## Breeder Guarantee

Brooking Angus Ranch guarantees our bulls to be sound, fertile and reproductive in accordance with the rules and regulations of the Canadian Angus Assoc. for the first breeding season. Claims must be made by September 1st of year of purchase. If a problem occurs, please contact Justin immediately and we will provide a suitable replacement, if available, or a sale credit. This guarantee does not cover death, injury or mismanagement. Our goal is to have you satisfied with your Brooking bull.

## Sight Unseen

We would love to have you with us; however we do understand how busy things can get around the ranch. Our sight unseen program is simple. Call Justin in advance and we will discuss your needs, cowherd, goals, budget and which bull or bulls will work best for you. Bids are handled in confidence with SATISFACTION UPON DELIVERY GUARANTEED or you don't own them. We have sold up to 30% of our bulls this way in the past.

## EPDs

Printed EPD's are the current CAA EPDs at publication time.

## Delivery

Free delivery to central points near your ranch in Alberta, Saskatchewan and Manitoba. All other points will be cost shared. A discount of \$100 will be provided for purchases hauled home on sale day.

## U.S.A. Buyers

We welcome our U.S. customers and will provide the necessary health and export papers. Delivery will be looked after within a 600-mile radius of our ranch. We are a half hour from a 24 hour U.S. border crossing. U.S. funds will be accepted at the Rate of Exchange current on sale day.

## Accidents

Although every precaution will be taken, neither sales management nor Brooking Angus Ranch assume any responsibility in this matter and disclaims any liability, legal or otherwise in the event of accident or loss of property.

## Catalogue Design

## Semen Interest

BROOKING ANGUS RANCH IS RETAINING ONE-THIRD REVENUE SHARING SEMEN INTEREST IN EVERY BULL SELLING IN THIS SALE. BROOKING RESERVES THE RIGHT TO USE SEMEN FOR IN-HERD USE ON ALL BULLS SELLING AT SELLERS COST.

*from the Morrison family*  
**WELCOME**

Welcome to our family's 14th annual bull sale at our ranch just west of Radville. It's hard to believe how quickly time flies by. It feels like yesterday we were having our very first sale. Our family sure has grown since then.

It truly is a great time to be in the cattle business. We have never experienced the record-setting markets we have come to enjoy today. Now is the time to improve and upgrade our infrastructure and genetics to set us up for success in the coming years.

Over the years, our breeding philosophy still hasn't changed. We take our responsibility as a seedstock producer seriously. We have built a program based on great cow families with an unwavering commitment to all the fundamentals we believe are needed in a breeding program. We believe in an ideal Angus cow that is perfect in structure, type, udder quality, hoof quality, while being massive in body dimension in an angular and attractive way. Additionally, they must also be productive, fertile, and have elevated quality and raise a heavy calf year after year to remain in our herd.

We would like to express our sincere gratitude to everyone who contributes to the success of our operation. First and foremost, we would like to thank Riley Strickland, who started with us this past summer. We really appreciate all he does for us. We also extend our thanks to all those who help us throughout the year with every stage from clipping, picturing, videoing, processing, at sale time, or at shows. While the list is extensive, we would like to say a big thank you to everyone!

A big thank you to all of our past, present, and future customers. You are the driving force behind our motivation to always do our best. Our ultimate goal is your satisfaction, and if there is anything we can't do to assist you, please don't hesitate to reach out to us. We eagerly look forward to your visit and the opportunity to serve you.

Sincerely, *Justin Morrison*

BOHRSON MARKETING SERVICES LTD.

# SALES MANAGEMENT

The Morrison family has built a program that stands among the elite in the Angus breed — not only in Canada, but anywhere in the world. When you study this offering and, more importantly, walk through the cow herd behind it, you quickly understand why Brooking cattle are recognized on a global scale.

The foundation of this program is maternal cow power that rivals the very best internationally. The depth, uniformity, and quality of the Brooking cow families are as strong as you will find anywhere. These are big-bodied, broody, beautifully uddered females with structural integrity, fertility, and longevity bred in generation after generation. It is that uncompromising focus on the cow herd that drives the consistency and quality of the bulls on offer.

Brooking genetics are truly recognized worldwide. Seedstock and commercial cattlemen across North America and abroad have incorporated these bloodlines with confidence, knowing they are backed by generations of proven, predictable cow families. The Morrison family's commitment to phenotype, performance, and maternal excellence has positioned this program as a global influencer within the Angus breed.

As you study the sire groups highlighted throughout this book, you will see the strength and diversity of the program on full display. Each group represents herd sires selected with discipline and purpose — bulls that complement the cow base while advancing phenotype, structural correctness, muscle shape, performance, and maternal quality. The consistency within sire groups speaks volumes about the uniformity and depth of the Brooking program.

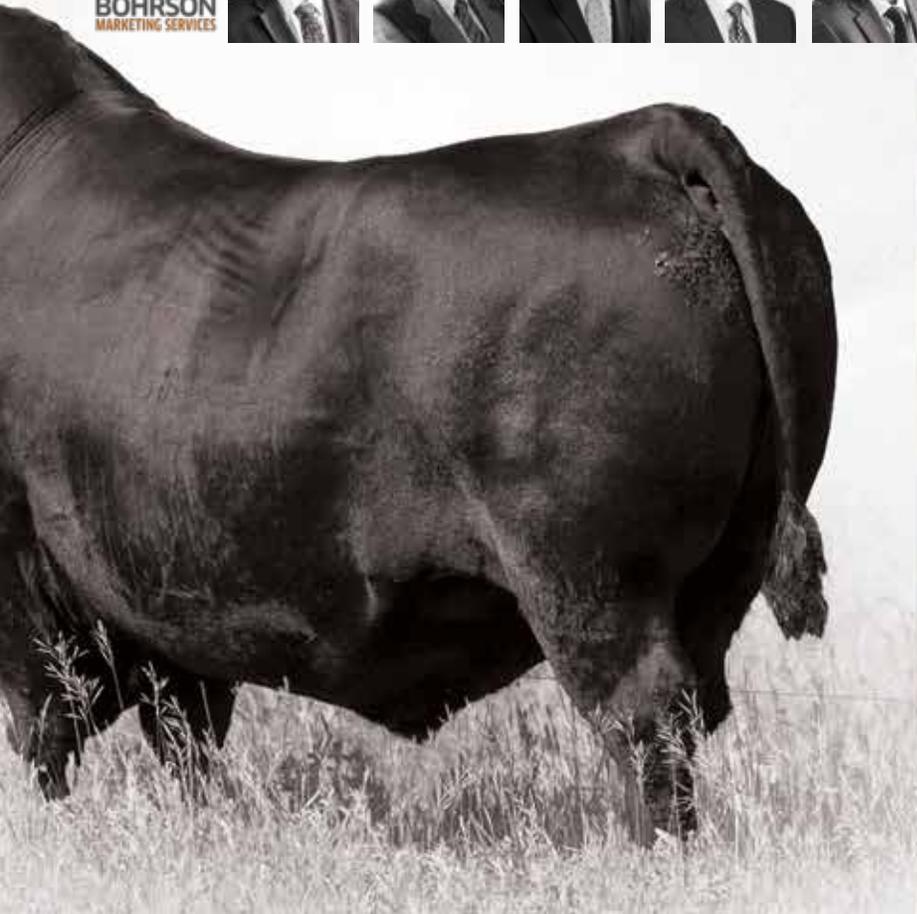

The offering is deep, powerful, and built with the progressive cattleman in mind. Whether you are searching for a performance-driven herd bull, a maternal breeding piece, or a sire prospect with herd-changing potential, this sale presents genuine opportunity backed by one of the most respected cow herds in the industry. The Morrison family continues to invest in elite genetics, world-class herd sires, and the people it takes to operate at the highest level. Their passion for the Angus breed and commitment to their customers is evident in everything they do.

We encourage you to study the offering closely and visit with the Morrisons about their program. On behalf of Bohrson Marketing Services, we thank you for your interest and support and look forward to working with you sale day.

Best Regards,

*The Bohrson Marketing Team*

Brookling Emerald 9179 has consistently gained popularity throughout his career, capturing the attention of breeders at every stage. His remarkable story began with a notable sale at the historic Rose Bowl Sale, where he fetched an impressive price of \$94,500. This muscular and masculine bull stands out for his deep rib shape and bulging hip, exuding an abundance of shape. Additionally, he possesses excellent feet, a large scrotal, and a well-balanced weight distribution from front to back, making him a sound and impressive mover.

However, it is the progeny of Brookling Emerald 9179 that has truly propelled his popularity to new heights. His offspring have raised the bar for quality phenotype, boasting massive rib dimensions, attractive appearances, without compromising on power and substance. The daughters in production are proving this legacy is being carried on maternally. Their exceptional attributes have solidified Emerald's status as an elite sire of choice.

Brookling Emerald 9179 owes his incredible genetics to his dam, the remarkable Brookling Beauty 6051. She epitomizes the ideal Angus female, characterized by extreme quality and impressive production. The industry was abuzz with excitement during our 10th anniversary female sale, as her impressive daughters fetched extraordinary prices. These exceptional females were sold for \$100,000 (½ interest), \$75,000 (½ interest), \$50,000, \$40,000, and \$25,000. In fact, the average selling price of the daughters of Emerald we have sold in our female sale over the past two years has been nearly \$40,000, with the highest selling females at \$80,000 and \$75,000 being daughters of Emerald.

His progeny's incredible quality is setting a new standard for type and kind. This is a testament to the enduring legacy that Emerald will leave in the pedigrees of great cattle for generations to come.

**Brooking Annie K 390** - Maternal Granddam

Brooking Yesavage 5061 has been dominant in his appearance since a young age. As a calf alongside his dam this past summer, they were exactly the kind you want to own and strive for. Brooking Yesavage 5061 is masculine, muscular, and walks around with a proud herdbull presence about him, and he has done that since an early age. Alongside his dam, Brooking Annie K 1261, he was nearly as big as she was by weaning. Brooking Annie K 1261 is a small/medium-framed female with a beautiful head and udder and stands on excellent feet. The grandam, Brooking Annie K 390, has been an incredible producer and is most noted as the dam of Brooking Firebrand 6068. She sold for \$50,000 at ten years of age to Mohnen Angus and Schrock Angus. Brooking Yesavage 5061 was voted as the people's choice bull at the President's Classic at Agribition. Without question, Brooking Yesavage 5061 is one of the hottest rookies of the season.

A favourite choice of many among this year's bull offering. He is as solid and sound as you can make them. We calved out two full sisters this year and they are tremendous. They are easy fleshing, deep ribbed, nicely uddered, maternal acting, with a high-quality phenotype. A full brother was the third high-selling bull last year at \$70,000 to Lewis Farms and Triangle K. The dam was a past RBC Supreme Champion at Agribition and has had heavy influence on the Angus breed.

Possibly the most striking in appearance as any in the whole sale. If you ask Kordell, he would say this is the best bull in the sale. Now, he might be biased as he is out of his donor, Brooking Rose 0083. Brooking Emerald 5167 is extremely long and proud in his front end, massive dimension to his rib cage, sound moving, stands on excellent feet, and is great-haired. His dam is one of the most admired females on the ranch. She not only looks incredible but is a potent producer. She raised the heaviest weaning bull ever at Brooking last year that sold to Carlson Angus. Two maternal brothers also sell as lot 14-15. A flushmate sister will be hitting the show road this summer and fall for Kordell. You will want to keep every daughter out of this stud.

**Brooking Rose 0083**

All of these Emerald sons are peas in a pod and are in a league of their own for phenotype excellence. A genetic full sibling by blood to lot 3. They share an attractive design and hold their head up naturally on the move, indicating their ideal structures. The dam, Brooking Rose 0091, is a mirror image of her flushmate sister, Brooking Rose 0083. Both are massive ribbed, easy fleshing, nice uddered, and good-looking. The granddam is the iconic Soo Line Rose 1019.

Recommended for heifers. Brooking Alejandro 5066 will be one to build a dependable and solid foundation that will consistently lead your calf crop to the top of the market. Brooking Alejandro 5066 was part of our shoestrings at Agribition last fall. He is extremely quiet, stands on excellent feet, is moderately framed, and has a masculine build. His dam has elite status with CAA and is a member of our donor arsenal. She consistently has raised one of our best bulls every year and looks forward to having a lot of her sons in future sales. Brooking Beauty 7051 has perfect feet, a great udder, is moderately framed, is stout-made while having an ideal Angus head. This pedigree stacks great cows repeatedly, ensuing a predictable outcome.

There is a reason why Brooking Emerald 9179 is one of the most popular sires in the breed today. Every single one of his offspring is ideal in their structure, is sound moving, attractive made, has excellent hair coats, and will stand out anywhere he is used. Brooking Emerald 5038 is exactly all of that. His dam, Brooking Miss 5066, is now 11 years old and was among the first to calve again this year. She is ideal in her udder, is angular-made, and stands on excellent feet. She is what you want your entire cowherd to be like.

We somehow missed picturing this guy. You will like him in person and he is the same as all of the other Emerald sons being balanced and perfectly made in his structure. He is more moderate-framed than some of the Emeralds yet is explosive in his muscle shape in his hip and top. His low-birth dam is a direct daughter of the famed LD Capitalist 316.

SAV Theory 2914 is a resident herdsire at Brooking that we acquired from Schaff Angus Valley. He is one of those types of bulls you fall in love with when you first see him. He is a powerfully constructed, big-hipped, muscular, masculine, long-bodied bull and has an ideal Angus head. He stands on really good feet, has big scrotal glands, and moves with authority. His famous dam, SAV Emblynette 2369, is an extremely impressive female that combines phenotype, performance, and production. She has generated \$4.5 million in progeny sales and has been a factory of herdsires, and her daughters in production are mouth-watering. Flush mate sisters to Theory in production in particular are incredible females that have awesome udders and an ideal phenotype. Theory's daughters in production are exactly what we hoped for. They are moderately mature-framed, easy-fleshing, docile-natured, and nice-uddered. Theory has seen heavy use in the past year, including being used at SAV in their Ai and ET program. A similar story to Renovation is unfolding.

Recommended for heifers. A highlight of this sale. Brooking Theory 5063 is the type and kind we hope you have come to expect to find at Brooking. He is what we strive to produce as he is ideal in his structure, stout-made, muscular, and masculine, has an ideal Angus head, is good-footed, great-haired, and out of a tremendous female. His dam, Brooking Rose 0110, is absolutely massive in her dimension. She is wide-made, square-hipped, heavy-milking, excellent-uddered, and straight-topped with a beautiful head. She is a flushmate to Brooking National 0144 and Brooking Revival 0074, who are well known and proven in both Canada and the US. The grandam is the iconic Soo Line Rose 1019, responsible for a huge positive influence at Brooking. We feel Brooking Theory 5063 will be a sire that will do big things.

Brooking Theory 5029 is a powerhouse and a top feature of this year's group of bulls. We love a lot of things about him. He is powerfully built, being wide-made, muscular, and masculine while standing on excellent feet and being clean-fronted with a nice head. He has an excellent EPD profile, being in the top 20% in 10 traits highlighted by being in the top 3% for scrotal size and rib eye area. His dam is a maternal sister to Brooking Emerald 9179 and is angular-made, deep ribbed, and has an excellent udder. The grandam, Brooking Beauty 6051, is one of our all-time favourite females born at Brooking. She was absolutely perfect in our minds.

Recommended for heifers. A low birth weight son of Theory who will certainly be a favourite come sale day. When you have the combination of low birth weight who gained well to earn an 825lb weaning weight while being great to look, you know there will be a lot of hands up when he comes into the sale ring. His dam is typical of the beauty cow family, having a near-perfect udder, is moderate-framed, easy fleshing, and docile-natured. A maternal sister was our high-selling bred heifer last fall for \$60,000 to Voss Angus, Iowa.

**\$60,000 Brooking Beauty 4149**

Full Sibling to Lot 12 selected by Voss Angus, IA

A moderate-framed Theory son that is loaded with good looks and is well made. His maternal brother is Brooking Continental, that sold to ZWT Ranch, TN, that went on to win Reserve Grand Champion bull at Agribition. His dam is one of the most powerful-made Density daughters on the planet. She is huge, hipped, angular-fronted, and stands on extra bone. She herself was Reserve Grand Champion Female at Agribition. The grandam, Brooking Countess 7077, was Supreme Champion Female at both Agribition and Farmfair. The Countess cow family has been on a tear the last handful of years, topping sales and winning shows.

# BROOKING BULLS

## SAV THEORY 2914 SONS

Brooking Theory 5218 is a March-born that was a pound shy of 800 lbs at weaning and started at a modest 75 lbs. He is in the top 5% of the breed for weaning, yearling weight, milk, and scrotal EPD. His dam is a bigger-framed Renovation daughter that is easy-fleshing, wide-topped, heavy-milking, and a heavy cow. The grandam is Brooking Annie K 390, who sold for \$50,000 at 10 years of age to Mohnen Angus and Schrock Angus.

If you are like us and put a huge emphasis on what the dam is like on your herd bulls, then you will want to add Brooking Theory 5190 to your bull battery. Brooking Clova Pride 2124 is an awesome young daughter of Brooking Emerald 9179 and is exactly why he is gaining even more popularity with his daughters in production. She is moderately framed, big-bodied, stout-hipped, nicely uddered, pretty yet broody-fronted, and excellent-footed. Brooking Theory 5190 is similar to his dam in many ways with the added muscle expression courtesy of his sire.

Musgrave No Limit 663-169 is our newest herd sire, and we are really happy with what we are seeing. No Limit is a complete outcross calving-ease sire that combines phenotype, genetic diversity, and an impressive EPD tabulation. Individually, Musgrave No Limit is extremely well-made, straight-topped, smooth-shouldered, good-footed, and extremely docile. His progeny are born light and easy and grow incredibly well to have a good frame and weight in a well-made, attractive design with plenty of muscle shape. He is in the top 1% of the breed for residual daily gain, docility, mat-caving ease, and functional longevity and top 5% for weaning and yearling weight.

 Flushmate to Dam

Introducing one of our favourite bulls in this year's offering. A really neat combination of our new sire No Limit and the proven sire Emerald and Rose cow family. Brooking No Limit 5146 is straight-topped, attractive, holds his head up naturally, good-haired, smooth-made, good-footed, docile, and has a calving ease look. His young dam is an absolutely incredible female. In ways, she is very similar to her dam Brooking Rose 9076 with her angular front end and uncanny 9076 look; she is ultra good in her structure and has a perfect udder.

**Brooking Rose 9076** - Maternal Granddam

# BROOKING BULLS

## MUSGRAVE NO LIMIT SONS

Recommended for heifers. An elite-level calving ease option that combines a birth weight of 76 lbs and then exploded with an impressive gain to an 882lb weaning. An impressive feat for a first-time dam. This combination of No Limit and Emerald really seemed to be the ticket for calving ease and quality. The dam is long-bodied, bigger-framed, a two-year-old that was a sight to see with this impressive calf at side last summer.

We utilized Ellingson Badlands 0285 after seeing the proven results in many operations. He has some key components we wanted to utilize here at Brooking and found him to consistently be a calving ease sire, that will add hoof quality, masculine character, and good gain. More importantly, his dam is an incredibly potent producer who has several sons being utilized across the breed showcasing her as the root of quality.

 \$80,000 flushmate to Dam

Brooking Badlands 5115 is a definite herdsire prospect who is extremely impressive for the amount of shape and muscle expression he has. He has shown this dimension and shape from a young age. Alongside his two-year-old dam this summer, he was nearly as big as she was by weaning, commanding a 938lb weaning weight. His young dam, Brooking Beauty 3077, is a member of a tribe of sisters that are among our favourites on the ranch and will be the future donors at Brooking. A full sister to the dam was a \$85,000 high seller to LT Ranches and Duff Cattle Co. and had an extremely successful show career, highlighted by being Reserve Grand Champion Female at Agribition and Champion Female in the First Lady Classic. The grandam is our #1 income cow, Brooking Beauty 333, with 170 progeny registered to date in Canada. Here is a bull that deserves a bright future.

**Brooking Chosen One 3200**  
 Maternal Brother owned by  
 Murray Ranches

A Badlands son with a little more horsepower courtesy of his dam, Brookings Beauty 8187. Brookings Badlands 5068 is thick-made, deep-ribbed, good-haired with a little more extension in his makeup. He has an impressive 841lb weaning weight and continued to gain well throughout the winter. His dam sold for \$85,000 for half interest to KT Ranches and is a very impressed female. One of the best Natural Law cows in existence as she is massive-ribbed, excellent-uddered, long-fronted, big-boned, and productive. A maternal brother, Brookings Chosen One, was a top seller a couple of years ago to Murray Ranches. Many maternal sisters have sold and shown well for us. Including one that won the 2024 Farmfair International Junior show.

**Brooking Beauty 8187** - Dam

# BROOKING BULLS

## ELLINGSON BADLANDS SONS

A low-birth-weight son of Badlands on a first-calf Freedom daughter. All of these Badlands sons calved out extremely well for us on heifers. Brookings Badlands 5047 is moderately framed, big-hipped, has a traditional head, and has extra substance to him. He is in the top 15% of the breed for weaning and yearling weight EPD and top 3% for foot angle. His dam is a big-ribbed and maternal-looking female. The third dam is EA Rose 918, the matriarch of the Rose cow family for us.

78	803		-0.1	+48	+96	+32	+8.0	+7.0

Recommended for heifers. A feature calving ease herdsire that could be an ai sire candidate. Interestingly, one of the very first sons of the \$150,000 Coleman Below Zero to sell in Canada. Brooking Below Zero 5135 is a moderate-framed, muscular, well-made, good-footed, straight-topped herdsire prospect that has a lot of resemblance to his sire. His dam, Brooking Rose 1019, has been an absolute factory with a wide swath of influence, with several sons being AI sires and a long list of elite daughters. With Rose 1019 no longer with us, this will be among the last opportunities to acquire a son, and this might be her best calving ease herdsire yet.

**Soo Line Rose 1019** - Dam of lots 43 & 44

**Coleman Below Zero** - Sire

An intriguing result from our ET program. The only Territory son we had. When touring Schaffs, we loved the Territory sire group and his dam. That is why we purchased SAV Theory 2914 as a paramount sire to continue with. When flushing Rose 1019, it was an easy choice to flush her that way. We always try to line up some great cows when making breeding decisions, and this pedigree is stacked.

One of the things I love about trying to raise and own elite Angus cattle is the people you get to meet. We are fortunate to have met and become friends with people from all around the globe. Brooking Glacier 5040 is the kind of bull that creates those kinds of opportunities. He is physically imposing with his power, correctness, and elite quality. His dam, Bar-E-L Bride 28C, we own with Coleman Angus and Canadian donors, and was a \$100,000 acquisition. She has been a tremendous investment. She is one of the absolute best Natural Law daughters on the planet and is a sight to behold. A flush mate sister sold in our 2025 fall female sale to Oscar Sebastian and Rancho El Nacimiento, Mexico. Join in on one of the elite Angus bulls to sell at Brooking.

**LOT 46 & 47** A pair of our brothers that will be among the first Coleman Mendoza sons to sell in Canada this year. They were raised at a cooperative herd and arrived a little greener than our calves yet have done extremely well since. They are long-bodied, sound-made, good-haired, and attractive up front. Possibly the most exciting part is they are direct sons of our #1 income cow, Brooking Beauty 333. Who has been an influential part of our operation and has had many of our top-selling and in-demand progeny in our sales. She has 170 progeny to date in Canada and will hit over 200 this year. For us at Brooking, everything is always about the cow, and here we have our absolute best.

Granddam

**Brooking Rose 3011**  
Daughter

Brooking Next Generation 1038 was the top-selling bull in our 2022 bull sale at \$85,000 to Voss Angus, IA. He is a well-made bull that is square-hipped, possessing extra muscle shape, an attractive and smooth front end, with an ideal angus head. With his second calf crop on the ground, he is proving to be a low birth weight SAV America son while still boasting a top 10% for weaning, claw, and top 1% for RE. His dam, Soo Line Rose 1019, is an iconic figure in the Angus breed and is highly regarded by many esteemed breeders. She has produced several notable maternal brothers to Brooking Next Generation 1038, including National, Revival, Renovation 9327, Major, Real Estate, and others. This impressive lineup of maternal brothers further demonstrates the genetic excellence and consistency of the Rose cow family.

**Soo Line Rose 1019 - Dam**

# BROOKING BULLS

## BROOKING NEXT GENERATION 1038 SONS

**LOT 48 & 49** A pair of ET brothers that are sure to impress. They are moderately framed, stout-made, muscular, good-footed, and good-haired. Their dam, Brooking Royal Lass 2116, is an absolutely beautiful female and among the best ever born at Brooking. She is ideal in her structure, angular and maternal-looking, wide-hipped, nicely uddered, and has an elite-level phenotype. We have big plans for her future. A full sister to those two bulls was lot 1 in last year's female sale and sold for \$110,000 to ZWT Ranch. We showed her at Agribition and had several astute cattlemen from around the globe claim her as the best heifer at Agribition.

## BROOKING NEXT GENERATION 1038 SONS

Brooking Next Generation 5034 is a large-outlined bull with extra stretch, a big rib cage, and wide hips and stands on extra bone. He was a heavy rascal at weaning, earning an 839lb WW. His dam, Brooking Beauty 1043, is a donor female for us and ZWT Ranch. She sold half interest in our 10th anniversary sale for \$75,000 to ZWT Ranch. She is a bold female with extra power and substance and is extremely wide in her hips and has an immense amount of shape. The grandam is Brooking Beauty 6051, who was a game-changer donor for us and is most known as the dam of Brooking Emerald 9179.

One of the most balanced overall bulls in this sale offering. He is level in his top, full in his forerib, square-hipped, wide-pinned, great-haired, his back leg sits right under him, and he has a herdbull head. His dam is the highest-valued female ever at Brooking, half-interest sold for \$100,000 to Knutson and Rideau Angus. She is an incredible female that won every division she was in for her two-year show career. Her first daughter sold last fall for \$42,500 to Bohrsen and Kamlah. The grandam is Brooking Beauty 6051, who is most noted as the dam of Brooking Emerald 9179. Note: 5080, the recip dam, was injured in the spring and limited his weaning weight. However, he has done extremely well since weaning.

Tres Marias C237 Centenario is the reigning Grand Champion bull at the world famous Palermo show in Argentina. He also was crowned Reserve Grand championat Palermo in 2022 as a calf. If you visit with anyone who has been to the Palermo show they will tell you how amazing and electric the feeling of being there is. The crowd, atmosphere, pride, history, heritage and legacy is like no where else in the world. When Centenario won in 2024 Lee and Dawn Wilson were the judges of that prestigious show. We are thrilled to be partnering with Tres Marias to bring you fresh outcross genetics from one of the worlds most pretigious Angus operations.

There is no where else in North America you can acquire these incredible genetics sired by the 2024 Palermo Grand Champion bull. These bulls keep getting better and better with time and I am excited to see their influence in the years to come. Fransico Gutierrez is regarded as one of the best breeders of Angus cattle in the world and he says that the dam is one of the best donors they have at Tres Marias. She is sired by Federal who was the Grand Champion bull at Palermo in 2013 and 2014. Her maternal grandsire is the legendary Zorzal. Zorzal is one of them most influential sires in Argengtina history. You can be assured of the depth of quality in these pedigrees.

MATERNAL GRANDSIRE

All of these Argentina bred bulls were small when they were born. At just 77 pounds at birth I feel this moderate and muscular bull will sire moderate birth weights. I also really think these bulls have some intriguing characteristics that I bet when mated to some North American genetics we will see some incredible results. The dam Tres Marias B768 is quoted as possibly Tres Marias best donor. She is sired by Serrucho, the two time Palermo Grand Champion bull in 2015 and 2016. Her maternal grandsire is Euro, who was "sire of the year" several times in Argentina.

# BROOKING BULLS

S A V CUT ABOVE 6271 SONS

**LOT 60 & 61** Yeah, you are reading this right, we have two direct sons of the great breeding female, Brooking Beauty 6051. They are destined to work as cow bulls to help inject some length, power, look, and maternal goodness. I could imagine how impressive a group of calves would be out of these two. The dam is incredibly potent and injects extreme quality into all of her progeny. Look at their weaning and yearling weight EPS. They are in the top percentiles of the entire breed. These two bulls were raised at a cooperative herd and showed up fairly green yet still weighed, respectively, after being weaned and hauled to our place. Use these bulls with confidence.

## KT JACK SMASH 3284 SONS

Recommended for heifers. Brooking Jack Smash 5013 will be a five-star herdsire prospect that is loaded with shape and stoutness in a modest frame size. He has good hair, stands on extra substance, and is muscular made. His dam is an extremely easy-fleshing and quiet Renovation daughter. His sire, KT Jack Smash 3284, was the high-selling bull at KT Ranches for \$87,500. His dam, KT Chloe 1021, is a full sister to the breed great Coleman Chloe 9275 valued at \$750,000. Here is a calving ease bull with all the extras.

SOO LINE ROSE 1019 - DAM

Recommended for heifers. Brooking External Law 5141 is the maternal package combining the great Bar-E-L Erica 74A and Soo Line Rose 1019. He is a moderately framed, level-hipped, and quiet-natured bull. He stands on good feet and is sound moving. The dam, Rose 1019, has been an incredible source of genetics, with many sons and daughters having huge influence for their owners and the breed. The grandam, EA Rose 918, is the matriarch of the Rose cow family and is considered an ideal Angus female by many.

BROOKING ROSE 9076 - DAM

Recommended for heifers. Just a March-born bull that is really clean and attractive-made. Starting at his 82 lbs and breaking the 800lb weaning weight barrier. His flush mate sisters are really nice, and we are excited to see them in production. His dam, Brooking Rose 9076, is in a league of her own for injecting an attractive look while still having a big hip and plenty of performance.

# BROOKING BULLS

## UNBELIEVABLE & PANTHER SONS

A mid-March son of the \$50,000 Covey Hill Unbelievable 4J that certainly has a lot to offer. He is deep, stout, and hairy. Very similar to his dam and grandam.

Recommended for heifers. LFE Best Answer 800H was a \$50,000 acquisition from Lewis Farms and he has been a go-to sire for sure-bet calving ease and has been highly proven. The dam, Brooking Beauty 3233, is a full sister to the impeccable Brooking Emerald 9179.

**RF Scream 974G** - Dam

**RF Scream 5117** - \$170,000 Maternal Sister

We have been investing in some Simmental genetics the past few years. Rule #1 has always been to only work with the absolute elite cows of the breed. RF Scream 974G is exactly that. Not only is she incredible to look at, she more importantly is very productive. Last fall, a daughter sold for \$170,000 at FNL and we consider her one of the best Simmental heifers we have seen. Other maternal siblings to name a few include the \$100,000 RF Intensity, \$70,000 Intense, and the recent Farm Fair Supreme Champion female. We sold a full sister at FNL for \$42,500 to LA Ranch and Horner Cattle Co. Brooking Journeyman 5180 is wide-hipped, big-topped, stands on an awesome foot, and is extremely quiet.
