

Conformation Program
August 30th, 2026
Kinetic Park
Swift Current, SK

Welcome our Judge for the Day!

Mr. Dustin Frank

Dustin lives in the small town of Chappell Nebraska located in the western panhandle. There, he owns and operates Frank Cattle and Genetics along with his wife Kendra and their children Jesse and Ivy. Their business is a diverse Angus and Red Angus seedstock operation that is focused on creating bulls and females that are bred to serve the western cattleman. Along with the cattle business, they offer IVF reproductive services as a satellite location for Vytelle. When they aren't home on the ranch, he enjoys travelling with his family to different shows and events. He has had the fortune to judge some of the most prestigious cattle shows in the world, including the North American, American Royal, and most recently the market steer show at the National Western Stock Show.

OVER 100 WELLS DRILLED OVER 100 CONTAINERS DELIVERED

1200, 440 2nd Avenue SW
Calgary, Alberta T2P 5E9

www.nahelium.com

Geopolitically Secure & Reliable Supply

Operator of multiple helium purification facilities including Canada's largest – with total NAH production representing ~7% of North American supply

Non-Hydrocarbon Sourced Helium

Sourced from deep, high-pressure nitrogen fields that have significantly lower full-cycle* emissions than hydrocarbon-based sources

*Full-cycle is defined as estimated Scope 1, 2 and 3 emissions.

Strong Customer Focus

Over 100 liquid helium containers delivered to our customers around the world reliably and on time since 2020

Growing Production

Future volumes available on long-term contract or spot sales

Most Active Explorer

Over 100 wells drilled to date, with additional discoveries being advanced toward production
