# GRACO ANGUS RANCH

With great excitement, we welcome you to our third annual bull and female sale. With the incredible cattle market we have been experiencing, we decided there was no better time to move our sale to a live auction and sell our bulls and heifers through a sale ring at the ranch!

The last year has been busy and flown by but has marked a few new milestones for us. First and foremost, we found out we will become grandparents this May as Cole and Kate welcome their first child into the ranch and we can't wait to meet the little cowboy! Another first was taking our animals to CWA! Lots 1 and 2 were in our pen of three bulls in the yards and were first in class in the pen show. Lots 8 and 13 were exhibited in the show barn where lot 13 placed first in his class.

This year's offering once again consists of bulls we think will add pounds to your calf crop and frame to your replacement pen. Feel free to reach out to myself or any of the sales staff with any questions and take this as your personal invitation to join us April 13th for a live sale and hospitality at the Graco sale facility.

Sincerely,  
**Graco Angus Ranch**

## FROM THE DESK AT T BAR C

Welcome to the Graco Angus Bull & Female Sale.

Kent and Maureen Schmidt are proud to host the third annual Graco Angus sale, and this year marks an exciting step forward as the event moves to a live auction format. While the sale may be young, the Graco program has already begun to establish a strong reputation for producing cattle that are required to meet a very high standard.

Graco Angus is not a program built on large numbers, but rather on a commitment to quality. Kent and Maureen have focused their efforts on building a cow herd backed by strong maternal genetics, structural soundness, and practical performance. The result is a set of cattle that are functional, consistent, and designed to work for both seedstock and commercial cattlemen.

As you study the pages of this catalogue, it quickly becomes evident that while the offering may be moderate in size, the quality runs deep. Both the bulls and females represent the type of cattle that have made the Angus breed so popular across the industry—sound, productive, and backed by proven cow families.

The bulls have been developed with longevity and real-world performance in mind, while the females represent the kind of breeding pieces that can move a program forward. Each individual has been selected with the same focus on quality that defines the Graco program.

We encourage you to take the time to study the offering and visit with Kent and Maureen prior to sale day. Their passion for good cattle and their commitment to their customers are evident in everything they do.

We look forward to seeing you at the third annual Graco Angus Bull & Female Sale and congratulate the Schmidt family on the continued growth of their program. We hope that you are able to join us sale day but if you are unable and require any assistance prior to or sale day do not hesitate to reach out to any of us on the T Bar Team.

This Bravo daughter has all the makings for a Jr to hit the spring show circuit and hang banners just like her dam. Owned by Kate Webb
