www.fleurycattlecompany.com

Welcome to Fleury Cattle Company's 2026 Two-Year-Old Black Angus Bull Sale. As we reflect on this past year, we have so much to be thankful for. The cattle industry has experienced record highs creating increased profit in all sectors of the industry. The demand for our product has never been greater and it is an opportune time to be involved in the cattle industry.

On a personal note, Cassie and I welcomed our son, Jack Ray Fleury, into our family in May 2025. Jack is an incredibly happy little boy and he has brought immeasurable joy into our lives. We can't wait for you to meet him at the sale.

This year marks 25 years as a seedstock operation. We have seen much change over this time but one constant for us has been our vision for breeding Angus cattle. We understand the importance of improving genetics. We do not chase fads or follow trends but instead continue to build off our proven genetics to offer predictability for our customers. We at Fleury Cattle Company believe performance drives profit and continue to breed performance cattle with the most current outcross Canadian Angus genetics available today.

We are proud to say that 98% of this year's offering is sired by our home raised bulls. We know these cattle and continue to breed and market them with the utmost confidence for our customers. This would not be possible without the continued trust and support from our customers. It is a privilege working with such quality cattle producers and we truly value these relationships. Thank-you for trusting us year after year.

On offer this year will be 55 two-year-old Black Angus bulls. The sires of these bulls are carefully selected and backed by our prominent cow families; these lines have contributed to the success of our program. Our genetics have been tried and tested, eliminating any guess work and ensuring future success for our customers. When sourcing breeding stock from Fleury Cattle Company you are investing in a proven breeding program. Many of the bulls on offer are ½ or ¾ brothers, enforcing dependable genetics necessary to guarantee quality and predictability.

We invite you out to the ranch any time prior to the sale to view our sale offering. All sale bulls will have videos on DLMS and our website for you to view at your convenience. We encourage you to attend the sale in person and look forward to seeing you on sale day.

■ STANDING BEHIND WHAT WE SELL

All bulls in the sale are semen tested, scrotal measured, and inspected by a licensed veterinarian. All buyers will be provided with a semen evaluation.

■ SIGHT UNSEEN PURCHASE PLAN

If you are unable to attend the sale, you can have Matt handle your purchase. Nobody knows the bulls better than Matt, and he can assist you in the selection of your bull. Please contact him by phone at 306.291.3960

■ TRUCKING

Free delivery to Saskatchewan, Manitoba, and Alberta. For purchases going beyond, we will help accomodate delivery as economically as we can. All bulls will be delivered to your farm or central points following the sale.

■ TERMS AND CONDITIONS

TERMS The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and, in cases of disputes, the auctioneer's decision will be final.

Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced on sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

HEALTH All animals in the sale have met all necessary health requirements.

GUARANTEE Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects, and from both reproductive and specific genetic unsoundness.

LIABILITIES All persons attend the sale at their own risk. The seller, facility owner, auctioneer, and sale staff assume no liability, legal or otherwise, for any accidents that occur.

INSURANCE Agents will be in attendance to insure your purchases. We strongly recommend that insurance is purchased for full value.

THE RIGHT TO COLLECT SEMEN Fleury Cattle Company reserves the right to collect semen for within herd use on any of the bulls sold at their expense and the buyer's convenience

■ BULL DEVELOPMENT

I believe bull development starts from the day they are born. At Fleury Cattle Company, calving starts April 20th; the calves are born on grass in their natural environment. Canadian winters get very cold and spring calving eliminates any stress that the cow and calf may experience by calving in the cold. Calving on grass is virtually stress free for mama and baby.

The calves are raised on the cow for six months with no creep feed. Calves are weaned in November and in the first year the yearlings are put on a TMR ration not exceeding 1% of body weight of grain per day, maintaining a 2.5 lb daily gain. Feeding the bulls out on a light ration promotes growth development; the bulls are not pushed. The first week in May they are then turned out on seeded forage pastures where these bulls grow frame and are developed in a natural environment. The bulls walk for their feed while grazing all summer. This grazing process develops their athletic ability, frames the bulls out, and develops their joints and muscle at an acceptable pace.

We bring these bulls home from grass in early fall and they are put on a TMR ration designed for a 3-3.5 lb daily gain. These bulls are developed with longevity in mind. On sale day these bulls will have reached 75% of their mature weight as a two-year-old. Running two-year-old bulls gives a better idea of what that bull is going to mature into. Two-year-old bulls are capable of covering more cows and require less development. We believe a two-year-old bull is past the calf stage, knows he is a breeding bull, and is ready to go out and breed cows.

As agriculture evolves we notice farms and ranches expanding. With this growth, operations need to be more efficient and economical to sustain a profitable operation. Due to ranchers expanding their cow herds, cattle are run in larger groups and the demand for two-year-old bulls has never been greater.

Fleury Cattle Company only sells two-year-old bulls and every bull goes through our Bull Sale. No yearling or two-year-old bulls are sold off the ranch. We believe in developing our bulls for our customer. We are proud of the fact that all bulls sale day are ready to breed and cover more cows and also have a better chance of survival when turned out into multiple bull breeding fields.

■ FLEURY CATTLE COMPANY EPDS

As a seed stock producer, Fleury Cattle Company is committed in providing accurate data. Straight Canadian EPD data has not accumulated enough accuracy to become a true reflection on these genetics. We continue to work with the Canadian Angus Association to build accurate EPDS on Canadian bred cattle.

■ IDENTIFYING CANADIAN PEDIGREED ANGUS CATTLE

Animals with a standard three generation pedigree made up of all Canadian genetics will receive a designation of "Canadian" and a maple leaf will adorn the registration certificate.

Animals with a five generation pedigree made up of all Canadian genetics will receive a designation of "Straight Canadian" and a Canadian flag will adorn the registration certificate.

TRUE NORTH

FS FLEURY TRUE NORTH 33L

FUTURE HERDSIRE As we have watched the Northern females mature in our cowherd, we have really grown to appreciate the longevity, femininity, and quality udders that this line of cattle offers. Fleury True North 33L is a bull that combines everything that we look for in a herd bull. He is packed with style, extremely heavy muscled, and just has that herd bull look. His dam, Fleury Princess 36G, is a female that is long, feminine, and has proven herself to be quite the producer. The Princess cow family has been a top cow family in our program for many years. FAR 33L's sire, Fleury Northern 12D, was extremely sound-footed, deep-bodied, and heavy-muscled. We have great expectations for this young herd bull and believe Fleury True North 33L will have a major impact on the future of our breeding program.

Sadie

2009-2025

Our family lost a very important member this year. Sadie played a major role in Fleury Cattle Company during the 15 years we had with her. She was a natural at working cattle and did it with heart. She will be greatly missed.

Fleury Jumbo 14K was used as a yearling on a select package of heifers. This young herd bull currently resides at Lawrence King's of Warren, Manitoba. The Jumbo line of cattle is known for their longevity, udder quality, and overall smoothness promoting calving ease. This young herd sire's dam, Fleury Ruby 108C's, cow family excels in easy fleshing ability, overall thickness, and eye appeal.

We have always admired the Winston line of cattle. This line is known for overall smoothness, style, calving ease, and exceptional females. With no doubt Fleury Winston 143J is the most complete Winston son we have raised to date. FAR 143J is a massive, deep, heavy-muscled bull with a big foot. His dam, Fleury Annie K 27E, is a top producing cow raising two sons retained in our breeding program. FAR 27E is a deep-bodied, easy-fleshing female who is a sure bet to have a top calf every year. Her dam is the well-known Double AA Annie K 53S, who registered 15 natural calves through the Canadian Angus Association. RCE 53S was a special cow in our program, producing sons selling to numerous seed stock operations throughout Canada and many top females retained in our program. If you are looking to retain replacement females with predictability and longevity, I strongly recommend the offspring of Fleury Winston 143J.

Fleury Headliner 133J was a pen favourite retained from our 2023 two-year-old pen of bulls. We felt FAR 133J was an easy fit to continue this line of cattle for our breeding program. Fleury Headliner 133J excels in length, style, and is an extremely heavy muscled bull. His dam, RCE 903D, has sure made her mark on our breeding program. We have extensively used two of her sons, Fleury Winston 26F and Fleury Headliner 133J. Double AA Blackbird 903D is an exemplary cow who has played a substantial role in the development of our cowherd. We encourage our customers to have a good look at FAR 133J's progeny. This herd bull is very maternal; his progeny will sire top replacement females.

Fleury Bardolene 41H is a high-performing, long-bodied bull who will enhance frame score in your cattle. His dam, Ranchers Choice Duchess 214D, is feminine, carries a gorgeous udder, and has lots of depth. She continues to be a favourite of many visitors when touring. FAR 41H's progeny will be sure to give you that added performance while producing top replacement females.

Fleury Bardolene 54G is a herd bull that is appreciated for his overall correctness, style, thickness, and muscle. He is moderately framed and extremely easy fleshing. The Bardolene line has been the corner post of our breeding program for many years. His dam, Double AA Annie K 904D, is a powerful cow with a big foot and plenty of thickness. Fleury Bardolene 54G has produced many respectable replacement females retained in our cowherd. His progeny are moderate in birth weight while still excelling in performance.

Fleury Jumbo 118G promotes length and performance, and will add that extra frame into his progeny. The Jumbo line has proven itself to be very hardy, aggressive breeding cattle. The Jumbo daughters are feminine, smooth, and consistently have a beautiful udder. FAR 118G's dam, Fleury Blackcap 11C, was a top producing, model Angus female who has left quite a legacy. If you are looking to add frame score, length of body, and strong maternal traits, we highly recommend looking at a Fleury Jumbo 118G son.

Fleury Blackman 42F is known for his overall style, muscle, and thickness. We admire the heel and big foot under this bull. He was an absolute standout as a calf and has continued to impress us as he has developed into a mature bull. His dam, FAR 167B, was a top producing cow in our breeding program. Fleury Blackcap 167B was known for her femininity, balance, thickness, and style. The Blackcap line of cattle was the first cow family established at Fleury Cattle Company. This cow family is extremely maternal and are big producing cattle. The females off of FAR 42F are deep-bodied, feminine, and have that stylish Blackcap presence. His sons are stamped with eye appeal, thickness, and are full of performance.

	-3.0	2.3	31	47	27	9.0		80		

Glen Islay Headliner 12E has bred extremely well for our program. Sons have sold throughout Canada and into the US and we couldn't be happier with this sire's progeny. JPC 12E's daughters are in full production and have proven themselves as hard-working females. Glen Islay Headliner 12E will add muscle and depth. His progeny are extremely easy fleshing and are quiet-natured. JPC 12E has offered our customers a complete outcross pedigree on the top-side, allowing us to line breed the maternal side back into our program. JPC 12E's dam, Double AA Annie K 203'06, was a prolific cow within the Angus breed, proving herself to be a top producer by raising many herd bulls and replacement females throughout Canada.

GOLD RUSH

FUTURE SIRE Glen Islay Gold Rush 7K comes to us from Don Currie of world-renowned Glen Islay Angus, whose lifetime devotion to the Angus breed is admirable. We feel Gold Rush is a great fit for our breeding program, combining all the traits we like to see in a herd bull. JPC 7K is extremely thick, stylish, heavy-muscled, and has a lot of quarter. He was the highest performing bull in Glen Islay's yearling pen, earning the heaviest weaning and yearling weights. Gold Rush's sire, Double AA Bardolier 119U, is a bull that has made his mark on the Angus breed. He has bred extremely well for Glen Islay, producing many top bulls and females marketed throughout North America. JPC's dam, Glen Islay Pride 2E, is a long, smooth-bodied, feminine female who has a beautiful udder. Glen Islay Pride 2E created quite the interest when she sold for \$26,000 through the 2023 Blue Water Angus sale. We look forward to the spring of 2027 as it will be the first time Gold Rush's offspring will be offered in our sale.
