On behalf of Castlerock Marketing we are proud to present the 52nd Annual Masterpiece catalog! Yet again the consignors have stepped forward in wanting to offer the very best of their genetics for this event. Exciting times continue in the cattle industry and as always the demand for high caliber cattle is present.

Thanks again to the Gold-Bar crew, Paul, Sarah, Kaycee and Saige for being gracious hosts for three days! This venue continues to impress attendees for the laid back atmosphere in the presentation of the cattle. We have been blessed with excellent fall weather making the Masterpiece Sale very enjoyable. The offering boasts cattle that we feel will become cows to make a difference through the years. The genetics they represent are sound, productive and will serve the Angus breed well in the years to come. The relevance of this long standing sale is the impressions that are made from the long time breeders to the up and coming generations in a mentorship role and this has been the backbone of the Masterpiece Sale. Again, the venue and format allow for plenty of fellowship to converse over breeding strategies that the Black and Red Angus cattle face going forward to ensure real progress.

As always the videos will be completed Thursday afternoon and will be online Thursday evening for you to further evaluate the offering. Any questions regarding the sale cattle feel welcome to reach out to the consignors or any of us at Castlerock we will be happy to answer any questions you might have!

Thanks again to Norheim Equipment Co for supplying the panels for the sale, be sure to check out their display as well! See you sale day!

See you sale day!

Annie K 12P is certainly one of the most intriguing heifers here at the ranch. She has an impressive combination of femininity, power and balanced structure that captures your attention every time you see her. As well as a gentle, kind disposition. Her Dam is quickly becoming a herd favourite and has more than impressed us with the job she has done raising her first calf. Both 12P's Dam and Sire boast outstanding foot structures. An important trait that tracks back to her Grand Sires and Grand Dams on both sides of her pedigree.

If moderate maintenance free and easy fleshing are on your list for replacement females, look no further than this gal. A Prolific daughter out of a J Square cow we were lucky enough to add three years ago in the Female Focus sale that has been an absolute no miss female so far. We love how big bodied and maternal she is and looks like she will set down a near perfect udder just like her mother's. Halter broke and ready to go!

We have three very good Growth Fund heifers which created a good discussion on which heifer is the one to take to the Masterpiece we finally landed deciding on this good heifer. We have a bred heifer in the keeper pen so we figured it was ok to let this one go. This heifer is long and deep bodied. She is very feminine and has a fancy look to her and she is backed by a powerful pedigree from Deer Valley Growth Fund and Ellingson Top Shelf. Her dam is a moderate framed, long bodied broody cow and is one of the favorites in the herd.

We are opening up the vault to release this special heifer calf for sale. Opportunities like this do not come along often, as our concentration is on selling quality bulls. This calf has excelled so far; she is growthy, sound, and attractive. We have two full sisters in production, as well as many other top notch paternal siblings. Udder quality, production capability, and broodiness are built in to this beauty. One of her full sisters will have the lead off bull in our March sale in 2027. 26P's sire needs no introduction to anyone who has seen our program. He has sired multiple high sellers in our bull sale, as well as the Champion Pen of Black Angus bulls at CWA. He had a great foot and a moderate/long frame. 26P's dam has been a gem. She sired our lead off bull a few years back, has won our local summer show multiple times, and is a favourite of anyone who has toured the herd. Don't miss this heifer sale day. **RETAINING RIGHT TO FLUSH**

We think the heat was affecting us or we might have had one too many beers on the Angus tour this past summer when we finally agreed to sell Abound Blackbird 634P. We are pretty excited about this mating and group of flush mates. Her dam, Ivanhoe Blackbird 2A, is one of those true Angus cows and a reminder of why we like this breed. She had that ounce of spice and strong maternal traits that added some extra vigor and go into her offspring. She had a good udder, good feet and a wide massive top. She raised us some big nuttied, larger framed, high selling powerhouse bulls over the years. The sire, Baldridge Badger, is a bull that is bringing performance to a new level while at the same time adding some base width, muscle and a superior foot. He is backed by the Isabel Y69 cow who we feel is very well put together and a female that needs no introduction. Abound Blackbird 634P comes packing some punch. She has a nice neck extension, a wide muzzle and the skull of a true brood cow in the making. She rounds out the package with some extra mass, broad pins, lots of bone and tremendous depth and spring of rib. Abound Blackbird 634P has all the building blocks of a performance cow and is going to make some future breeding decisions rather exciting! This is one pretty special package!

This heifer calf represents the first calf crop out of our herd sire HF Wide Range 13m. His ability to sire high performing calves of both sexes while keeping birthweight in check is exactly what we were looking for when we purchased him. This heifer is proud fronted, deep ribbed, and square made. She has been at the top of my heifer calves from an early age, she took off and hasn't looked back. Her dam is a broody young Blackbird cow that's ideal in her udder and foot structure with some extra muscle shape and has worked her way to the top of the herd in a hurry.

We are very excited to offer Athena 47P to the 2026 Masterpiece Sale and proud to say this cow family has come full circle during the years of existence of the Masterpiece Sale!! 47P's granddam, HLC Athena 441B, a CAA designated Elite Dam, was Hillary's pick in 2014 CWA Masterpiece Sale. 441B has a lasting impression in our herd, with many daughters making their mark. That is production. Baldridge Bronc, her maternal grandsire, is always a sure bet for producing excellent females. The pedigree on this female you can't miss! Athena's sire, Windy Willows Fortune 83K is a bull we raised and is doing a phenomenal job as a herdsire walking with the mature cows. He will have a great selection of calves that will be on offer at our 2027 Bull Sale. Athena 47P is phenotypically very well made and balanced heifer. She carries tremendous hip and is built structurally correct. WWF Fortune Athena 47P is the complete package! Feel free to stop by anytime to check her out!

SMW Echo 82P is a standout maternal ET calf with the pedigree, look, and cow-family strength to command attention. She is out of a donor cow sourced from Coleman Angus in Montana and backed by her proven grandam, HF Echo 111Y, a female tied to successful flushes, champions, and front-pasture progeny at Poplar Meadows.

Sired by Myers Fair-N-Square, Echo 82P brings the kind of volume, foot quality, maternal longevity, and practical brood-cow value cattlemen appreciate. Phenotypically, she is feminine, deep-bodied, expressive in her muscle pattern, and equipped with the hair and presence to compete. Simply put, Echo 82P is the front-pasture kind—an elite female with the quality and maternal foundation to build around. September 8th weight, 840lbs

RLCC 149P is a daughter of our walking herdsire, Stark 77K. We've campaigned several Stark daughters over the past two years, and they have been very well received, going on to work exceptionally well in their new programs. With his first daughters now in production, we're impressed by their sound feet, maternal ability and beautiful udder structure. 149P is a smaller-made female with a touch more length than some of her paternal sisters, influenced by her dam's pedigree going back to MAR MAC CLASSIC 112C—a bull that stamped out some tremendous females early in our program. Quiet, easy to work with and built to be productive, take a good look at RLCC 149P as a future working female.

DERSTA FARM AND YARROW CREEK

A heifer that checks all the boxes! Red DERSTA Miss Hauck 506P is a daughter of the \$45,000 Red Cockburn Ms Hauck 14M, who also had her full brother sell this past spring for \$300k. Sired by none other than Red Wilbar Hennessy 3K who had a clean sweep of Supreme wins and who's offspring have topped sales across the country. 506P is bred for success both in the show ring and, more importantly, back at home raising calves. She combines a deep cherry-red colour with a clean, attractive front end, excellent lines, and the kind of presence that catches your eye. But what may set her apart most is her sweet, quiet disposition. She is the kind of heifer a junior can truly enjoy working with and showing, making her an outstanding junior prospect with a pedigree and cow family that give her plenty of future potential.

As usual the Revelation 215K daughters are standouts from the get-go and are bred with longevity and the maternal heritage of their paternal granddam Yesmaam 162Y herself. 602P's mother is no slouch either, always raising top progeny, like a maternal brother who sold as one of the high sellers in our Trusted Foundation Online Bull Sale this spring, and a maternal sister that was a highlight in our 2025 private treaty pen. The day we lose the sire to 602P will have to be a farm national holiday. I am not sure Jeff will ever recover! Revelation 215K progeny are the number one most prevalent sire group in the history of the ranch; with over 100 registered progeny that now spreads across three provinces. Scythia 602P is smooth through her shoulder and wedged through to her hips. Straight backed and sure footed; she turns heads on every pasture tour. She has loads of potential; coupled with the genetics that we are so proud of. She is "Progeny built on a Trusted Foundation!"

Nicole is off a young cow that we are know goes back to longevity. Her mother was 12 years old when she produced Nicole 50L and the pedigree on her comes with a cool twist too. 50L dropped Nicole on January 16th at a whopping 70lbs. This female was born early as most Revelation calves are that we have on our farm. Yup we offer another B-Elle Revelation 215K offspring. She comes from a strong background of fertile females that over the years have assisted Double C into having very recognizable females that consistently show a pattern to our program. One with all the traits everyone strives for but our ladies all come with natural depth of body and eye appealing characteristics. We are proud that our ladies and gentlemen we sell are easy keepers and tend to never have trouble maintaining their weight on good grass and hay. After all we have Angus cattle and they are known for being survivors that do well in less than ideal conditions like the hills and rocks of their original home Scotland. Parent verified.

Pteet came into the world on Jan 28th of 2026 at 82lbs. Her mother 66H has only ever had heifer calves to date. This past year her daughter had the top selling bull calf in our sale. Her mother 66H is a Diesel 218D daughter who was a bull a few years before his time. The mother of 66H is a Flying K Max 96X daughter and the pedigree of Pteet 524P suggests that she is going to be an amazing producing female with milk, fertility and she already has the phenotype or Mark wouldn't have picked her. The father of this fancy heifer is none other than Red B-Elle Revelation 215K that is starting to produce like we expected him to after seeing him at Red Round Up on display a few years ago. We had wanted to purchase Revelation as a youngster but it wasn't in the cards for us at the time, so we purchased semen on him 2 years ago. We are blessed to have been able to get a fair number of offspring from Revelation to date and the people we respect and know have been buzzing about the success they are having with him as well. So the two heifers we will be offering in the Masterpiece maybe an easy way to get into the world of Revelation. Parent verified

When selecting females for a sale of this caliber, we let Mark have free reign and held nothing back. He was able to make his selections out of a group of 80+ bred heifers so the selection process was slow and very critical! Red Jensen Tarana 565N has always been a standout for her tremendous length of body paired with a solid deep build and that eye catching presence that makes you take notice of her from any angle! The confidence that we have in this heifer could not be higher because we have 2 full sisters at home here that are already in production and they have exceeded every expectation we had! The 3 of them are absolutely identical so the guess work is already done with this girl!

A female that has been hard to miss from day one. Red B-Elle Yesmaam 509N is a daughter of the best cow we have ever bred and owned, a female who raised our current herdsire Revelation, and sons that topped our bull sale this past spring not to mention several daughters who are our most productive cows in their own rights. 509N may be the widest-topped female we have ever raised, yet she maintains the femininity, style and brood-cow presence that made her dam so special. She is bred to Red Six Mile Havasu 138M, a young sire turning plenty of heads with his first calf crop. A powerful cow family, an impressive individual, and a mating with incredible upside. We thought enough of 509N that we were able to freeze six embryos from her this spring.

Exposed April 28th to July 11th to Red Six Mile Havasu 138M. Ultrasound due Feb. 25th

RLCC 70N is a dark-colored female that follows closely in her dam's makeup, while being sired by our cherry-red walking MAR MAC LINCOLN 106H son, Leader 40L. Leader has outdone himself in his first two calf crops—he packs a punch while still carrying plenty of femininity through his daughters. He looks the part, and if they follow in the footsteps of his sire, we expect these females to develop into fantastic, functional cows. On the bottom side, 70N comes from a hardworking, easy-doing and productive cow. Her exposure is favourable to Red Moose Creek 168N, an SSS Granite 74H son purchased out of the infamous Moose Creek dispersal. Calving ease galore in this mating, with a pedigree built around cattle we expect to simply go out and work. To sum 70N up, we'd simply call her a future herd cow. She may not be destined for the show string, but she has all the makings of a darn good mama—the kind that goes to work, raises a calf and pays some bills.

March 29th – April 13th Red Moose Creek 168N, April 13th – May 23rd Red Mar Mac DM Rage 103N. Favorable to early exposure. Early Jan calving.

This heifer is a beautiful female, just like her mom. Last year when Shane was here; 29N and her dam was his favorite pair. This year Mark found her as a bred female, feminine, wedge shaped, beautiful Angus skull. Her sire at 8 years old was still sound with perfect feet and working in a commercial herd. The service sire is a son of the CWA Champion Conley Southpoint, proven calving ease.

Exposed to BJ's Lights Out 314 May 7th- July 4th, Due end of February.

LOT 38 & 39 CHOICE LOT

One of my favorite cow families, IDA's can be traced back the late 1960's when Steve acquired Ida of Northlane. I don't remember them but when I showed up in the late 1990's, DUM 14H was born (the 1998 born female) and at 18 years old she raised her last calf. In the last decade they have been multiplying in our herd and are becoming favorites. We value this cow family highly and if it weren't for her dam having a heifer calf this year 4N wouldn't be included as a choice lot.

Exposed to BJ's Lights Out 314 May 7th- July 4th, Due end of February

Shiloh Essence 11N is the type of female that is sure to add style and presence to your breeding program. She has an impressive frame and is solidly structured while still remaining clean fronted and feminine. And it certainly doesn't hurt to have the outstanding "Essence" cow family backing her up. Her kind and gentle temperament has earned her a special place in our hearts. Her sire, Greenwood High Class 87H, made a solid impression on us at Agribition in 2022. Essence 11N is bred to Belvin Nitro 5020. Nitro is a long bodied, stout made and smooth shouldered bull with loads of muscle expression. Nitro's Dam is angular, feminine, and has a beautiful udder structure.

Exposed to Belvin Nitro 5020 due to calve Mid - Late January.

When we aren't keeping Ippy in line on Facebook we will search for cattle with a look and presence to them that offer a strong pedigree backed by good cow families. We come across this Moon Pie at Cutting Edge Ranch and was impressed with him and having a shot of Relentless on the bottom side added to the intrigue. After visiting with Rick we were sold and were successful in getting him bought. With his first set of calves on the ground and looking exceptional! Howe Red Angus have a large group of calves that were a highlight on the tour this summer as well as Moon Pie who was on display as well!

Havasu 138M is a proud herd sire who is tough to fault from the ground up. His dark red color, ideal skull, eye appeal and true stride are to be admired. His maternal pedigree defines "Progeny Built on a Trusted Foundation". His dam, maternal grand-dam and paternal grand-dam are all females with great production records, sound udders and that added look from the famed Alana cow family. Havasu is a rare son of the \$210,000 USD bull, Mojave, who suffered an injury in his first breeding season, with limited semen collected. Havasu's first calves were born easy, with his look and style.

USA Reg# 5065493 | BWT 68 | 205 WT 669 | YWT 1262 | IMF 4.68 | REA 14.8 | Owned by Karli Kattle Co and Brylor /OTM

Red CJS Representative-He was the high selling bull this spring at the Shick "RED TRUCK" bull sale in Wyoming. (\$45,000 USD) He is total outcross from the blacks tracing back to SAV America. His head structure is absolutely a thing of beauty. He hits you hard when you first see him in colour!! To see this bull go to Karli's in Rocanville as that is his new home.

RED JACOBSON AWESTRUCK 5071

USA Reg# 5182777 | BWT 84 | 205 WT 705 | YWT 1287 | IMF 4.00 | REA 14.53 | Owned by Jeff Fraser and Brylor

Red Jacobson Awestruck-He was our choice of 4 full ET brothers this spring at Jacobsons in Minnesota and he came highly recommended by Seth Leachman. (\$18,000 USD) We really like the Kalli cow when I seen her a few yrs back but his sire was un-real good!! The Berwald Awestruck 3071 sire was a \$110,000 USD 2nd high seller in South Dakota and really lived up to his name as to when people viewed him they were completely Awestruck!! See this bull on your way to the Masterpiece sale in Moose Jaw at Bovigen

RED STRA HERDSMAN 5011

USA Reg# 5151449 | BWT 79 | 205 WT 812 | YWT 1361 | IMF 6.55 | REA 14.8 | Owned by Brylor / OTM and Twedt Red Angus

Red STRA Herdsman-His sire is one of if not THEE HOTTEST bull in the USA right now named Ranch Hand 2010!! Herdsman was our pick of Twedt's pen this spring at \$40,000 USD for a half share. His full ET brother was the high seller that day at \$150,000 but we felt this herdsman calf had a lot more to offer especially in the Phenotype and calving ease departments!! Herdsman absolutely BLEW THE LID CLEAR OFF on his scan this spring--- He had an actual IMF score of 6.55 to Ratio an astounding 203. He is in the top 1 % of the entire breed at a 1.21 IMF EPD!!

This is definitely an exciting pairing! The dam, an embryo herself, Donna 501F sold as a bred heifer and was the high seller in the 2020 Northern Select Sale for \$21,000. Her pedigree is stacked with great females and just recently Musgraves sold her paternal sister for a record setting \$460K USD. The Donna cow family has been in great demand and need no introduction, they flat out work. External Law has also created a big stir in the industry, his full sister in the Autumn Angus Classic just commanded \$130k for half embryo interest. The resulting calves from this mating will be damn fine cattle. We plan on bringing Donna to the sale with her bull calf so you can see her for yourself, she is an impressive female.

SALE NOTES

[illegible]

TERMS & CONDITIONS

1. **TERMS:** Unless otherwise previously arranged with an individual consignor, terms of this sale are cash payable in Canadian funds at the prevailing rate of exchange on the day of sale. All cattle may be held until the selling agent is satisfied that suitable arrangements for payment are made.
2. **IN THE CASE OF ILLNESS,** a veterinarian will be called by the Sales Manager if deemed necessary, but any expense involved will be the responsibility of the CONSIGNOR until the animal is sold and the PURCHASER thereafter.
3. **AS SOON AS AN ANIMAL IS SOLD,** it becomes the responsibility of the purchaser.
4. **BIDS:** Every animal entering the sale ring will be sold to the highest bidder. There will be no by-bidding by the owner or anyone authorized by him, however, the owner will be permitted one protective bid.
5. **DISPUTES:** In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.
6. **ANNOUNCEMENTS:** Errors discovered in the catalogue will be corrected by announcements from the Auction Stand at sale time, and such corrections will take precedence over the printed matter in the catalogue.
7. **CERTIFICATE OF REGISTRY:** A CANADIAN certificate of registry duly transferred will be furnished to the buyer for each animal after settlement is made.
8. **SHIPPING:** Assistance will be given in making shipment after the sale, but no risk is assumed by the Castlerock Marketing or the seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.
9. **ACCIDENTS:** Although every precaution will be taken to protect the safety and comfort of the buyers, neither the Auction Market, the Sales Manager, nor any owner assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.
10. **LIABILITY:** Castlerock Marketing are acting as agents only and assume no responsibility for representations made by the seller. Purchasers must look to the seller for fulfillment of all guarantees and representations made by the seller.
11. **BREEDERS GUARANTEE:** The terms standard with the Canadian Angus Association shall apply. Beyond that: (a) All animals sold are guaranteed breeders. (b) All bred females have been declared safe in calf by a qualified veterinarian. Pregnant females are guaranteed pregnant a minimum of ninety (90) days. (c) All mature females raised a calf in this year. (d) All calendar year heifers are guaranteed open at time of sale. Any animal that has not proven itself a breeder within six months after the date of sale, if, in healthy condition, may be returned to seller at buyer's expense. The seller reserves the privilege of trying for a period of six months to prove the animal a breeder. The seller, at his option, may either return the purchase price to the buyer or replace the animal with another of equal value in full settlement and satisfaction of ALL claims. Any complaints regarding fertility of any animal in this sale shall be directed to the Contributor. All complaints regarding breeding difficulties must be reported in writing by the buyer to the seller within the time specified above and any animal returned must be free from disease and in good health. Any calendar year heifer calf shown and/or flushed by the purchaser is no longer guaranteed a breeder under this paragraph #11.
12. **INSURANCE:** Livestock insurance and/or transit insurance will be available. Insurance rep, Larry Toner, will be on-site Sale Day.
13. **TESTING:** All cattle will be held at sellers' expense until all necessary health requirements are met.
