welcome to our annual *Bull Sale 2026*

On behalf of all of us here at Hawkeye Ranching, I would like to welcome everyone to our annual bull sale. It is truly gratifying to have such an amazing group of people support us each and every year. We are constantly striving to provide you with a product that will help achieve your goals. Our main goal is to produce a bull that lasts the rigors of the breeding season in the toughest conditions that could possibly be thrown their way. We strive to produce and manage these bulls for longevity and durability for the customer's benefit, not the short-term goal of having the biggest fattest bulls come sale day. Our cow herd is run in big fields and wintered on dry feed and mineral alone. They need to be able to walk big miles, calve on their own and they better mother their calf from day one. We appreciate cows that successfully do it on their own.

Along with our purebred herd, we also run a decent sized commercial herd that helps us stay tuned to the commercial industry. This herd is a very productive herd, constantly weaning off the April/May born calves second or third week of October at well over 600 pounds year after year. We also attend numerous sales at the local auction marts to stay tuned to the industry. I always say that I like going to canner cow sales any day of the week rather than any big cow show. We love seeing people's cattle and get a sense of their herds at these sales; the good, bad, and the ugly. I don't just want to see everyone's good ones, I want to see the bad ones too.

As far as the family goes, I like to keep everyone updated annually in the sale's welcome as well. Melissa

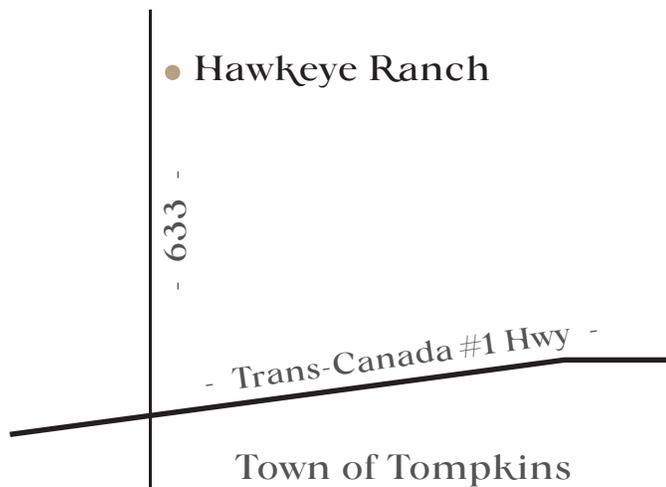

is currently back to her dream job. Everyday she asks me how she ended up being so lucky. Emma has completed her sonography education and recently started her full-time job in Medicine Hat doing ultrasound. We couldn't be happier for her and we are all excited that she is able to do it fairly close to home. Kolt is going to be graduating high school this year and is planning to take business in Medicine Hat as well. We could have been empty nesters as of this year. However, Melissa had to have funny ideas thirteen years ago and we will still have Manni kicking around. It's a good thing too, because he seems to be foreman in training and has all of the hand signals down pat so if I am gone, he will be able to direct Melissa around and she won't miss a beat. As for me, my pelvis is finally feeling better almost two years after my quad accident. Apparently, I also had a fatty liver, so I went on a diet and have lost a few pounds and feeling better than ever. Now that you are up-to-date, we hope to see everyone soon.

Leif & Melissa Brost

Cole, Sara, Grady, & Weston Brost

Again, this year we feature some bulls out of cows from my brother's family. These bulls are the ones out of the SR prefixed cows. Sara, Cole, Grady and Weston have a good set of cows that raised some outstanding bulls once again. They run side by side in the same fields as the Hawkeye Cows.

If you have any questions regarding any of the bulls in the sale, feel free to give him a call and he will give you an accurate analysis.

Cherished Forever in our Hearts

This past year our family has, yet again, experienced a tremendous loss. Just a week and a half after last year's bull sale, I received a phone call I hope other people don't ever have to experience. On the other line was my sister while EMS had taken over from her trying to save her son's life. All the efforts failed and we lost him that night.

Carter was my Godson and was in a battle that eventually became too much for him to fight. Sadly, our health care system failed him, which is becoming too much of the norm for many. Mental health struggles are not taken seriously enough by most of our medical system, especially in our youth. They keep telling them to reach out and ask for help. That is exactly what Carter did and

my sister took him for help. Instead of helping, they got sent home with nothing and no support. A week later he was gone. Unfortunately, his story is not an isolated case and yet the government does not seem to care. Too busy with the talking points and politicking instead of actually making a difference in people's lives.

Carter was a ray of sunshine. When he entered a room, you knew he was there. He was always thinking of others before himself. When Carter set his mind to something, he did it well beyond what was expected. He loved basketball, football, Scooby doo, hot chocolate, his friends and, most of all, he loved his family. We all miss you Carter and are devastated that we couldn't get you the help that you so desperately needed.
