.

The number of return customers at the annual bull sales is a testament to the quality of the Moose Creek prefix. Cattlemen from across Canada have demonstrated their confidence, returning year after year for their breeding bull needs.

A bunch of red cows brought our two families together 19 years ago but it is the true friendship that will last forever. We have shared the ups and downs of the cattle business, the ups and downs of the Leafs, the Oilers and the Jays and the challenges and joys of everyday life. These conversations were always enjoyed with Donna's wonderful coffee and sometimes something a little bit stronger!

Please mark your calendars for Dec 22 and 23 to come and enjoy this historic dispersal.
Scott Graham

T BAR C CATTLE CO.

One of the most historic events in the Canadian cattle industry will take place right before Christmas south of Kisbey, Sask. The sheer volume of this event is an attraction, but the legacy and foundation of this herd is something that rarely comes along.

The Ippolito family have earned their way because of the red cow. Everything they have done in life, whether buying groceries or a new tractor has been caused by these cows generating profit. Behind every great cowherd is a bull sale that is a pillar to the family's income, reputation and progression.

The close involvement for years on end visiting and appreciating bull buyers' success and opinions on where the product of Moose Creek needs to be has made this cowherd what it is. Darren and his family have seen the challenges of adversity in their own lives, yet always willing to have time for any producer and keeping customers of his extremely close, while being a talented cattleman himself. We've never been to a Moose Creek function where Candace isn't there, and in an important role. A voice certainly heard by many, her involvement around the farm and maintaining relationships with bull buyers is a warm welcome where you know every detail is covered. Of course, mainstay parents Glenn and Donna are always on the job. Even this past summer getting ready for this large event, they are still putting in countless hours; to what they started early in life working together building a legacy with their children.

To talk about the cattle, I don't think we may ever see this many cattle that look the same. The Ippolito's have bred for consistency with fundamentals that are critical. On this summer's tour while these cattle were on grass, you couldn't help but constantly be making the same notes... nice udder, big barrelled, awesome feet and "give a look" comments. A real feature to this event is the services these cattle carry. The Ippolito's have never shied away from purchasing herd bulls as one of their main "must do" over all these years. But more importantly, over all the years of breeding Red Angus cattle the females have always been retained. Extremely rare to ever see a Moose Creek female in a sale or anywhere else as the top of each contemporary group has been held back in the herd to always progress the herd to be the best it can. Always thinking of making the bull sale have the best quality it can, with the best females generating them.

To conclude, all of us are very excited about this large sale that will be a monumental event in the cattle sector. On another hand, sadden as we have always loved the annual production sales here at the ranch. But just think of the opportunities in volume that come your way in this event and in this market. Never have we seen this volume in this quality with paperwork on the cutting edge of pedigreed stock in Canada.

To the Ippolito family, congrats on such an achievement in life, work and friends. All of us at T Bar have been through the cows so please don't hesitate to contact us to do business with this legendary outfit.

See you there, Ben Wright

BOHRSON MARKETING

After more than half a century of breeding the kind of Red Angus cattle that make your heart beat a little faster and your pastures look a whole lot better, the Ippolito family is opening the gates one last time — and this time, they're all for sale.

For over 50 years, the Ippolitos have poured their passion, grit, and good humor into building one of the most trusted and admired Red Angus programs in the country. Some things never change, and Moose Creek is still the kind of place where a handshake seals the deal and coffee is poured long before daylight chores begin. Moose Creek Red Angus has always stood for integrity, consistency, and cattle that flat-out work. Their unwavering commitment to quality and honest relationships has shaped Moose Creek into one of the most respected and reliable programs in the industry. Anyone who's ever toured their pastures knows the cattle are impressive — but the family behind them is the true foundation.

This isn't just another sale. It's a celebration of everything the Ippolitos have built: decades of breeding decisions, generations of genetics, and a whole lot of early mornings and late nights. It's also your chance to add functional, proven Red Angus genetics to your operation — the kind that have stood the test of time, the market, and more than a few tough Prairie winters. These cattle weren't built overnight; they're the product of thoughtful selection, real-world performance, and a deep respect for the Red Angus cow.

Expect quality. Expect stories. Expect a few laughs. Because if there's one thing the Ippolitos have learned after 50 years, it's that while good cows make a living — great people make a life. Moose Creek was built by three generations of characters: Raymond and Betsy, Glenn and Donna, Darren and Kylie and their kids, and of course, Auntie Candy. With this family, you'd best pack a case of water to handle the dry humor — and maybe grab a good night's sleep so you can keep up with their quick wit.

So join us December 22nd and 23rd at the ranch near Kisbey as we close a chapter and open the gate to the next one. At Bohrson Marketing, we're proud to stand behind this exceptional program and the family who built it. The Moose Creek dispersal is more than a sale — it's a celebration of a legacy. Together, let's honor the past, look ahead to the future, and ensure the next generation of breeders can carry forward the red hide and strong heart of Moose Creek Red Angus.

Thank you for being part of the Moose Creek story. Let's make this sale one to remember.

The "C" year was the greatest set of females we ever produced in our 50+ years. This Reba cow could be the finest of the bunch. Can't miss her ET daughters and son in the yearling section. Don't love your cows but this one will be hard to part with.

"A heifer's best friend" ~Kylie McRae
 Keep the best bulls you raise or do your utmost to get them back. We sold Garret as a yearling and our dear friends the Camphaug agreed to let us buy him back after the sale.

His mother is Clooney and Ripzone's sister.
 Garret is one of our crowning achievements in 50 years.

Selling full interest, full possession

2046 9C MATURE - RED

"Red Wilbar Hennessy 3K is one of the most unique sires to ever come out of the Wilbar program. Aside from his dominating show career, Hennessy is a Grand Champion in the breeding field. His progeny are dominant amongst their contemporaries. Moderate birth, explosive growth to weaning and the ability to convert feed into pounds like no other bull out there. He consistently sires dark cherry red color, extra bone mass, great feet with added heal and thick, deep bodied cattle. His first daughters will calve this coming spring and look very similar to Hennessy's gorgeous dam. His progeny highlighted the spring bull sale season with a son commanding \$75,000. Look for daughters highlighting multiple sales this fall. Red Angus sires like Hennessy are hard to come by so jump at your chance to incorporate his genetics into your program." ~ Bryan Willms

Semen rights owned by Wilbar Cattle Co. and Robrich Cutting Edge Ranch.

"There's a bull at Durie's you need to own." ~Ben Wright

Every once in a while luck is greater than skill. Ben found this massive specimen at Durie's and I know the strict, unforgiving nature that Jr. & Deano culls their cows with, his mother would be a picture. I was still licking my wounds after the Momentum bull and knew I'd regret losing another. As fate would be, I was sick as a dog, lying in bed with a 40C fever. I don't remember much of the conversation but I know Ben was adamant I buy him. It wasn't until the next day when I woke up to a message we won. If Benny calls you, especially Dec 21- bid with reckless abandonment... worked for me. ~ *Darren Ippolito*

RED RAINBOW DOLL 46B - DAM OF HEAD RUSH

*Selling full interest, full possession, including
 100 straws of domestic non saleable semen.*

190

HEAD RUSH AS A CALF

CDI 47N - SON OF HEAD RUSH, SELLS AS LOT 93B

LUO 3N - DAUGHTER OF HEAD RUSH, SELLS AS LOT 42A

"You spent how much on a F&\$%ing bull calf!" ~ Glenn Ippolito

There hasn't been many bull calves, penned beside their mothers at a Dispersal sale that have hit me as hard as Head Rush did when I first saw him. He was special. His brother, Metric, had just commanded a \$120k valuation that spring and I wasn't sure if this wasn't her best effort yet. He's outcross, flawlessly structured and extremely marketable. Don't stop until your father swears at you too. ~ Darren Ippolito

Owned by Six Mile Ranch & Moose Creek Red Angus

Six Mile keeps in-herd semen rights and the ability to draw semen for their own use.

203

One of the most impactful Red Angus individuals bred and born at Six Mile Ranch, Mossy Oak 175H quickly established himself as a household name within the breed. From a young age, he was a stand out amongst his contemporaries and is still the most versatile and consistent John Wick son that has been utilized. Mossy Oak sons garnered top dollar across the country and his daughters have earned spots in donor pens. Darren said it best- "Mossy Oak calves are light at birth, heavy at weaning, and make you sit a little taller in the sale barn." The proof is in his progeny; Mossy Oak is not just a herd bull, he's a crowning achievement from the Six Mile program.
- *Tyson Hertz*

Semex Canada owns the worldwide marketing rights to Mossy Oak.

RED L83 RED VIPER 50K - 2024 NWSS GRAND CHAMPION BULL

*Selling full interest, full possession.
 Owned with L83 Ranch & Danen Lodeon*

221

"A solid opportunity to take advantage of this young herd bull. L83 Red Viper 50K, was acquired from L83 Ranch when he would be their high selling feature bull of 2023. The mating of the infamous Red Angus sire PTO and L83 Tink 627D. L83 Tink 627D, a feature donor at L83 Ranch, is the mother of a lengthy list of progeny, sold across North America, that have shown the value of this female, including the recently selected Reserve Champion Red Angus Female at the Manitoba Ag Ex. Viper is the Reserve National Champion Red Angus Bull that adds length, color, and bone to his calves." ~Ben Lodeon

231

"You can build a program around the Footprint daughters. His sire, Red Moose Creek Ripzone left some beautiful uddered, hard working females at Mar Mac. His sons topped our Mar Mac Bull sale for several years, they were naturally thick, deep bodied beef bulls. The Ruby cow family at Mar Mac is proven over many generations. Ribeye and Mohican added in some performance along with the femininity coming from the Ruby family. Moose Creek acquired Footprint as he walked out of the show ring as Junior Champion: Canadian Western Agribition 2009. This free moving, long bodied, thick individual has developed into a powerful productive sire. Take a second look at his progeny they will be assets to any program." ~ Lois McRae

"Proven genetics in this bull. The Ruby 10T was one of our Mar Mac Farms Foundation Female. At Mar Mac, several daughters of Ruby 10T are still in production. They are sound, functional females that bring in top calves every year. Red Moose Creek Ripzone is a sire to build a cow herd around. Performance and excellent milking females were Ripzone's features. Gerry Walters purchased Formula in our Bull Sale as a younger bull, he was a sleeper in the Mar Mac Bull Sale. Gerry used him heavily in his program. In the Walters Dispersal, Darren was able to acquire Formula. Check out Formula on sale day, he is a bull that you can be assured to have a strong maternal influence that you can build a breeding program around." ~ Lois McRae

“Who’s that guy? (pointing at Specialist)” Literally everyone that has toured.

Very attractive and muscular mature bull. When the Camphaug’s sold their cows, Specialist was available. Initially, we thought he’d be a tremendous commercial bull but as luck would have it, he became an excellent herd bull. I’m certain you could use him to produce calving ease type bulls with add eye appeal. He’s got a front pasture look to him.

~Darren Ippolito

"Hold tight Blair, we're on our way. Anybody need another one while I'm up? Hey Ippy, did you buy that bull yet?" ~Trent Leibreich

Combination is the kind of bull that takes all day and most of the night to wrestle away from their breeder. Dark, liver red, muscular, heavy constructed and an aggressive, efficient breeder. An ET son of Soldier and the beautiful mother of Benelli. He's suitable for either the cows or the heifer pen. That's what makes him so valuable. ~ Darren Ippolito

*Selling full interest, full possession.
SSS Red Angus retains in-herd semen rights and
the ability to draw semen for their use.*

263

"No thanks... (write your own footnotes) ownership comes at a cost lol" ~ David Sibbald

We were extremely fortunate to secure what has been a tremendous breeding bull from the legendary SSS herd. Growler's dam, a Black cow, stands out in the foothills for more than her colour; she is the model Angus female that every breeder strives to produce. Presence, power and predictability, Growler is a herd changer. ~ *Darren Ippolito*

RED MOOSE CREEK TRUMPET 35M - AS A YEARLING

Selling full interest, full possession.

289

"I should ask Oz if he'd sell me that bull back."

After a short run of bad luck this spring, I convinced my buddy Oz to sell me back one of the best Clash sons we raised. He was kind enough to do so, for a modest increase, and we got to turn out this high performance yearling. Lots of bone and growth, his mother is worth seeking out to see in the flesh. Trumpet saw moderate use but he'll be ready for a big pasture next year. ~ Darren Ippolito

1000 Lots, 50+ years, Nothing held back, Legacy, Opportunity, Stewardship.

Darren has hit all the buzz words in his ads for the Moose Creek dispersal. I have traded purebred and commercial cattle with Moose Creek for over 30 of those 50 years, because they raise real-world cattle that work for me. That said, it was not just the cattle that were the determining factor in my purchasing decisions. There will be Red Angus cattle by the 1000's for sale the world over this Fall, there are good ones everywhere. Nowhere will you find better people to buy them from.

Years of using Glenn as a source of no-nonsense advice has helped shape my own breeding plan and decisions. I have never left the Moose Creek yard without a smile on my face due to Donna, Candace and Kylie's humour, optimism and 'joie de vivre', and if you don't get a charge out of Kord, Etta and Ray-Lynn... you should check your pulse. I am proud and happy to have supplied instruments to the Ippolito "Kids Family Band" over the years.

Oh yeah about Darren... when I first laid eyes on him, he looked like the results of an overfed cubby calf mated to the lead singer of Earth, Wind & Fire. Despite that, and even though I would describe him in a footnote as a "sappy-middled, shuffle gaited hairball", we became the best of friends. There is no one in the cattle world I would trust more.

The entire Moose Creek Crew is rock solid. Just as an example of the kind of folks they are, in 2021 we had no feed or grass to speak of. The Ippolito's took my cow herd and heifer calves, along with two of my neighbour's herds (who they only knew through me), and they wintered them through until Spring. It saved all three of our asses. To this day we can't thank them enough. Special people do Special things.

In closing, my humble opinion, while the cattle are as good as you can buy anywhere, you won't buy cattle from better people anywhere. That Matters!

Sincerely, Boyd Lines

Moose Creek Red Angus has maintained a good Herd Health program. The cows are vaccinated yearly with Pyramid FP5 - a modified live BVD, IBR and BRSV vaccine, and with a scour vaccine containing E.coli, rotavirus, and coronavirus. This helps ensure that there are no PI BVD calves or cows in their herd. The herd is treated with an ivermectin product for parasite control both in the fall and again in the spring before breeding.

Calves are vaccinated with a modified live BVD, IBR, PI3 and BRSV vaccine in addition to an 8 way clostridium and haemolytica somnus with pasturella. These shots are administered both at branding and again at weaning. The herd is well managed with attention to proper nutrition, housing and animal welfare. The health of the animals is closely monitored and treatment is prompt.

Moose Creek Red Angus is an excellently managed herd. - Carmen Langevin, D.V.M - Flying C Vet Services

Selling full interest, full possession.

"Holy shit! I didn't think we'd get him bought!" ~ Blair McRae

Advance was part of the record setting "Muck Boots" pen of bulls that won Denver. Alongside his brother Premium, they highlighted the most sought after sire group in recent Canadian history. His sire Momentum, still makes me smile: I made Ward pay a "Premium" to buy him that day and 2 years later he got his money, plus interest back from me. Well played sir, well played. ~ Darren Ippolito

*Mar Mac Farms keeps in herd semen rights and the ability to draw semen for their own use.

Selling full interest, full possession.

The black product of an unequalled flush by savvy cowman Andy Hofer, Max's mother is quickly becoming the most prolific, under-the-radar donor in Canada. Calving ease with an unmatched maternal flair; he's more than a heifer freshener. ~ *Darrne Ippolito*
Spring Creek – Andy Hofer retains in herd semen rights and the ability to draw semen for their own use

ADVANCING REPRODUCTIVE SOLUTIONS

Bow Valley Genetics has been doing advanced reproduction work for the Ippolito family for a number of years. They have been great clients to work with and very supportive. The cattle they produce are sound, functional cattle that will do well in any environment, or for any astute cattle person. Based on our experience with their donors, recipients, and bulls we can testify to the fertility that is present throughout this herd. We collaborated on a large embryo project over the past few years with the average embryo production being above the industry average and the purchasers being very happy with the pregnancy results. We wish the Ippolitos all the best in their future endeavours and we hope to be able to work with them again.

When I was asked to write a few lines of welcome for this historic Red Angus dispersal, I was truly honoured and somewhat shocked. Shocked because it was happening, but knowing it is to settle family matters, I understand. The Ippolitos are good people! I've worked for this family for over forty years, three different generations and lastly becoming very good friends with Darren, not always, but everything is cool today. Firstly there was grandfather Ray, then father Glenn and now the only son, Darren. They have all worked hard and have succeeded in becoming very successful purebred Red Angus breeders or producers. No easy feat, I know from experience. Brent Carey, my best friend and I always thought of the Moose Creek sales as some of the fun ones with the steaks being good and then the eight hour drive home.... Done for the season. Darren Ippolito has become one of the top purebred bull salesmen in Saskatchewan and I am very proud of him.

Anyway getting back to my few lines of welcome, well here it is, "You all come now you hear!" See you there before Christmas. What a great place to buy a Christmas present for your wife.

We still use a Moose Creek bull. I believe he is a six year old. Shelly nicknamed him "The Hulk" because he is a muscle machine. Darren I could use a couple more just like him.

Think of this sale as a time to visit with old and new friends, it will be worth the trip. To the Ippolito family, have a great one, all the best in the future!

Happy Trails,

Dennis C Ericson

It is our pleasure in working with Moose Creek in their historic herd dispersal. The personalities of the Ippolito family are anything but conventional, but they are colorful, unique, intentional and methodical. These qualities are the recipe which they have formulated a breeding plan which are conventional. These qualities parallel the commercial industry not only in a business approach but also in herd management. A large scale cattle operation that has its hands in not only the cow calf sector, a yearling grasser operation to assembling the most cost efficient feedstuffs to winter the cattle in an economical manner.

The breeding decisions collectively were aimed to be beneficial for all factors of the industry. Profitability was important in every step along the way. The cow herd represents just that. as the cows spent little time in the yard other then calving and moved back out to the bush to continue their job as mother cows. In evaluating this set of cows over the years one couldn't help be impressed with the feet on the cattle and is a testament to management styles and genetic selection that was made continually. In any breeding program success is attained through utilizing their own genetics to further propagate the strength of the various cows. When herdbulls were sourced there was no expense spared and every rock got turned over to ensure progress!

A no frills operation which has been endorsed by a strong customer base stretching across western Canada. You can be rest assured that this herd stocked many top end commercial operations and numerous purebred herds for over five decades that there is a piece of a genetic puzzle here that will further your program along as well. The genetic engineering that has taken place here at Moose Creek will continue on in the years to come across the Red Angus world!

Study the genetics as there are many combinations available to you through heifer calves, bred females, embryos and pregnant recipis. We have been through the sale cattle numerous times to assist you on your selections.

See you sale day!

Shane Castle

DUE EARLY FEB

When touring the many pastures this summer at Moose Creek Red Angus, the word Legacy always was on my mind and what the impact of this cow herd will have on the Red Angus Industry. The future of the cattle that will be sold will have huge dividends to their new owners.

When you see Darren Ippolitto come up on your cell phone, you answer with a smirk and what knowledge will you learn on this phone call. I really do appreciate the visits we have had and the wisdom he has passed on to myself. In person is even better; I really admire a human being that can look you straight into your eyes and tell you what he feels and doesn't hold anything back. Darren is that person. I wish I had more time to work for and deal with this human. Good luck Darren and family on your future endeavors.

As you go through the entire cow herd you see what Moose Creek was doing with success. Great footed cows with longevity built right in. These older females are here for a reason; they work and produce. Just give the younger stock some time and you will see what they can do. They were not pampered females at the farm, made to work for their stay. Success comes when you let the cattle weed themselves out. Cow families, as you see if you went through the cows, is huge. The herd bull battery is second to none across the land. Moose Creek was aggressive in obtaining the top end bulls for many years now. The combination of proven cows and mature herdbulls seen at Moose Creek will allow you to purchase cattle that will maintain at your operation.

If you need any assistance, please do hesitate to call myself, Roger or Chelsea. The OBI Team will be at the sale facility a day before the sale to help with your needs and start to build your own legacy with Moose Creek genetics.

Mark Holowaychuk

Our operation is no different than others in agriculture; its success is directly attributed to the quality of people involved. We have been blessed to employ some of the greatest friends and staff we could ever dream of. Our current staff of Tanis Palmer, Max Gauthier, Emma Falconer, Darnell Fornwald, Cory Bell and Melissa McRae; past staff like Troy Gordon, Ronnie Hamilton, Tommy Tokar, Richard Gallinger, Craig Rankin, Matt Wushke, Tommy Siebels & Stan Logan and our amazing neighbours like Cornwalls, Gordons, Brigdens, Wyatts & Andersons that have been through many of our highs and lows alongside us. Special thanks to all of these wonderful people who have helped us and have been so vital to our growth and propelled us to the position we're in now. ~ the Ippolito Family

RAINBOW LARK 73J - DAM OF TROOPER 73M

\$21,000 highlight bull from past spring Moose Creek sale. Sold to Nordal Farms, Simpson, SK

Welcome to the Red Angus sale of the season — 1,000 head of cattle, 50 years of knowledge, passion, and genetics. This will be Canada's largest purebred dispersal, and I'm truly honoured to be a part of it.

As I write this, we've just wrapped up sale photos and are starting on videos, and I have to say — I've been blown away. This is an incredibly strong group of cattle. From cows to bulls, yearling heifers to calves, the quality runs deep and the consistency only gets stronger every time I see them. I've been especially impressed with their docility, udder quality, and overall uniformity of the herd. Moose Creek is a program built on integrity, consistency, and a genuine commitment to raising functional, high-quality cattle.

I've always believed that good people and good cattle go hand in hand — and the Ippolito family exemplifies that perfectly. It's been an honour to work with them over the years. They are true cattlemen — from how they manage their herd and their disciplined breeding program, to the pride they take in their customers and their brand.

Over the years, I've spent a lot of time at the ranch — from sale prep for their annual bull sales, to the Charolais dispersal, and now this historic Red Angus dispersal. It has truly been a privilege to work alongside the Ippolitos. From Glen's history lessons and storytelling, Donna's home-cooked meals and morning teatime, Darren's deep knowledge of the cattle industry, visits with Kylie and the kids, to Candace's business sense and travel advice — every moment has been memorable.

The Ippolitos have been a cornerstone of the Red Angus story in Canada, and this cow herd reflects the years of dedication they have invested into the breed. I've learned so much from the Ippolito family and will miss their presence in the purebred world. But I'm incredibly proud of their accomplishments and wish them nothing but the best as they turn the page to their next chapter. I invite you to celebrate the legacy of hard work, resilience, and community that this historic event represents. It's more than a sale — it's a story worth sharing. See you sale day!

Closing one chapter and beginning another naturally brings mixed emotions. When I reflect on the Moose Creek operation, one word consistently rises to the surface: character.

The cows themselves embody character, representing the traits that have made the Red Angus breed so respected and versatile. The Moose Creek program has always prioritized balance over extremes, a philosophy that stands out in an industry often driven by rapidly shifting trends. It takes genuine character to remain committed to breeding functional, reliable cattle. Both Darren and Glenn have developed a herd that performs exceptionally well in their environment and for their bull customers across Western Canada.

"Performance" is a term often used in the beef industry, but in my view, true performance is measured by a cow's ability to travel freely, milk well, raise a strong calf, and rebreed consistently. The Moose Creek Red Angus cowherd has excelled in these fundamentals for decades. Glenn's long-term vision and disciplined planning are evident throughout the herd, and those same values have clearly been passed on to Darren.

Marketing cattle also requires character, and memorable people with strong principles excel in this area. Whether in one of many conversations with Darren or a visit with Glenn on the farm, it is clear that both men possess the charisma and integrity needed to represent their program with pride. I have followed the Moose Creek brand closely over the years and have consistently admired their thoughtful, disciplined breeding philosophy. I particularly commend the Ippolito family for the meaningful relationships they have built with their customers. Their commitment to sourcing and utilizing top herd sires has strengthened their own cow herd and, in turn, improved the herds of their customers fulfilling the very purpose of raising seedstock.

There is an extraordinary amount of character both in this cow herd and in the people who have built and cared for it. A sale of this magnitude brings with it many positives. Distributing this high-quality cow herd will undoubtedly enhance the Red Angus breed across North America. As we gather on December 22nd & 23rd to honour the legacy of the historic Moose Creek Red Angus cow herd, I encourage you to attend. This event promises to be truly memorable and undoubtedly, one for the ages.

See you at Moose Creek Red Angus!
Respectfully,
Col. Ryan M Hurlburt

"You have got to be kidding me! You forgot ONE bull after I lotted ALL these animals" ~ Melissa McRae

Selling full interest, full possession

598

This catalogue has been a giant task. Thank you isn't enough to show our appreciation to Christine Boake on her countless hours of work building this enormous project. Thank you to Melissa McRae who spent over 3 weeks in the picture pen, showing unequalled poise and patience with the crew. Thanks to the great girls at CAA, especially Mandi, Haley and Kajal, who hustled to help me make my deadlines and their understanding, with all the moving parts around our operation.

COWBOY CHEAT SHEET

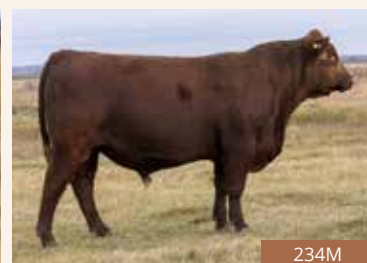

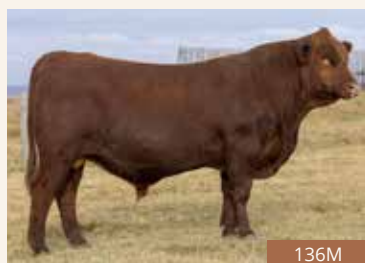

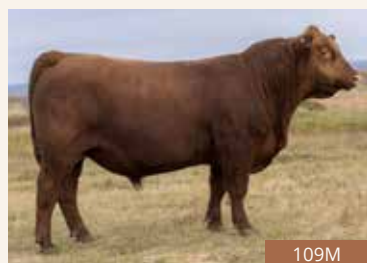

With the size of the catalogue and the fact that the calendar year calves are lotted with their mothers, we figured we would make a simple, straight forward section of the catalogue designated to our bulls and tailored to our faithful commercial cattlemen. The bulls will be sorted by calving ease scores (CE) and also numerically. We hope that this makes it easier to look at the bulls in the pens and find their performance, pedigree and age quickly in a simple table.

WINTERING TERMS OF BULLS

We are offering wintering on all bulls sold in the sale.

- Any calendar year bull selling for \$7500 or more will be wintered free of charge.
- All of the coming Two/mature bulls selling for \$9,000 or more will be wintered free of charge as well.
- Bulls selling for less than \$7500 or \$9,000, will be charged \$1500/bull for winter feed.
The sale price plus feed cost will not exceed \$7500/\$9000 respectively.
- Any bull staying for the wintering will be semen checked, in-house warranty for death or injury and delivered by April 30, 2026.
- The maximum warranty coverage is \$20,000 and expires May 31.
- If delivery can't be arranged by April 30, 2026, bulls can stay longer but buyer must pick up at the Ranch.
- All bulls staying will be guaranteed the same as we have for 50 years.
- Bulls taken home sale day or within 30 days of sale, will have no guarantee and must be insured by new owner with 3rd party broker.

INTERNATIONAL EXPORT

To our American friends: Never before have we seen a more advantageous opportunity to import breeding stock than now. The volume available, unique pedigrees and quality cattle are only part of it. The buying power of the US dollar vs the Canadian dollar is immense.

Currently, we are looking at an almost 30% currency advantage for our American customers. All of the cattle are guaranteed exportable and the testing and paperwork will be done by us on your behalf. Don't miss this chance to stretch your buying dollars out more than ever before!

EXPORT RESPONSIBILITIES OF SELLER MOOSE CREEK RED ANGUS LTD.

- 1) Valid Export Permits – All livestock exports need pre-approved permits for international transportation.
- 2) Animal Health Certificates – The exporting animals must meet specific veterinary health standards. This includes vaccinations, health checks, and certifications from licensed veterinarians.
- 3) Transportation Standards – Exporters must ensure humane handling and transportation practices that meet Canadian and international standards.

When exporting livestock, proper documentation is critical. Key paperwork you'll need includes:

- Export Permits
- Animal Export Certificates (Issued by CFIA)
- Waybill or Bill of Lading (for Transportation)
- Certificates of Origin (if required by the destination country)

IMPORT RESPONSIBILITIES OF THE PURCHASER – NEW BUYER

- 1) Provide correct address and importers name
- 2) Make arrangements with International Trucking firm to coordinate delivery
- 3) Recommendations listed in the catalogue for reputable firms to handle delivery

**Make proper settlement on all livestock with the
Owners Moose Creek Red Angus or Sales Management – Bohrsen Marketing**

DELIVERY OPTIONS

Trucking is available in all directions following the sale. We will coordinate with multiple trucking firms and private operators to get your purchases headed your way shortly after the sale. Please contact Darren or any of the sale staff if you've got questions about arranging transportation.

TERMS & CONDITIONS

TERMS: The terms of the sale are cash, cheque, and wire transfers, payable at par at the sale location unless satisfactory payment arrangements have been made prior to the sale with seller, buyer and Bohrsen Marketing Services. Bohrsen Marketing Services reserves the right to require a certified cheque as settlement before releasing any sale cattle or frozen genetics. Payment in full must be made before cattle can be released and shipped. Exchange rates will be announced sale day and the sale will be held in Canadian funds.

BIDDING: All animals to sell through the sale must be sold by auction with each animal selling to the highest bidder. Private sales will not be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

DISPUTES: In cases of disputes, bidding will be reopened between the parties involved in the dispute. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid and the auctioneer's decision will be final.

ANNOUNCEMENTS: Any announcement from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

LIABILITIES: All person(s) attend the sale at the their own risk.

CERTIFICATE OF REGISTRY: A registration certificate issued by the applicable breed association and a certificate of registry duly transferred will be furnished to the buyer of each animal after final payment has been made.

PREGNANCY INFORMATION: All bred females have been pregnancy examined by an accredited veterinarian, who has provided the seller with an estimated length of gestation. The estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service. Bohrsen Marketing Services will provide supplement sheets with breeding services provided for the purchaser.

HEALTH: All sale animals have met all necessary health requirements and it is the buyer's responsibility and expense to determine health requirements for importing any animal into his province or state. Bohrsen Marketing Services assume no responsibility for the health status of any animal in the sale.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as sold.

SHIPPING: Shipping of cattle, semen and/or embryos are the responsibility and expense of the purchaser. Purchasers are requested to provide shipping instructions at settlement on sale day.

INSURANCE: We strongly recommend insurances for full value on all purchases.

ACCIDENTS: Every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

INFORMATION SUPPLIED: The information contained in this catalogue is believed to be true and accurate. The seller has provided the information to Bohrsen Marketing Services and they assume no responsibility if the information supplied is not accurate.

Make all checks payable to: Bohrsen Marketing Services Trust Account :: Send E-Transfers to rebecca@bohrsen.com

Thank You

is so difficult to put into words.

To ALL of our customers,

OUR family is forever grateful for your continued support throughout the years.

I found this poem by an unknown author and rewrote it to fit this occasion.

WE HAVE A LIST OF FOLKS WE KNOW, ALL WRITTEN IN A BOOK,
AND EVERY YEAR WHEN SALE TIME COMES, WE GO AND TAKE A LOOK.
AND WHILE YOU MAY NOT BE AWARE OF ANY SPECIAL "LINK",
JUST MEETING YOU HAS CHANGED OUR LIVES A LOT MORE THAN YOU THINK.
PLEASE, NEVER SEE OUR CATALOGUES AS JUST A MERE ROUTINE,
OF NAMES UPON A BUYERS' LIST, FORGOTTEN IN BETWEEN.
FOR WHEN WE SEND A SALE BOOK OUT THAT IS ADDRESSED TO YOU,
YOU ARE A PART OF THOSE WHOM WE'RE INDEBTED TO.
AND WHETHER WE HAVE KNOWN YOU FOR MANY YEARS OR FEW,
IN SOME WAY YOU HAVE HAD A PART IN SHAPING THINGS WE DO.
THROUGH THE YEARS WHEN SALE TIMES COME WE REALIZE ANEW,
THE BEST GIFT LIFE CAN OFFER, IS MEETING FOLKS LIKE YOU!!

*Our sincere and grateful thanks
To our families, friends,
neighbours, staff, co-workers,
partners and fellow breeders.*
