

K-COW RANCH

15TH ANNUAL BULL SALE

With Guest Consignor: KC Stock Farm

March 21, 2026 | Elk Point AB
Lunch @ Noon | Sale at 1:30pm

K-COW RANCH

Welcome

We're encouraged by the continued strength in the cattle market, with forecasts pointing toward record highs again this fall. It's an exciting time to be involved in the cattle industry, and we're proud to welcome you to our sale with a set of cattle that reflects that optimism. This year's offering represents one of the most consistent and complete groups of bulls we've raised from top to bottom. Alongside them, we are pleased to offer a select group of 12 top-end open heifers, a carefully chosen set of high-quality females we are extremely proud of and excited to make available to our customers.

As always, bidding is available in 3 ways:

1. In person
2. Call one of our sale day contacts or ringman to bid on your behalf
3. DLMS Online Bidding

We invite you to stop by the ranch anytime prior to sale day to view the bulls. There is always someone available to give you a tour, visit cattle, and answer any questions you may have. We're also pleased to welcome back Cole Dodgson of KC Stock Farm, whose Red Angus bull offering continues to be a strong addition to the sale.

We remind you that we do have our own WARRANTY program available with details on page 50 of the catalogue. *NOTE: The K-Cow Warranty program applies only to K-Cow Ranch bulls. All sale bulls will receive two doses of Fusogard for footrot prevention.*

Thank you for considering K-Cow Ranch genetics. Customer service is a priority for us, and we take pride in standing behind both our cattle and our customers. We are always available to answer questions, offer support, and help you select cattle that will work in your program. We appreciate the opportunity to earn your business and look forward to visiting with you, showing cattle, and helping you build a productive, profitable herd.

Sincerely,

Kevin, Janice, Kailey & Lexi Wirsta

It has been a privilege to work with the Wirsta family these past years. They are an exceptional cattle family and work diligently to ensure a top quality product for their clients. They institute a modern herd vaccination program to minimize dependence on antimicrobial therapy and to ensure their livestock has the opportunity to fulfill the genetic potential they have strived to develop.

Both Kevin and Janice have a keen and critical eye when assessing the conformation of their herd members and the result of this brings both eye appeal and functionality. Janice, Kevin, Kailey and Lexi are exemplary Canadian Cattle producers and epitomize what a Canadian farm and a healthy accountable product should be.

Homo Polled | PA Carrier | Maternal brother to C-35N on page 8
 35M is standout in the offering. We used him on our heifers last spring, as he comes from a foundation cow family known for maternal strength and longevity. We are extremely impressed with this bull, his calves on the ground are growing like weeds and are shaping up to be stout and good structured, with huge potential. A complete package combining calving ease, consistency, and proven performance that will leave a lasting impact on any program.

Knockout combines a massive performance design and cowmaker phenotype with superior soundness, fertility, docility and all the elements that make great cattle. He is an extremely impressive individual with abundance of muscle, body shape, and depth of rib in a modest frame size approach. He has mass and performance with an attractive look.

His first and second calf crops have already shown us what a curve bender he is. His offspring are all that we had hoped for and then some, as they are easy fleshing, deep end-to-end and are extremely attractive throughout! We're confident that he'll continue to make a lasting impact on our herd for years to come! *Owned with Triple A Herefords*

K-Cow Heza Final Draft 5M is a bull that commands attention the moment he steps into the pen. Bold in his design and built with the structural integrity we demand, he carries muscle, depth, and presence with ease.

Sired by K-Cow Knockout 79K, the 2024 Canadian Western Agribition Reserve National Champion Bull, Final Draft blends Knockout's power and mass with the proven maternal legacy of the late Sophia 5Z, a cow whose influence on our program is rooted in fertility, longevity, and productivity.

Final Draft is the only natural-born Sophia × Knockout son that will ever exist, making him truly one of one.

His profile reflects the balance we strive for: sound structure, muscle expression, growth, and maternal strength. Whether your goal is standout replacement females or powerful, performance-driven bulls, Final Draft offers the presence and genetic integrity to move your program forward. **Bold. Timeless. Impossible to rewrite.**

Heifer Approved
 34M is backed by some of the most productive and maternal cow families. Generations of fertility, udder quality, and longevity stand behind him, giving confidence in the kind of daughters he can leave behind.

Milton offers balance, functionality, and the kind of predictable genetics that build cow herds the right way. If maternal strength and long-term productivity matter in your program, 34M deserves a serious look.

GRANDDAM - EMPRESS 66D

71N is a big-time feature bull deserving of serious attention. He has the presence, stoutness, body, and eye appeal of a great one, the kind that commands a second look every time you walk through the pen. His dam, 71F, delivers a feature bull every time she calves, and the Empress cow family continues to prove itself as an outstanding, cornerstone line in our herd. We're especially excited to have a heifer calf from this family on the ground this year, ensuring this proven legacy carries on.

Heifer Approved

75N is a big-time sale feature and a true herd sire prospect. Halter broke and shown, he is smooth made, clean fronted, and carries himself with herd bull presence, we believe he has an exciting future ahead. His dam, Beauty 75E, is an exceptional cow whose influence is evident throughout this year's offering, including A-60M, A-60N, and A-40N.

K-Cow Modem 17M... wow, what a bull!
 Modem has developed into a true feature of the pen, a bull with the kind of presence and substance that immediately draws your attention.

Striking in appearance, 17M blends eye appeal with functionality. He moves freely and confidently, displaying balance, muscle shape, and dimension that make him easy to appreciate from every angle.

This bull is built with the complete package: length, depth of rib, stoutness, and structural correctness. He's the type of bull that works in the pasture while still standing out in the pen, combining style, substance, and practicality in a way few bulls can match.

For anyone seeking a herd sire with the look, power, and balance to make a lasting impression, K-Cow Modem 17M is a standout you won't want to miss.

THREE GENERATIONS OF REGISTERED ANGUS GENETICS

Welcome

Well another year gone by and we are are back to bull sale write ups, including the welcome for this years bull sale I think back on the year I think there is nothing more memorable than the cattle sky high cattle market! The cattle market is sky rocketing with never foreseen prices and heavy weight weaning calves are bringing on top dollar at the auction marts, now is the time to sell off the old bulls for the same prices that you bought them and get in on new gentics and refill the bull battery at your operation, With that said I'd like to welcome you all to the 15th annual K-Cow bull sale and also would like to put out a huge thank you for Kevin and Janice Wirsta for allowing me to continue the consignment into this bull sale. I've been here helping manage the K-Cow herd along with my herd at my own operation 5 minutes down the road.

But let's just specify now on the red bulls and the two BLACK RED CARRIER bulls in this years bull sale, first get to explain the elephant in the barn. Yes there is only 5 bulls this year, no I didn't sell out but are doing a transition 2026 bull sale year with moving the winter calving herd into the spring to provide coming 2 year old bulls and more into the fall to provide more long yearling bulls. So that being said this years offering might be small but worth the time and investment into your operations.

There is a great selection of heifer bulls and power herd bulls with exceptional gentics, epds and phenotype. All bulls are bred for performance, longevity and with calving ease in mind no matter if your looking for heifer bull for sleep easy calving or the performance bulls to add more power and replacement value back into your herd. I believe there is a bull for everyone in this pen.

I'd like to invite you to stop in and view the bulls anytime prior to the sale, or check the bull sale videos online. If your unable to attend the sale in person, please don't hesitate to contact myself or Kevin to discuss your needs on ANY OF THE BULLS. Hopefully you can make the sale Saturday, March 21 at the K-Cow Sale Barn. Hope to see you there and hot lunch will be waiting for you at noon.

Best Regards,

Cole Dodgson

45N is a sale highlight and a heifer that catches your eye. Pretty, balanced, strong topped, and square hiped, she's loaded with body and volume. From a cow family that consistently produces cattle of the same quality, clean and extended front ends, a maternal sweep to the belly, near-perfect udders, and true femininity. We used a maternal brother to 45N's dam on all our heifers last spring, and we couldn't be happier with how his calves are developing, 45N is a perfect example of that consistency and quality.

K-COW WARRANTY PROGRAM

*** APPLIES TO K-COW BULLS ONLY**

K-Cow Ranch guarantees to sell a bull that is sound and has passed a semen test by an accredited veterinarian. Should any bull purchased through K-Cow Ranch's Annual Bull Sale fail to be a satisfactory breeder or be unable to physically service a cow or heifer, he will be replaced with a bull of equal value. Should this not be possible, we will issue a credit to go towards the purchase of another bull. We will not however provide warranty for mismanagement.

While under our warranty the bull is covered for injury, sickness or death. We will service your needs with a replacement bull or a sale credit for the following year. Should you have any problems with a bull please contact K-Cow and we will work to make sure your cows get bred and that you are a satisfied customer. We do have back up bulls set aside that will be the first step to cover off any warranty issues. K-Cow Bull Warranty is designed to protect your purchase during the most high risk time of a bull's life.

Duration - 6 months Rate - 8%

This covers the bull until September 30th of the year of purchase, which includes one (1) breeding season.

Replacement Bulls:

Replacement bulls must be returned within 90 days of delivery back to K-Cow Ranch. If not returned in this time frame, the bull shall be deemed a permanent replacement bull and no credit will be granted.

Calculation of Sale Credit:

Purchase price less salvage value (if applicable) less \$1000 for use of the bull (which will include use of a replacement bull) if applicable.

Exclusion to Warranty:

Any injury or death due to malicious, willful or intentional acts or mistreatment are considered fraudulent claims. Should any issue arise with your bull please notify Kevin immediately by phone 780-614-5959 or by email: kcowranch@gmail.com. You will also need to contact a licensed veterinarian to diagnose and treat the animal and fill out a vet form. If the animal dies, a post mortem will be required at buyer's expense.

THANK YOU TO ALL OF OUR 2025 BUYERS AND BIDDERS

TERMS

The terms of the sale are cash or cheque, payable at par, to be paid prior to possession. No release will be given until satisfactory settlement has been made. Every animal sells to the highest bidder.

ANNOUNCEMENTS

Announcements on the sale bid page, will take precedence over printed matter in the catalogue. Buyers are cautioned to pay attention to any online announcements.

BREEDING GUARANTEE

All animals in this sale are sold under the terms and guarantees set forth by the applicable breed association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

INSURANCE

Ownership risk to purchaser commences at the conclusion of the sale. Livestock coverage will be available on sale day.

LIABILITIES

All persons who attend the ranch do so at their own risk. The sellers, facility owner and sale staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.
