

**YOUNG
GUNS
SIMMENTAL BULL SALE**

MARCH 30, 2026 · 1 PM · INNISFAIL AUCTION MART

Welcome to the 1st Annual Inaugural Young Guns Bull & Heifer Sale! We are incredibly excited to offer up a new sale at the world renowned Innisfail Auction Mart! Although this is the first sale, we all have many years of experience selling cattle within the commercial and purebred industry. Our sale is a smaller offering but one that is full of quality. Our focus has been to bring forth an offering packed full of potential that is going to work in all breeding situations and operations.

We are a consignor group that is made up of 'young guns', representing the next generation. We may be young, but we have been in the industry our entire lives! We would like to take the time to thank everyone who got us here from our families, mentors and previous buyers.

It is an incredibly exciting time within the cattle industry with cattle prices never seen before. Our herds are made up of cattle and genetics that stand the test of time that we hope will continue on in your own programs. Countless hours are spent sourcing cattle, acquiring genetics and doing research to ensure we are raising some of the best cattle that will perform in their new homes. We firmly stand behind what we bring to the sale and are very proud of our offerings. You can truly buy with confidence here.

Please come join us for lunch and a sale March 30th. We hope to see you there!

*Thank you,
The Young Guns Consignor Group*

TERMS & CONDITIONS

A \$100 will be taken off the sale purchase price if the consignor themselves takes their purchase home the day of the sale.

All bulls are backed by the seller and guaranteed to be satisfactory breeders as per the CSA Bylaws. All bulls of 12 month of age and older will be semen tested, palpated and scrotal measurement taken by an accredited veterinarian. Information will be available sale day.

All bulls returning to consignor's farm MUST be insured. Bulls can be kept at our farms at no cost up until April 30, 2026; after that \$5.00/day will be charged for feed costs. Delivery will be arranged as soon as it's mutually agreed upon by the seller and purchaser. Bulls will be delivered free of charge within 200km of consignor's location. Delivery beyond will be arranged at cost.

On behalf of myself & my family, I would like to take this moment to welcome each of you to the Young Guns Bull Sale - what an exciting time to be in the cattle industry!!

Cattle production is in my roots, going back many many generations, and we take pride in the commercial cows we have raised over the years. In 2020 I decided to build on my passion for the Simmental breed & expand our herd by adding several new purebred females sourced from many of my mentors in the breed. We utilize AI genetics & walking herd sires, also branching out into embryo transfers. I am passionate about the breed & connecting with peers whether at shows, sales or helping with bull sale prep.

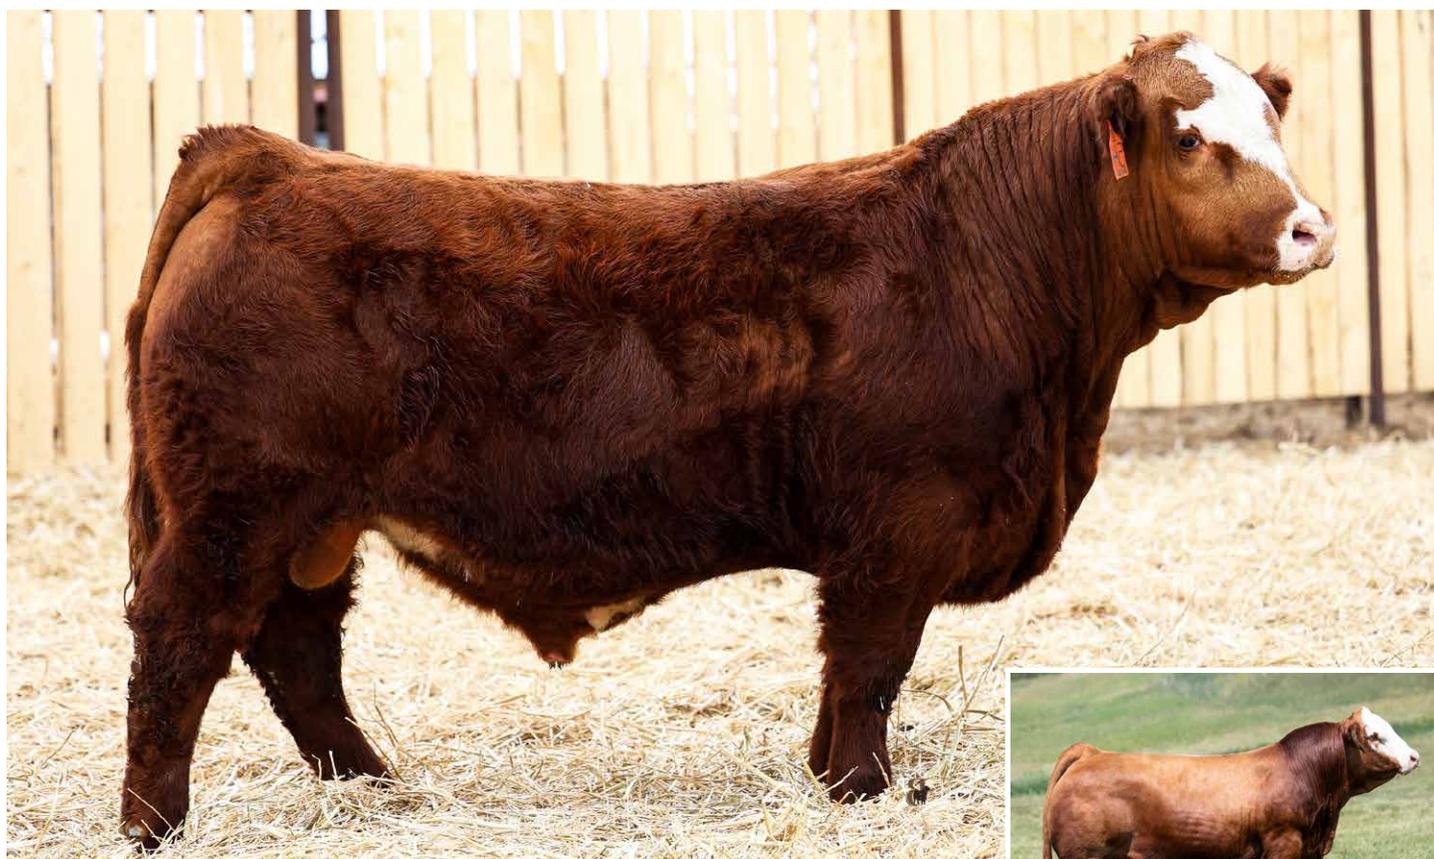

We are a family operation & all play an integral part in the day to day - my dad Alvin looks after daily feeding & fixing everything that breaks, my mom Charlotte does most of the calving checks, looks after our cattle records & helps keep my head on straight! I fill in where I can, having just graduated from Olds College in April & now working full time, it's important for all of us to play our part.

Our bull offering is small again this year with only 5 bulls but we are confident that each will add value to your future calf crops. Unfortunately there are no heifer bulls on offer, with that being said this is strong set of cow bulls. Our bulls are fed free choice wheat silage bales, grass hay, 15% bull ration from Trouw Nutrition, lick tank molasses along with salt/mineral. Our bulls are not pushed hard, we want them to develop for longevity & maintain condition during breeding season. *Below is our vaccination program developed with our vet - Dr. Rob deHaan with Innisfail Veterinary Clinic.

SPRING	FALL	SEMEN TEST
· BoviShield Gold One-Shot · Vision 8 Somnus	· BoviShield Gold One-Shot · Vision 8 Somnus · Safeguard oral dewormer	· BoviShield Gold · Covexin Plus · Fusogard (foot rot vaccine) · Ivermectin pour on

New this year we are offering some 'sisters' to the bulls - 2 groups of 3 daughters of 'KT San Quentin 3483L' & 'MRC Hammer 637J'. Each of these would normally be kept as replacements in our own commercial herd! We appreciate you evaluating our bulls & commercial heifers we have on offer.

Kaden

KT SAN QUENTIN 3483 SIRE OF LOT 1

JNLC MISS SCREAM 501N
 PATERNAL SISTER TO LOT 1

Nickleback has been a standout bull since birth! He is the sought after dark red with a splash of chrome, calm disposition & impressive growth on pasture! He had the highest ADG from birth to weaning @ 3.77lbs/day on straight grass - this is where you capture the highest net profit on your calves! His sire, KT San Quentin 3483L, combines some of the most elite genetics in the Simmental breed & one of the most easy going bulls we've walked here.

2

JNLC SHAWSHANK 508N

POLLED PERCENTAGE PRS1542473 JNLC 508N FEB 17, 2025

MADER WALK THE LINE 92J

BW	WW	YW	CE	BW	WW	YW	MILK	MCE	MWW
104	835		8.7	2.2	78.7	116.3	25.4	5	64.8

Shawshank patterns very similar to his paternal brother (Lot 1, 514N), with eye appeal, balanced conformation & easy going disposition. San Quentin stamps his offspring consistently. Note this guy does have a higher BW, mama calved easily & typically gives us the bigger calves. She delivered a full sister mid Jan at 92lbs. She is a granddaughter of Hoc Broker but unfortunately was not registered.

Dam's udder at 2 weeks post calving

3

JNLC AZKABAN 515N

90	725		8.7	2.2	78.7	116.3	25.4	5	64.8

If you are looking for a super quiet bull to have in your herd, Azkaban is the one to take a look at. His dam is nicknamed 'Pet Cow' & he has her same easy going disposition. Another percentage bull, with a splash of fullblood going back to a cow we purchased many years ago & retired from our herd at 17 years old.

MRC BROKER 260Z MATERNAL GRAND SIRE OF LOT 2, 3, 4 & 5

Broker was a phenomenal bull for us at a time when we weren't registering anything yet, but built a solid foundation of daughters that are our top producers.

So God Made A Farmer

95	760		9.4	1.6	78.1	117.1	25.2	5.4	64.3

Big Dipper is our only black bull on offer this year, and while he is only 75% Simmental, he has the added touch of black angus on the dam side. His dam is sired by a son of Hoc Broker & she's been a no miss type cow - perfect feet, udder, disposition, size - always raising one of the top calves each year. 520N will definitely add pounds to your calves in the fall with the possibility of a little chrome!

If you're on the hunt for a cow bull with no fuss fancy papers, but you want performance & pounds, take a look at 507N! His dam is one of our most consistent cows, daughter's stay in the herd & steers top the market; she also has a beautiful udder, deep flank & untouched feet. This guy ticked a ton of boxes to make his way here today! He's the type we wouldn't hesitate to use on our commercial cows!

507N with his dam, 85E June 2025

Welcome to the first annual Young Guns Bull and Heifer Sale! Skylark Cattle Co. is located at Clive, Alberta. Within the rolling hills of the Pleasant Valley, you will find my herd of Fleckvieh and red purebred Simmental cows. My main focus has been to build a quality herd of highly maternal momma cows that work hard and look great doing it! Quality over quantity has been my mantra from the beginning as I believe every animal should be a 'front pasture' animal that you are proud to display. 2026 will mark my journey of 15 years within the purebred industry but I have been around commercial cattle my entire life! Please have a good look at my offering as I am very proud to bring forth this offering as each bull has been carefully bred with intention. I hope to see you at the Innisfail Auction Mart March 30 th for a great lunch and a sale. Tours are welcome at any time!

Thank you,
Emilee Oro

SKY ALEENA 31A DAM OF LOT 6

106	842		2.1	4.8	79.9	111.8	31.7	1.7	71.7

Red Purebred If you're in the business of putting pounds on cattle, this is the bull for you! 421M is a polled dark cherry red performance cow bull that is hard to miss. He is incredibly long spined and smooth through the shoulder to provide extra calving ease. 421M is a Waldron Konan son who goes back to the great calving ease sire, Rugged R Cavill. The Konan progeny grow rapidly with fantastic muscle definition and are incredibly quiet. We are calving the first daughters and they are laying down picture perfect udders. 421M's dam has been the backbone of my red purebred program. At 13 years old, her udder is incredibly perfect and she continues to be one of my top cows, weaning 421M off with an ADG of 3.4 lbs/day. 421M was used on a small group of AI cows as a clean up bull as we truly believe in his potential. If you want more money in your pocket...this is the bull for you!

7/8 Simmental Now here is a bull who has been a standout from the moment he hit the ground! 54N is a cat on the move, long spined with fantastic natural muscling, depth of rib and capacity. His first calf dam, did an incredible job and is a young cow with a very bright future here. Her milking ability is second to none and her udder placement couldn't be better. 54N hails from the Jessie cow family which has built the Skylark herd. These cows are incredibly maternal. They do a great job and look really good doing it! 54N is a son of MRL Sleep Easy 140D and with Virginia Marquee and Kuntz Sheriff in the pedigree, there is more than ample calving ease in this bull. 54N is the perfect balance of calving ease that wont sacrifice on performance in a polled package. Honestly doesn't get much better than that!

CROSSROAD PILOT 21H SIRE OF LOT 8

100% Fleckvieh Fullblood This bull is hard to miss! Mostly because he is so quiet that he is the first one to the fence for scratches. 511N is a Crossroad Pilot son out of a first calf heifer that I purchased from Richlan Farms. Pilot is known for his incredible calving ease and this is showcased with 511N having a CE of 10.9 (top 20% of the breed). 511N calves will come small but grow very quickly. Richlan Lexi 7N is a tank powerhouse of a cow that is structurally correct and maternal with phenomenal milking ability. 511N weaned off at 834lbs with an ADG of 3.14 lbs/day. This is a bull that is going to provide incredible calving ease AND carcass abilities. He truly is the best of both worlds and would be versatile in many different breeding operations. Do yourself and your pocketbook a favour, buy this one!

RED GOLD SIMMENTALS

My Name is Nick Orlick, I'm the owner of Red Gold Simmentals.

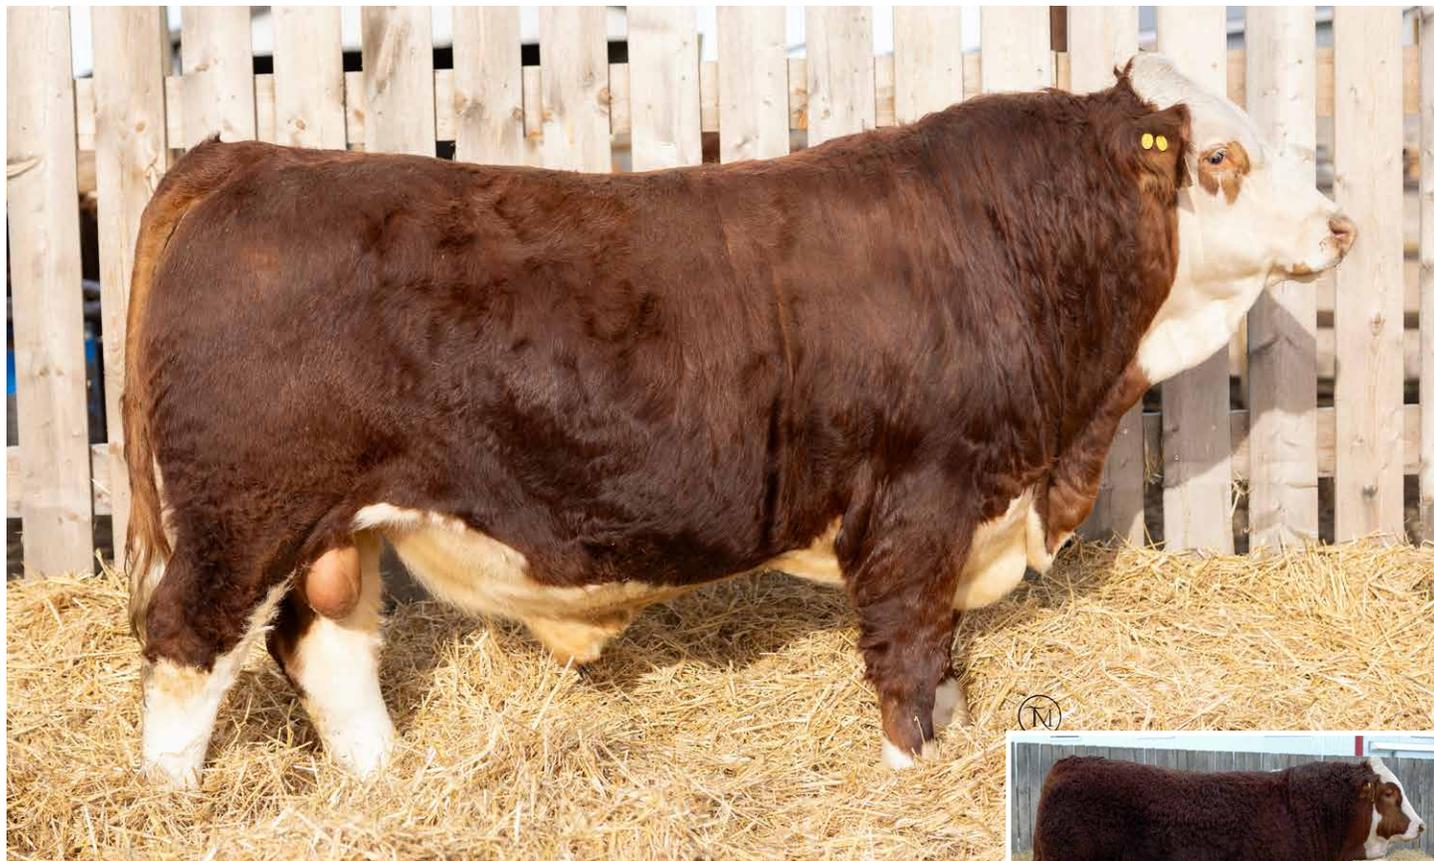

I'm located 9 miles South of Calmar, AB and 1 mile east. I have a small herd of 3 fullblood cows and I own a partnership cow with JNR Farms of Willingdon, AB

My dad, brothers and I also run a commercial herd of Simmental, Charolais, Angus cows and some grain as well. Our Family Farm "Orlick Farms" is celebrating its 100th Year Anniversary this year in 2026.

I'm currently going to Lakeland College for the Crop Technology program and then I'm planning on double dipping into Beef.

You can reach me at,
 Mobile: 1-780-216-2788
 Email: orlicknick72@gmail.com

RED GOLD SIMMENTALS

VIRGINIA PRECISION 16C SIRE OF LOT 9

9

NDO MR. SATURDAY NIGHT 1N

FULLBLOOD 1536539 NDO 1N JAN 11, 2025

BW	WW	YW	CE	BW	WW	YW	MILK	MCE	MWW
78	730		6.5	3.7	64.5	91.8	34.3	0.5	66.6

NDO Mr. Saturday Night is my consignment to the sale. He is a very smooth made bull with some pretty cool pigment on him as well he's a lower birthweight bull but to say the least he's got some power behind him in his pedigree. I would not classify him as a heifer bull. He's got excellent growth while also maintaining calving ease, he is the type of bull that adds muscle and shape with tons of growth for your calves in the fall while still having the calving ease to soften up the work load. His pedigree on the top side is chock full with calving ease with his sire Virginia Precision. I can't say enough good things about his dam Anchor D Jelena. Truly the best cow in my fullblood herd, I purchased her in 2024 from Anchor D Simmentals. This is her first calf and she put everything she had into him. She's got a perfectly placed utter, really good footed, very well tempered. She passed that trait onto Mr. Saturday Night as he is an absolute pet! If you want a bull that'll make good calves with muscle and shape in your pen, this is the bull for you.

If you like the Iconic and you're big on a polled package, this is the guy for you. I'm personally a really big fan of purebreds bred back Fleck and this calf is a prime example of why. He's powerful, moderate, and will no doubt make tremendous daughters.

Non-diluter test pending

If you're noticing a pattern with the name Iconic, it's because they just flat out work. The cross back to the Bambi cow family works every time with a couple of half sisters in full sisters working in the herd this bull no doubt will make every udder perfect and square with solid feet and a good hair coat to top it all off
